

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from ADC hydrographic survey data (see notes) which comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards or those used on the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 18 (CGRS Meter Y-axis) and shown inside the margin.

Offshore production areas (OPA), printed in red, compiled by the Minerals Management Service. Red lines indicate limits of MMS Outer Continental Shelf Offshore Production Program. The parameters on this map are not for Federal Licensing purposes, for such purposes refer to the OCS Offshore Production Program available from the Minerals Management Service.

Additional hydrographic sites on the map account for the general discrepancy with Series Chart No. 1815.
