

Base map information including bathymetry was compiled by the National Ocean Survey (NOS). Bathymetry compiled from NOS hydrographic survey data (see notes) which comply with International Hydrographic Organization (IHO) Special Publication #19 accuracy standards or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 18, 1000 Meter Ticks (1:000) shown inside the cartographic frame.

Where geodetic survey data, printed in red, compiled by the Bureau of Land Management, heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagram. The projections on this map are not for Federal Licensing purposes, for such purposes refer to the OCS Official Protection Diagram available from the Bureau of Land Management.
