

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from 1905 hydrographic survey (see index). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards at those used on the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid, Zone 2, 1800 Meter Ticks (---) are shown inside the coastline.

Offshore geophysical survey data, plotted in red, compiled by the Minerals Management Service. Heavy lines indicate limits of 4885 Outer Continental Shelf Offshore Production Region. The projections on this map are not for Federal Lending purposes; for such purposes refer to the OCS Offshore Production Region available from the Minerals Management Service.

HYDROGRAPHIC SURVEY INFORMATION

| DATE | NAME | CLASS | DEPTH |
|------|-----------|--------|-------|
| 1905 | ALBATROSS | HYDROG | 1000 |
| 1905 | ALBATROSS | HYDROG | 1000 |
| 1905 | ALBATROSS | HYDROG | 1000 |
