

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic survey data supplemented by hydrographic information from other sources (see index). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Publication No. 14 standards and is based on the datum of the survey. This information is not intended for navigational purposes. Universal Transverse Mercator Grid, Zone 5; 10,000 Meter Ticks (-) are shown inside the profile.

Official production survey data, printed in red, compiled by the National Management Service. Profile lines indicate limits of NOAA Outer Continental Shelf Official Protection Diagram. The projections on this map are for Federal listing purposes; for such purposes refer to the OCS Official Protection Diagram available from the National Management Service.

HYDROGRAPHIC SURVEY INFORMATION

DATE	SHIP	OFFICER	DEPTH
1973	USCGC Spencer	LTJG J. H. ...	1000
