

Bathymetry compiled by the National Ocean Service (NOS) from bathymetric data other than 100 hydrographic surveys. This information is not intended for navigational purposes.
Universal Transverse Mercator Grid Zone 18 (2000 Meter Y-axis) are shown inside the map frame.
Official projection survey data, printed in red, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf Official Projection Diagram.
The projections on this map are not for Federal Licensing purposes, for such purposes refer to the OCS Official Projection Diagram available from the Minerals Management Service.

EXPLANATION OF BATHYMETRIC DATA

Bathymetric contours on this bathymetric map are based on the 100 hydrographic surveys. The contours are drawn at 10 meter intervals to the maximum depth, and are supplemented by 2 meter intervals. The datum is Mean Lower Low Water. The projection is Transverse Mercator Projection. The scale is 1:250,000.
