

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see notes). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Publication M country standards at their date of the date of the survey. This information is not intended for navigational purposes.

Electronic Transferable Metadata Grid Zone 2 (1000 meter scale) is also shown inside the map.

Offshore geophysical survey data, plotted at 400, compiled by the Minerals Management Service. Heavy lines indicate areas of MMS Data. Contour interval 500 feet. Offshore geophysical data were not included in this map. For more information, see the OCS Official Information Diagram available from the Minerals Management Service.
