

DEPARTMENT OF THE INTERIOR

LAND AND MINERALS MANAGEMENT

BUREAU OF LAND MANAGEMENT

The Bureau of Land Management (BLM) is charged with the multiple use management of natural resources on 261 million acres of surface estate of public land, about one-eighth of the land in the United States. The BLM also administers approximately 700 million acres of onshore Federal mineral estate underlying BLM and other surface ownerships. In addition, BLM has trust responsibilities on 56 million acres of Indian trust lands for mineral operations and cadastral (land) survey. The lands managed by BLM provide important natural resources, recreational and scenic values to the American people, as well as resource commodities and revenue to the Federal Government, States, and counties. It is the mission of the BLM to sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations.

Federal Funds

General and special funds:

MANAGEMENT OF LANDS AND RESOURCES

For necessary expenses for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to Public Law 96-487 (16 U.S.C. 3150(a)), **[\$860,791,000] \$863,244,000**, to remain available until expended, of which **\$9,357,000 shall be derived from the Land and Water Conservation Fund; and of which [\$1,250,000] \$1,250,000** is for high priority projects, to be carried out by the Youth Conservation Corps; and of which **[\$3,000,000] \$3,000,000** shall be available in fiscal year **[2006] 2007** subject to a match by at least an equal amount by the National Fish and Wildlife Foundation for cost-shared projects supporting conservation of Bureau lands; and such funds shall be advanced to the Foundation as a lump sum grant without regard to when expenses are incurred.

In addition, \$32,696,000 is for Mining Law Administration program operations, including the cost of administering the mining claim fee program; to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation from annual mining claim fees so as to result in a final appropriation estimated at not more than **[\$860,791,000] \$863,244,000**, and \$2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication site activities. MANAGEMENT OF LANDS AND RESOURCES—Continued

Land resources.—Provides for management of rangeland and forest resources; riparian areas; soil, water, and air activities; wild horses and burros; and cultural resources.

Wildlife and fisheries management.—Provides for maintenance, improvement, or enhancement of fish and wildlife habitats as part of the management of public lands and ecosystems.

Threatened and endangered species management.—Provides for protection, conservation, consultation, recovery, and evaluation of populations and habitats of threatened, endangered and special status animal and plant species.

Recreation management.—Provides for management and protection of recreational resource values, designated and potential wilderness areas, and collection and expenditure of recreation user fees.

Energy and minerals management.—Provides for management of onshore oil and gas, coal, geothermal resources and other leasable minerals; mineral materials activities; and the administration of encumbrances on the mineral estate on Federal and Indian lands. The Budget proposes to increase user fees to recover certain bureau costs for these activities in 2008 and thereafter.

Realty and ownership management.—Provides for management and non-reimbursable processing of authorizations and compliance for realty actions and rights-of-way (including Alaska), administration of land title records and completion of cadastral surveys on public lands.

Resource protection.—Provides for management of the land use planning and National Environmental Policy Act processes, including monitoring activities. Also ensures the health and safety of users of the public lands through protection from criminal and other unlawful activities; the effects of hazardous material and/or waste; and physical safety hazards.

Transportation and facilities maintenance.—Provides for maintenance of administrative and recreation sites, roads, trails, bridges and dams, including compliance with building codes and standards and environmental protection requirements. These funds emphasize the Administration's commitment to halt infrastructure decay, allow for the systematic management of facilities with critical health and safety concerns, and ensure the protection of natural and cultural resources and the environment.

Land and resource information systems.—Provides for the operation and maintenance of existing bureau-wide automated systems and for the development and bureau-wide implementation of Land and Resource Information Systems.

Workforce and organizational support.—Provides for the management of specified bureau business practices, such as human resources, EEO, financial resources, procurement, property, general use automated systems, and fixed costs.

Communication sites.—Provides for the processing of communication site use authorization requests.

