

BATHYMETRIC MAP

Raw data information including bathymetry was compiled by the National Ocean Service (NOS). Bathymetry was compiled from NOS hydrographic surveys supplemented by hydrographic information from other sources (see index). NOS hydrographic survey data complies with International Hydrographic Organization (IHO) Publication A4 accuracy standards as those listed at the date of the survey. This information is not intended for navigational purposes.

Geospatial Transverse Mercator (GTM Zone 18) 1000 Meter Ticks (1") are shown inside the map.

Depth projection survey data, printed in red, compiled by the Minerals Management Service. Heavy lines indicate limits of MMS Outer Continental Shelf (OCS) Protraction Diagrams. The projections on this map are not for National Mapping purposes, for such purposes refer to the OCS Protraction Diagram available from the Minerals Management Service.
