

Bathymetry compiled by the National Ocean Service (NOS) from Bathymetric Data other than NOS hydrographic surveys. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 18, 18,000 Meter Ticks (-) are shown inside the meridian.

Offshore protection survey data, plotted in red, compiled by the Minerals Management Service. Heavy lines indicate limits of 1000' Outer Continental Shelf Official Protection Program. The protections on this map are not for Federal Licensing purposes; for such purposes refer to the OCS Official Protection Diagram available from the Minerals Management Service.

Lack of sufficient data in portions of this map requires the use of generalized form lines to infer probable shape for contour or arbitrary shaped features that would otherwise appear irregular. The form lines are not at the prescribed contour interval.

EVALUATION OF BATHYMETRIC DATA

Bathymetry compiled by the National Ocean Service from Bathymetric Data other than NOS hydrographic surveys. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 18, 18,000 Meter Ticks (-) are shown inside the meridian.

Offshore protection survey data, plotted in red, compiled by the Minerals Management Service. Heavy lines indicate limits of 1000' Outer Continental Shelf Official Protection Program. The protections on this map are not for Federal Licensing purposes; for such purposes refer to the OCS Official Protection Diagram available from the Minerals Management Service.

Lack of sufficient data in portions of this map requires the use of generalized form lines to infer probable shape for contour or arbitrary shaped features that would otherwise appear irregular. The form lines are not at the prescribed contour interval.
