

(Provisional) NOS 1513N-10

Bathymetry compiled from NOS hydrographic and geophysical surveys dated 1922 to 1972. Unchecked Triangulation Station 2344, Zone 1, 10,000 meter tide, 1:1 scale shown inside the coastline. Bathymetric contour intervals: 10 meters to the 200 meter depth, 50 meters to maximum depth. Datum: MLLW.

**NOTE**  
Lack of sufficient data on portions of this map requires the use of generalized form lines to offer probable shape for contour or offshore shoal features that would otherwise appear irregular. The form lines are not of the prescribed contour interval.