Mining law administration.—Provides for exploration and development of minerals on public lands pursuant to the General Mining Law of 1872, including validity examinations, patent application reviews, enforcement of environmental and bonding requirements, and recordation of mining claims. Program costs are partially offset by claim maintenance and other fees.

Challenge Cost Share (CCS).—This program leverages non-Federal funding, in-kind services, and materials with Federal funding to conduct on-the-ground projects that improve conditions of the public lands. These conservation, restoration, and enhancement projects benefit forestry, range, riparian, fish, wildlife, threatened and endangered species, recreation, and cultural resources.

Western Oregon resources management.—Provides for the management of 2.4 million acres of lands that are primarily forested ecosystems in western Oregon. These lands support a number of resource management activities including timber management, grazing management, and recreation management. In support of these management activities, BLM is involved in improving critical watersheds, restoring wildlife and fish habitat, providing safe recreation opportunities, and preserving cultural resources.

Western Oregon information and resource data systems.—Provides for the acquisition, operation and maintenance of the automated data support systems required for the management of the O&C programs.

Western Oregon transportation and facilities maintenance.—Provides for the maintenance of office buildings, warehouse and storage structures, shops, greenhouses, recreation sites and the transportation system that is necessary to assure public safety and effective management of the lands in western Oregon.

Western Oregon construction and acquisition.—Provides for the acquisition of road easements and road use agreements for timber site access and for other resource management activities including recreation use. This activity also provides for transportation planning, survey and design of access and other resource management roads and construction projects.

WILDLAND FIRE MANAGEMENT

[(INCLUDING TRANSFER OF FUNDS)]

For necessary expenses for fire preparedness, suppression operations, fire science and research, emergency rehabilitation, hazardous fuels reduction, and rural fire assistance by the Department of the Interior, **[\$766,564,000] \$769,560,000**, to remain available until expended, of which not to exceed **[\$7,849,000] \$7,734,000** shall be for the renovation or construction of fire facilities: *Provided*, That such funds are also available for repayment of advances to other appropriation accounts from which funds were previously transferred for such purposes: *Provided further*, That persons hired pursuant to 43 U.S.C. 1469 may be furnished subsistence and lodging without cost from funds available from this appropriation: *Provided further*, That notwithstanding 42 U.S.C. 1856d, sums received by a bureau or office of the Department of the Interior for fire protection rendered pursuant to 42 U.S.C. 1856 et seq., protection of United States property, may be credited to the appropriation from which funds were expended to provide that protection, and are available without fiscal year limitation: *Provided further*, That using the amounts designated under this title of this Act, the Secretary of the Interior may enter into procurement contracts, grants, or cooperative agreements, for hazardous fuels reduction activities, and for training and monitoring associated with such hazardous fuels reduction activities, on Federal land, or on adjacent non-Federal land for activities that benefit resources on Federal land: *Provided further*, That the costs of implementing any cooperative agreement between the Federal Government and any non-Federal entity may be shared, as mutually agreed on by the affected parties: *Provided further*, That notwithstanding requirements of the Competition in Contracting Act, the Secretary, for purposes of hazardous fuels reduction activities, may obtain maximum practicable competition among: (1) local private, nonprofit, or cooperative entities; (2) Youth Conservation Corps crews or related partnerships with State, local, or non-profit youth groups; (3) small or micro-businesses; or (4) other entities that will hire or train locally a significant percentage, defined as 50 percent or more, of the project workforce to complete such contracts: *Provided further*, That in implementing this section, the Secretary shall develop written guidance to field units to ensure accountability and consistent application of the authorities provided herein: *Provided further*, That funds appropriated under this head may be used to reimburse the United States Fish and Wildlife Service and the National Marine Fisheries Service for the costs of carrying out their responsibilities under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) to consult and conference, as required by section 7 of such Act, in connection with wildland fire management activities: *Provided further*, That the Secretary of the Interior may use wildland fire appropriations to enter into non-competitive sole source leases of real property with local governments, at or below fair market value, to construct capitalized improvements for fire facilities on such leased properties, including but not limited to fire guard stations, retardant stations, and other initial attack and fire support facilities, and to make advance payments for any such lease or for construction activity associated with the lease: *Provided further*, That the Secretary of the Interior and the Secretary of Agriculture may authorize the transfer of funds appropriated for wildland fire management, in an aggregate amount not to exceed \$9,000,000, between the Departments when such transfers would facilitate and expedite jointly funded wildland fire management programs and projects: *Provided further*, That funds provided for wildfire suppression shall be available for support of Federal emergency response actions. Preparedness.—This activity funds the non-emergency and predictable aspects of the Department's wildland fire program. Preparedness includes readiness, operational planning, oversight, procurement, training, supervision, and deployment of wildland fire suppression personnel and equipment prior to wildland fire occurrence. It also includes activities related to program monitoring and evaluation and integration of fire into land-use planning.

