

Base map information including bathymetry, was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic survey data supplemented by hydrographic information from other sources (see notes). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Publication #1 accuracy standards or those used at the date of the survey. This information is not intended for navigational purposes. General Transverse Mercator Grid Zone 11 (1020) Water Fath (-1) are shown inside the outline. Where appropriate survey data, plotted in red, compiled by the National Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf (OCS) Petroleum Program. The projections on this map are not for Federal leasing purposes; for such purposes refer to the OCS Outer Petroleum Diagram available from the American Management Service.

HYDROGRAPHIC SURVEY ABBREVIATIONS

ABBREVIATION	DESCRIPTION
1000	1000 FATHOM SURVEY
1000	1000 METERS SURVEY
1000	1000 METERS SURVEY
1000	1000 METERS SURVEY
