

NOS 13242-12B

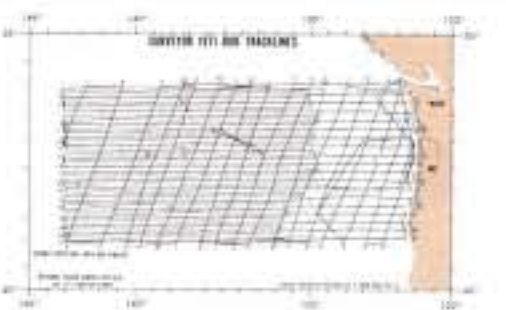

Bathymetry compiled from NOS geophysical survey data (1971), supplemented by data from other sources. Bathymetric contour interval is 100 meters (300 ft). 20 meter (60 foot) depth information represented for 40 fathoms.

Use of sufficient data on portions of the map requires the use of generalized bathymetry. In other portions depth for contour or depth information may be omitted or generalized. The lines are not to be considered as boundaries.

Locations of primary bathymetric data (Geophysical Survey Vessel)