Fire suppression operations.—This activity funds the emergency and unpredictable aspects of the Department's wildland fire management program. Suppression operations include the

total spectrum of management actions taken on wildland fires in a safe, cost-effective manner, considering public benefits and values to be protected and consistent with resource objectives and land management plans. Emergency actions taken during and immediately following a wildfire to stabilize the soil and structures to prevent erosion, floods, landslides, and further resource damage are included in this activity. Emergency stabilization actions may be performed within one year of containment of a fire. Funding requests are guided by the historical 10-year average of suppression expenditures, adjusted for inflation.

Other operations.—This activity funds programs designed to reduce the risk of damage resulting from catastrophic wildland fires. Hazardous fuels reduction, fire facilities construction and maintenance, post-fire rehabilitation of burned areas, applied research, and grants to rural fire departments are funded in other operations. The hazardous fuels reduction activity includes the planning, all operational aspects, and monitoring of treatments to reduce fuel loads and promote ecosystem health in forests and rangelands. Methods for fuels reduction include prescribed fire, mechanical, and chemical treatments or a combination of methods. The fire facilities program funds construction and maintenance of facilities to house firefighters and equipment used in wildland firefighting and hazardous fuels reduction. Facilities funded in this activity include crew quarters, warehouses, fire caches, dispatch centers, fire stations, engine storage, and aviation bases. The burned area rehabilitation program begins the restoration process for lands and resources damaged by wildland fires that would not return to fire-adapted conditions without intervention. Soil stabilization and the introduction of native and other desirable plant species are employed for up to three years following containment of a fire to return severely-burned areas to appropriate fire regimes and resource conditions. The joint fire science activity funds the Department's share of the Joint Fire Science program, an interagency partnership to sponsor applied research to assist field managers in fire suppression, fuels treatment, and post-fire rehabilitation. The state and local fire assistance program, begun in 2001, provides financial support through cost-shared grants to local and rural fire protection districts that protect small communities. The Budget proposes that this program be eliminated in 2007 because it is duplicative of existing fire assistance grant programs within DHS and the Forest Service. Instead, the Department will focus more of its fire preparedness resources on training and certification of local firefighters so that they are qualified to assist on federal fires.

The Budget proposes to eliminate BLM's Range Improvements Fund in 2007. BLM expects to publish new regulations in 2006 that will allow grazing permittees to share title to such range improvements. This should increase the level of private investment in improvements and will decrease the need for the Federal government to fund these projects.

Permanent operating funds accounts include:

Operations and maintenance of quarters.—Funds in this account are used to maintain and repair BLM employee-occupied quarters from which rental charges are collected. Agencies are required to collect quarters rentals from employees who occupy Government-owned housing and quarters. This housing is provided only in isolated areas or where an employee is required to live on-site at a Federally owned facility or reservation.

