

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry compiled from 1920 hydrographic surveys supplemented by other hydrographic surveys (see index). NOS hydrographic survey data conform with International Hydrographic Organization (IHO) Special Publication on accuracy standards or those used at the date of the survey. This information is not intended for navigation purposes.

(Vertical Tropicale Meridian Grid Zone 2, 1000 Meter Ticks 1-4 are shown inside the parallel)

Offshore petroleum survey plots, plotted as red, compiled by the Minerals Management Service. Heavy lines indicate limits of 1980 Outer Continental Shelf Offshore Petroleum Program. The petroleum on this map are not for Federal leasing purposes, for such purposes refer to the OCS Offshore Petroleum Program available from the Minerals Management Service.
