

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry launched from 1929 hydrographic surveys supplemented by other hydrographic surveys (see notes). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards as those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid Zone 18, UTM Meter Ticks 1-2 are shown inside the mapline.

Offshore protection survey data, plotted in red, compiled by the Bureau of Land Management. Flare lines indicate limits of BLM Outer Continental Shelf Official Protection Diagram. The projections on this map are not for Federal Licensing purposes; for such purposes refer to the OCS Official Protection Diagram available from the Bureau of Land Management.

Recent hydrographic survey records for this location discrepancy with Washington Channel (N11846).

HYDROGRAPHIC SURVEY INFORMATION

DATE	DEPTH	UNIT	DEPTH	UNIT
1929	100	FATHOMS	100	METERS