Forest ecosystems health and recovery.—Funds in this account are derived from revenue generated from the Federal share of receipts from the sale of salvage timber from the Oregon and California grant lands, public domain lands, and Coos Bay Wagon Road lands. This account was established to allow the Bureau of Land Management to more efficiently and effectively address forest health issues. Funds can be used for other forest health purposes, including release from competing vegetation and density control treatments.

Timber sale pipeline restoration fund.—This fund provides for the deposit and use of fees collected by the BLM for sales of non-salvage timber pursuant to the timber salvage provisions of Public Law 104-19 and Public Law 105-83. Of the total deposited into this account, 75 percent is to be used for preparation of timber sales to fill the timber pipeline on lands administered by the BLM, and 25 percent is to be expended on the backlog of recreation projects on BLM lands.

Expenses, road maintenance deposits.—Users of certain roads under BLM's jurisdiction make deposits for maintenance purposes. Moneys collected are appropriated for necessary road maintenance. Moneys collected on Oregon and California grant lands are available only for those lands (43 U.S.C. 1762(c), 43 U.S.C. 1735(b)).

Federal Lands Recreation Enhancement Act, BLM.—The Federal Lands Recreation Enhancement Act was enacted on December 8, 2004 as part of the Consolidated Appropriations Act for FY 2005. The FLREA replaces the Recreation Fee Demonstration Program, and most current BLM sites will transition to the new program. All receipts collected under this authority will be deposited to this account. BLM returns 100 percent of these receipts back to the site where the fees were generated. The FLREA authorizes this program through 2014.

Acquisitions in Deschutes, Oregon from land sale receipts.—Pursuant to Public Law 105-221, the Oregon Public Lands Transfer Act, the Secretary of the Interior is authorized to use the proceeds from sales in Deschutes County to purchase environmentally sensitive lands.

Operations and acquisitions in Nevada from land sale receipts.—Pursuant to Public Law 105-263, 85 percent of receipts from sales of public domain lands in southern Nevada are used to acquire environmentally sensitive land in the State, implement certain conservation initiatives on Federal land in Clark County, Nevada, make capital improvements to areas administered by the NPS, FWS, and BLM in Clark County, Nevada, and develop parks, trails, and natural areas in Clark County.

Lincoln County Land Sales Act.—Public Law 106-298 authorizes the Secretary to dispose of certain lands in Lincoln County, Nevada, and distribute the proceeds as follows: five percent to the State of Nevada, 10 percent to the County, and 85 percent to an interest bearing account that is available for expenditure without further appropriation.

Leases from Naval Petroleum Reserve No. 2.—The 2005 Energy Policy Act established this fund for environmental investigation and restoration on that site. A portion of revenue from new leases on the site is authorized to be deposited to this account.

BLM Permit Processing Improvement Fund.—The 2005 Energy Policy Act established this pilot program. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited in this fund through 2015 and used to increase BLM oil and gas permit processing.

Geothermal Lease Revenue Fund.—The 2005 Energy Policy Act established this fund. Twenty-five percent of geothermal bonuses, rents, and royalties are authorized to be deposited to this account through 2010 and used to expedite geothermal leasing activities.

Federal land disposal.—The Federal Land Transaction Facilitation Act, P.L. 106-248 114 Stat. 613, provides that the Administration will conduct sales of lands that have been classified as suitable for disposal under current resource management plans. This law provides that receipts from such sales may be used to acquire non-Federal lands with significant resource values that fall within the boundaries of areas now managed by the Department of the Interior. The Budget proposes that 66 percent of the receipts from these land sales be returned to the Treasury beginning in 2007 and that the percent of receipts deposited to this account be reduced to 15 percent. The remaining four percent is paid to the States in which the sold land was located.

Excess Stewardship Receipt Fund.—Funds in this account are derived from stewardship contracts in which the revenues derived from forest products exceed the costs of services. As authorized by P.L. 108-7, these residual receipts can be used for other approved stewardship contracts.

