SEC. 329. (a) PROHIBITION ON TIMBER PURCHASER ROAD CREDITS.—In financing any forest development road pursuant to section 4 of Public Law 88-657 (16 U.S.C. 535, commonly known as the National Forest Roads and Trails Act), the Secretary of Agriculture may not provide effective credit for road construction to any purchaser of national forest timber or other forest products.

16 USC 535a.

(b)(1) CONSTRUCTION OF ROADS BY TIMBER PURCHASERS.—Whenever the Secretary of Agriculture makes a determination that a forest development road referred to in subsection (a) shall be constructed or paid for, in whole or in part, by a purchaser of national forest timber or other forest products, the Secretary shall include notice of the determination in the notice of sale of the timber or other forest products. The notice of sale shall contain, or announce the availability of, sufficient information related to the road described in the notice to permit a prospective bidder on the sale to calculate the likely cost that would be incurred by the bidder to construct or finance the construction of the road so that the bidder may reflect such cost in the bid.

(2) If there is an increase or decrease in the cost of roads constructed by the timber purchaser, caused by variations in quantities, changes or modifications subsequent to the sale of timber made in accordance with applicable timber sale contract provisions, then an adjustment to the price paid for timber harvested by the purchaser shall be made. The adjustment shall be applied by the Secretary as soon as practicable after any such design change is implemented.

(c) SPECIAL ELECTION BY SMALL BUSINESS CONCERNS.—(1) A notice of sale referred to in subsection (b) containing specified road construction of \$50,000 or more, shall give a purchaser of national forest timber or other forest products that qualifies as a “small business concern” under the Small Business Act (15 U.S.C. 631 et seq.), and regulations issued thereunder, the option to elect that the Secretary of Agriculture build the roads described in the notice. The Secretary shall provide the small business concern with an estimate of the cost that would be incurred by the Secretary to construct the roads on behalf of the small business concern. The notice of sale shall also include the date on which the roads described in the notice will be completed by the Secretary if the election is made.

(2) If the election referred to in paragraph (1) is made, the purchaser of the national forest timber or other forest products shall pay to the Secretary of Agriculture, in addition to the price paid for the timber or other forest products, an amount equal to the estimated cost of the roads which otherwise would be paid by the purchaser as provided in the notice of sale. Pending receipt of such amount, the Secretary may use receipts from the sale of national forest timber or other forest products and such additional sums as may be appropriated for the construction of roads, such funds to be available until expended, to accomplish the requested road construction.

(d) POST CONSTRUCTION HARVESTING.—In each sale of national forest timber or other forest products referred to in this section, the Secretary of Agriculture is encouraged to authorize harvest

of the timber or other forest products in a unit included in the sale as soon as road work for that unit is completed and the road work is approved by the Secretary.

(e) CONSTRUCTION STANDARD.—For any forest development road that is to be constructed or paid for by a purchaser of national forest timber or other forest products, the Secretary of Agriculture may not require the purchaser to design, construct, or maintain the road (or pay for the design, construction, or maintenance of the road) to a standard higher than the standard, consistent with applicable environmental laws and regulations, that is sufficient for the harvesting and removal of the timber or other forest products, unless the Secretary bears that part of the cost necessary to meet the higher standard.

(f) TREATMENT OF ROAD VALUE.—For any forest development road that is constructed or paid for by a purchaser of national forest timber or other forest products, the estimated cost of the road construction, including subsequent design changes, shall be considered to be money received for purposes of the payments required to be made under the sixth paragraph under the heading “FOREST SERVICE” in the Act of May 23, 1908 (35 Stat. 260, 16 U.S.C. 500), and section 13 of the Act of March 1, 1911 (35 Stat. 963; commonly known as the Weeks Act; 16 U.S.C. 500). To the extent that the appraised value of road construction determined under this subsection reflects funds contributed by the Secretary of Agriculture to build the road to a higher standard pursuant to subsection (e), the Secretary shall modify the appraisal of the road construction to exclude the effect of the Federal funds.

(g) EFFECTIVE DATE.—(1) This section and the requirements of this section shall take effect (and apply thereafter) upon the earlier of—

(A) April 1, 1999; or

(B) the date that is the later of—

(i) the effective date of regulations issued by the Secretary of Agriculture to implement this section; and

(ii) the date on which new timber sale contract provisions designed to implement this section, that have been published for public comment, are approved by the Secretary.

(2) Notwithstanding paragraph (1), any sale of national forest timber or other forest products for which notice of sale is provided before the effective date of this section, and any effective purchaser road credit earned pursuant to a contract resulting from such a notice of sale or otherwise earned before that effective date shall remain in effect, and shall continue to be subject to section 4 of Public Law 88–657 and section 14(i) of the National Forest Management Act of 1976 (16 U.S.C. 472a(i)), and rules issued thereunder, as in effect on the day before the date of the enactment of this Act.

The projects shall emphasize reducing risks to human safety and public health and property and enhancing ecological functions, long-term forest productivity, and biological integrity. The Secretary shall commence the projects during fiscal year 1999, but the projects may be completed in a subsequent fiscal year. No timber in Region 10 of the Forest Service shall be advertised for sale which, when using domestic Alaska western red cedar selling values and manufacturing costs, fails to provide at least 60 percent of normal profit and risk of the appraised timber, except at the written request by a prospective bidder. Program accomplishments shall be based on volume sold. Should Region 10 sell, in fiscal year 1999, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan which provides greater than 60 percent of normal profit and risk at the time of the sale advertisement, all of the western red cedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States based on values in the Pacific Northwest as determined by the Forest Service and stated in the timber sale contract. Should Region 10 sell, in fiscal year 1999, less than the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan meeting the 60 percent of normal profit and risk standard at the time of sale advertisement, the volume of western red cedar timber available

to domestic processors at rates specified in the timber sale contract in the contiguous 48 states shall be that volume: (i) which is surplus to the needs of domestic processors in Alaska; and (ii) is that percent of the surplus western red cedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold. (For purposes of this amendment, a “rolling basis” shall mean that the determination of how much western red cedar is eligible for sale to various markets shall be made at the time each sale is awarded.) Western red cedar shall be deemed “surplus to the needs of domestic processors in Alaska” when the timber sale holder has presented to the Forest Service documentation of the inability to sell western red cedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western red cedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder.
