

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see index). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Publication 13 accuracy standards as of the date of the survey. This information is not intended for navigational purposes.

Uncovered Traverse Marker (UTM) Zone 4, 10000 meter scale (1:1) are shown inside the map.

Offshore position survey data, plotted in red, compiled by the University Management Service, Heavy Lines indicate tracks of 4000, Outer Continental Shelf (OCS) Fishery Diagrams. The projections on this map are not for Federal Licensing purposes; for such purposes refer to the DCI Official Fishery Diagram available from the Alaska Management Service.
