

Base map information including bathymetry was compiled by the National Ocean Survey (NOS). Bathymetry compiled from NOS hydrographic survey data (see index which comply with International Hydrographic Organization (IHO) Special Publication 4 accuracy standards as shown on the edge of the survey). This information is not intended for navigational purposes.

Horizontal Transverse Mercator Grid Zone 16, 18000 Meter Grid (1:1) are shown inside the map.

Different projection survey data compiled by the Bureau of Land Management (BLM) are shown inside of BLM Outer Continental Shelf Official Projection Diagram. The projections as this map are not for Federal Survey purposes, for such purposes refer to the OCS Official Projection Diagram available from the Bureau of Land Management.

Look at software data on bottom of this map requires the use of generalized applied contours.

HYDROGRAPHIC SURVEY INFORMATION