BLM Permit Processing Improvement Fund.—The 2005 Energy Policy Act established this pilot program to improve oil and gas permit processing. Fifty-percent of the rents from non-geothermal onshore mineral leases are authorized to be deposited in this account through 2015. The 2007 Budget proposes to eliminate this fund and to substitute new user fees for this activity. The Budget assumes the new user fees would be in place by FY 2008 and that this fund would be eliminated at that time.

Geothermal Lease Revenue Fund.—The 2005 Energy Policy Act established this fund to expedite geothermal leasing. Twenty-five percent of geothermal bonuses, rents, and royalties are authorized to be deposited to this account through 2010. The 2007 Budget proposes to eliminate this fund and to provide additional funding for these purposes through increased user fees.

Federal land disposal.—The Federal Land Transaction Facilitation Act (FLTFA), P.L. 106-248 114 Stat. 613, authorizes the sale of BLM lands that have been classified as suitable for disposal under resource management plans in place at the time the Act was passed and allows the Department of the Interior to retain the proceeds from such sales to cover the administrative costs of those sales and to acquire other high-value non-Federal lands within specially-designated areas such as national parks, refuges, and monuments. The 2007 Budget proposes to amend FLTFA to: (1) allow BLM to use updated management plans to identify areas suitable for disposal, (2) allow a portion of the receipts to be used by BLM for restoration projects, (3) return 70 percent of the net proceeds from these sales to the Federal Treasury, and (4) cap DOI receipt retention at \$60 million per year.

Miscellaneous permanent payments include:

Payments to Oklahoma (royalties).—The State of Oklahoma is paid 37½ percent of the Red River oil and gas royalties in lieu of State and local taxes on Kiowa, Comanche, and Apache Tribal lands, to be used for construction and maintenance of public roads and support of public schools (65 Stat. 252).

Payments for Oregon and California and Coos Bay Wagon Road grant lands, receipts.—Under provisions of the Secure Rural Schools and Community Self-Determination Act of 2000 (Public Law 106-393), annual payments to the 18 Oregon & California (O&C) counties will be derived from any revenues, fees, penalties, or miscellaneous receipts received by the Federal Government from activities by the BLM on O&C and Coos Bay Wagon Road lands. These receipts are exclusive of deposits to any relevant trust fund, i.e., Timber Sale Pipeline Restoration and Forest Ecosystem Health and Recovery funds, or permanent operating funds.

Payments to States (proceeds of sales).—The States are paid five percent of the net proceeds from sale of public land and public land products (31 U.S.C. 1305).

Payments to States from grazing receipts, etc., public lands outside grazing districts.—The States are paid 50 percent of the grazing receipts from public lands outside of grazing districts (43 U.S.C. 315i, 315m).

Payments to States from grazing receipts, etc., public lands within districts.—The States are paid 12½ percent of grazing receipts from public lands inside grazing districts (43 U.S.C. 315b, 315i).

Payments to States from grazing receipts, etc., public lands within grazing districts, miscellaneous.—The States are paid specifically determined amounts from grazing receipts derived from miscellaneous lands within grazing districts when payment is not feasible on a percentage basis (43 U.S.C. 315).

Payments to counties, National Grasslands.—Of the revenues received from the use of Bankhead-Jones Act lands administered by the Bureau of Land Management, 25 percent is paid to the counties in which such lands are situated, for school and road purposes (7 U.S.C. 1012).

