Dear Mr. Boyd:

**PUBLIC AVAILABILITY**  
**OF UNOCAL RESEARCH DATA**

On June 20, 1991, certain Unocal representatives met with Peter Venturini and other members of his staff. During that meeting, we presented the results of three phases in Unocal's Vehicle/Fuels testing program. We subsequently made the data base available to the staff and agreed to make the data public if necessary in the development of a predictive model for use in the certification of reformulated gasoline.

The staff has now proposed to develop such a predictive model and requested that we make the data public.

Please be advised that Unocal now considers this data to be non-proprietary and available to CARB, environmental interest groups, other members of the petroleum industry, and the general public upon request.

Sincerely yours,

*Dennis W. Lamb*
