

NOS 15248-14 B

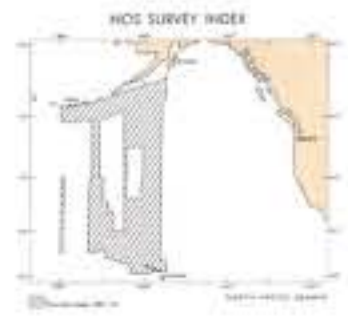

Bathymetry compiled from NOS 284667 series 140 to 1970 supplemented by survey data from other sources.  
 Bathymetric contour intervals: 100 meters.  
 Sound depth information corrected for refraction.  
 NOTE  
 Spots of sufficient size on portions of this map require the use of general spot form lines to infer possible shape for contour or elliptical shaped features that would otherwise appear irregular. The form lines are not at the prescribed contour interval.

Contours of primary bathymetric data  
 Supplemental Contours of secondary data
