

NOS 16524-108

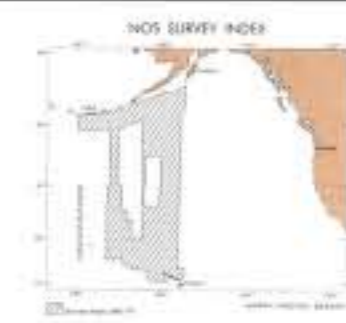

Bathymetry compiled from NOS SEAMAP series 1862 to 1973 supplemented by revised line other sources.
 Bathymetry is shown in 100 meter intervals.
 Source depth information converted for safety.

NOTE
 Lack of sufficient data on portions of this map leaves the real or probable shape of some or all of the features that would otherwise appear indicated. The line does not extend to the specified contour interval.
 Dashed contour lines are compiled from historical data.

Shaded areas of 100 meters bathymetric interval.
 Bathymetry is 100 meters interval.
