

NOS NJ 18-3 (OCS)

Base map information including bathymetry, compiled by the National Ocean Survey from NOS hydrographic surveys supplemented by hydrographic information from other sources. Bathymetric contour intervals: 10 meters to the 200 meter depth, supplemented by 2 meter intervals, thence 50 meters in the maximum depth, supplemented by 10 meter intervals (Datum: MLLW).

General: Transverse Mercator; Grid Zone 18, 18,000 meter scale (1:250,000) on the coastline. Lack of sufficient data on portions of the map requires the use of generalized form lines to show probable shape for contour or elliptical shaped features that would otherwise appear truncated. The form lines are not of the prescribed contour interval.

Projection: Diagram data presented in this chart compiled by the Bureau of Ocean Management.

This map is NOT a CDL or SOCGM for Federal Survey purposes. For such purposes use the BOM Outer Continental Shelf Official Projection Diagram.

These red lines indicate limits of these projection diagrams.

EVALUATION OF SURVEY ACCURACY

DEPTH (meters)	DEPTH (fathoms)	DEPTH (feet)	DEPTH (meters)	DEPTH (fathoms)	DEPTH (feet)
100	54	164	100	54	164
200	108	328	200	108	328
300	162	492	300	162	492
400	216	656	400	216	656
500	270	820	500	270	820
600	324	984	600	324	984