Payments to Nevada from receipts on land sales.—(A) Public Law 96-586 authorizes and directs the Secretary to sell not more than 700 acres of public lands per calendar year in and around Las Vegas, Nevada, the proceeds of which are to be used to acquire environmentally sensitive lands in the Lake Tahoe Basin of California and Nevada. Annual revenues are distributed to the State of Nevada (five percent) and the county in which the land is located (10 percent). (B) Public Law 105-263, as amended by P.L. 107-282, authorizes the disposal through sale of approximately 49,000 acres in Clark County Nevada, the proceeds of which are to be distributed as follows: (a) five percent for use in the general education program of the State of Nevada; (b) 10 percent for use by the Southern Nevada Water Authority for water treatment and transmission facility infrastructure in Clark County, Nevada; and (c) the remaining 85 percent to be used to acquire environmentally sensitive lands in Nevada; make capital improvements to areas administered by NPS, FWS and BLM in Clark County, Nevada; develop a multi-species habitat plan in Clark County, Nevada; develop parks, trails and natural areas and implement other conservation initiatives in Clark County, Nevada; and reimburse BLM for costs incurred arranging sales and exchanges under the Act. (C) Public Law 106-298 authorizes the sale of certain lands in Lincoln County, Nevada. The proceeds of these sales are to be distributed as follows: (a) five percent to the State of Nevada for general education purposes; (b) 10 percent to Lincoln County for general purposes with emphasis on supporting schools; and (c) the remaining 85 percent to be used by the Secretary of the Interior to acquire environmentally sensitive lands in the State of Nevada, for identification and management of unique archaeological resources, for development of a multi-species habitat conservation plan in the county, and for other specified administrative purposes.

Cook Inlet Region Inc. property.—This account received funding appropriated by section 9102 of the fiscal year 1990 Department of Defense Appropriations Act for the acquisition of Federal real properties, improvements on such lands or rights to their use or exploitation, and any personal property related to the land purchased by the Cook Inlet Region, Incorporated as authorized by the provisions of section 12(b) of Public Law 94-204 (43 U.S.C. 1611). Funds are made available to the Bureau of Land Management for administration and subsequent payment to accounts accepting Cook Inlet Region, Incorporated offers for Federal properties.

Native Alaskan groups' properties.—Funds were appropriated by Public Law 102-172 for the Calista Corporation, and by Public Law 102-415 for the Haida Corporation and the Gold Creek Susitna Association, Incorporated, for the acquisition by those groups of Federal real properties in fulfillment of claims originally settled in 43 U.S.C. 1617, the Alaska Native Claims Settlement Act.

Payments to Alaska from oil and gas leasing in the National Petroleum Reserve-Alaska (NPR-A).—P.L. 96-514 requires that any revenues received from oil and gas leasing in the NPR-A be shared 50 percent with the State of Alaska.

The Helium Act Amendments of 1960, Public Law 86-777 (50 U.S.C. 167), authorized activities necessary to provide sufficient helium to meet the current and foreseeable future needs of essential government activities.

The Helium Privatization Act of 1996, Public Law 104-273, provides for the eventual privatization of the program

and its functions. In 2007, the Helium program will consist of:

(a) continued storage and transmission of crude helium;
(b) complete disposal of helium refining facilities and other excess property not needed for storage and transmission of crude helium;

(c) oversight of the production of helium on Federal lands; and

(d) administration of in-kind and open market crude helium gas sale program.

The estimates assume that the helium program will continue full implementation of the Helium Privatization Act.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Land Management shall be available for purchase, erection, and dismantlement of temporary structures, and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to \$100,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the Bureau; miscellaneous and emergency expenses of enforcement activities authorized or approved by the Secretary and to be accounted for solely on her certificate, not to exceed \$10,000: *Provided*, That notwithstanding 44 U.S.C. 501, the Bureau may, under cooperative cost-sharing and partnership arrangements authorized by law, procure printing services from cooperators in connection with jointly produced publications for which the cooperators share the cost of printing either in cash or in services, and the Bureau determines the cooperator is capable of meeting accepted quality standards.

Section 28 of title 30, United States Code, is amended: (1) in section 28 by striking the phrase “shall commence at 12 o'clock meridian on the 1st day of September” and inserting “shall commence at 12:01 ante meridian on the 1st day of September”; (2) in section 28f(a), by striking the phrase “for years 2004 through 2008”; and (3) in section 28g, by striking the phrase “and before September 30, 2008.” (Department of the Interior, Environment, and Related Agencies Appropriations Act, 2006.)

