

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see notes). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Publication 44 accuracy standards as shown on the title block of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 4, 10000 meter scale (1:10000) are shown on the map.

Offshore profile survey data, printed in red, compiled by the Minerals Management Service. Heavy lines indicate lines of 4000' Outer Continental Shelf (OCS) Petroleum Program. The projections on this map are for general viewing purposes. For such purposes refer to the OCS Official Projection Diagram available from the Minerals Management Service.
