

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see note). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Publication M.2 survey standards or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid Zone 18, 12009 Meter Ticks (1:2) are shown using the datum.

Distance prediction survey data, printed in 1975, compiled by the Minerals Management Service Heavy Area Release Unit of MMS Outer Continental Shelf Official Protection Diagram. The projections on this map are not for Federal leasing purposes; for such purposes refer to the OCS Official Protection Diagram available from the Minerals Management Service.

100% of sufficient data on portions of the map require the use of generalized from lines to infer probable shape for contour or altitudinal features that would otherwise appear truncated. See from lines are not on the prescribed contour interval.

HYDROGRAPHIC SURVEY INFORMATION

Survey	Date	Depth	Chart
1801	1881	100	1111
1802	1882	100	1111
1803	1883	100	1111
1804	1884	100	1111