MINERALS MANAGEMENT SERVICE

Federal Funds

General and special funds:

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcing laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed eight passenger motor vehicles for replacement only, [\$153,651,000] \$156,651,000, of which [\$78,529,000] \$79,158,000 shall be available for royalty management activities; and an amount not to exceed [\$122,730,000] \$128,730,000, to be credited to this appropriation and to remain available until expended, from additions to receipts resulting from increases to rates in effect on August 5, 1993, from rate increases to fee collections for Outer Continental Shelf administrative activities performed by the Minerals Management Service (MMS) over and above the rates in effect on September 30, 1993, and from additional fees for Outer Continental Shelf administrative activities established after September 30, 1993: *Provided*, That to the extent [\$122,730,000] \$128,730,000 in addition to receipts are not realized from the sources of receipts stated above, the amount needed to reach [\$122,730,000] \$128,730,000 shall be credited to this appropriation from receipts resulting from rental rates for Outer Continental Shelf leases in effect before August 5, 1993: *Provided further*, That \$3,000,000 for computer acquisitions shall remain available until September 30, [2007] 2008: *Provided further*, That not to exceed \$3,000 shall be available for reasonable expenses related to promoting volunteer beach and marine cleanup activities: *Provided further*, That notwithstanding any other provision of law, \$15,000 under this heading shall be available for refunds of overpayments in connection with certain Indian leases in which the Director of MMS concurred with the claimed refund due, to pay amounts owed to Indian allottees or tribes, or to correct prior unrecoverable erroneous payments: *Provided further*, That in fiscal year 2006 and thereafter, the MMS may under the royalty-in-kind program, or under its authority to transfer oil to the Strategic Petroleum Reserve, use a portion of the revenues from royalty-in-kind sales, without regard to fiscal year limitation, to pay for transportation to wholesale market centers or upstream pooling points, to process or otherwise dispose of royalty production taken in kind, and to recover MMS transportation costs, salaries, and other administrative costs directly related to the royalty-in-kind program: *Provided further*, That MMS shall analyze and document the expected return in advance of any royalty-in-kind sales to assure to the maximum extent practicable that royalty income under the program is equal to or greater than royalty income recognized under a comparable royalty-in-value program: *Provided further*, That for the costs of administration of the Coastal Impact Assistance Program authorized by section 31 of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1456a), MMS in fiscal years 2007 through 2010 may retain up to one percent of the amounts which are disbursed under section 31 (b)(1), such retained amounts to remain available until expended. (Department of the Interior, Environment, and Related Agencies Appropriations Act, 2006.)

[For an additional amount for “Royalty and Offshore Minerals Management”, for necessary expenses related to the consequences of hurricanes in the Gulf of Mexico in calendar year 2005 and for repayment of advances to other appropriation accounts from which funds were transferred for such purposes, \$16,000,000, to remain available until expended: *Provided*, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of H. Con. Res. 95 (109th Congress), the concurrent resolution on the budget for fiscal year 2006.] (Emergency Supplemental Appropriations Act to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza, 2006.)

The Minerals Management Service (MMS) is responsible for managing the nation's oil, natural gas, and other mineral resources on the Outer Continental Shelf (OCS) and the mineral revenues from the OCS, Federal and Indian lands. MMS's goal is to ensure environmental protection, promote responsible use, and realize fair market value for these natural resources. Through all of its programs, MMS works to ensure that the public receives maximum benefit from America's OCS resources and mineral revenues.

