# BATHYMETRIC MAP

ATLANTIC OCEAN  
NORFOLK CANYON

Sea level information, including bathymetry, was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS multibeam and conventional hydrographic surveys (see color index) which comply with International Hydrographic Organization (IHO) Standard Publication 44 standards, including all those issued at the time of the survey. As this map is not national through Notice to Mariners updates for hazard and navigation information, the product is not intended for navigational purposes. For navigational safety, users must use national charts.

Offshore projection survey data, joined to existing, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Data Collection Unit Offshore Production. See notes. The projections on this map are for Federal agency purposes. For other purposes refer to the OCS Offshore Production Diagram available from the Minerals Management Service.

General Transverse Mercator Projection used (Zone 18, 1200000 meter false easting) (see notes) (Scale 1:50000) Datum 1983
