

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from HGS hydrographic survey data (see index) which comply with International Hydrographic Organization (IHO) Special Publication 44 survey standards in those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 10, 1000 Meter Grid (1:1) are shown inside the mapline.

Offshore protection survey data, plotted on- or off- map, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf Offshore Protection Diagram. The protection on this map are not for Federal leasing purposes, for such purposes refer to the OCS Offshore Protection Diagram available from the Minerals Management Service.
