

BATHYMETRIC MAP

Base map information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by public domain information from other sources (see index). NOS hydrographic survey data comply with International Hydrographic Organization (IHO) Publication #1 accuracy standards or those used at the date of the survey. This information is not intended for navigational purposes.

Universal Transverse Mercator Grid Zone S, 1800 meter ticks (1) are shown inside the outline.

Offshore protection survey data, joined in red, compiled by the Marine Management Service (MMS) are outside limits of NOAA Outer Continental Shelf Offshore Fisheries Diagram. The projections on this map are not for Federal Licensing purposes; for such purposes refer to the OCS Offshore Protection Diagram available from the Marine Management Service.
