

Bathymetry compiled by the National Ocean Service (NOS) from Bathymetric Data other than NOS hydrographic surveys. This information is not intended for navigational purposes. Generalized Bathymetric Map (Zone 18, 10,000 Meter Data) are shown inside the outline.

DM-More projection (series 2000) printed in red, compiled by the Minerals Management Service. Heavy lines indicate lines of MMS (Deep) Contoural Projection Diagram. The coordinates on this map are for Federal Planning purposes. For such purposes refer to the OCS (Deep) Projection Diagram available from the Minerals Management Service.

1. Lack of sufficient data on portions of this map require the use of generalized form lines to infer probable shape for conical or elliptical shaped features that would otherwise appear rounded. The form lines are not at the unscaled contour interval.

EXPLANATION OF BATHYMETRIC DATA

Bathymetry compiled by the National Ocean Service (NOS) from Bathymetric Data other than NOS hydrographic surveys. This information is not intended for navigational purposes. Generalized Bathymetric Map (Zone 18, 10,000 Meter Data) are shown inside the outline.