Outer Continental Shelf Lands.—The Offshore Minerals Management program coordinates MMS's responsibilities for OCS activities, which range from administering OCS leases and monitoring the safety of offshore facilities to protecting

America's coastal and marine environments. As the Nation's designated steward of the mineral resources on the OCS, MMS has worked diligently for over 20 years to build a successful offshore program with a legal and regulatory framework that will provide for safe and environmentally sound OCS mineral resource development. The Energy Policy Act of 2005, enacted on August 8, 2005, grants the Department of Interior and MMS new responsibilities over Federal offshore renewable energy and related-uses of America's offshore public lands. As a result, MMS is required to develop and administer a permitting program, promulgate new regulations, and manage pre-existing wind energy projects.

Minerals revenue management.—Through the Minerals Revenue Management program, MMS ensures that the Nation's Federal and Indian mineral revenues, whether received through in-kind or in-value royalties, are accurately reported and paid in compliance with laws, regulations, and lease terms. Revenues collected by MMS are one of the largest sources of non-tax revenue to the Federal Government. MMS disburses mineral revenues to states, the Office of the Special Trustee for American Indians, other Federal agencies, and the general fund of the U.S. Treasury. Through the Royalty In Kind (RIK) program, MMS administers in-kind royalties so that the resources received are managed in a manner that best benefits the Nation.

General Administration.—The general administration program is responsible for providing leadership, securing resources, developing organizational capabilities, coordinating strategic planning efforts, building infrastructure and assuring the appropriate delivery of services for the entire MMS organization.

For Mineral Leasing and Associated Payments (MLAP), the Mineral Leasing Act (MLA), 30 U.S.C. 181 et seq., provides that all States be paid 50 percent of the revenues resulting from the leasing of mineral resources on Federal public domain lands within their borders. In addition, under the MLA, 40 percent of revenues are paid to the Reclamation Fund, which funds western water projects, and the remaining 10 percent is paid into the General Funds of the United States Treasury. By law, Alaska receives no funds from the Reclamation Fund, but receives a 90-percent share of mineral leasing receipts. Mineral leasing revenues are derived from royalties, rents, bonuses, and other revenues, including minimum royalties, late payment interest, settlement payments, gas storage fees, estimated royalty payments, and recoupments.

The Energy Policy Act of 2005 (P.L. 109-58) amends section 31 of the Outer Continental Shelf (OCS) Act (43 U.S.C. 1356 et seq.) to require that \$250,000,000 of OCS revenues be paid annually to coastal States and coastal political subdivisions that have submitted approved coastal impact assistance plans. The formula for distribution is based on the amount of qualified OCS revenues generated off the coastline of each producing State. In addition, 35 percent of each state's allocable share is to be distributed to coastal political subdivisions based on population, coastline and distance to applicable OCS leases. The payments are to be made starting in 2007 with the last payment to be made in 2010.

Title IV of the Department of the Interior and Related Agencies Appropriation Act, 1998 (P.L. 105-83) established the Environmental Improvement and Restoration Fund account. As required by law, 50 percent of the principal and 50 percent of the interest from the Alaska Escrow account are deposited into the Environmental Improvement and Restoration Fund. The law requires that the corpus of the Fund be invested. Twenty percent of the interest earned by the Fund is permanently appropriated to the Department of Commerce and the unappropriated balance of interest remains in the fund. At this time, no budget authority is requested.

As of May 23, 1908 (16 U.S.C. 499), 25 percent of the revenues collected from onshore mineral leasing and production on national-forest lands have been paid to the State in which the national forest resides. A State's payment is based on national forest acreage and when a national forest is situated in several States, an individual State payment is proportionate to its area within that particular national forest.

Flood Control payments to states are shared according to the Flood Control Act of 1936 (33 U.S.C. 701 et seq.) which provides that 75 percent of revenue collected be shared with the State in which it was collected. These funds are to be expended as the State legislature may prescribe for the benefit of the public schools and roads in the county from which the revenue was collected or for defraying any of the expenses of county government. These expenses include public obligations of levee and drainage districts for flood control and drainage improvements.

The Energy Policy Act of 2005 (P.L. 109-58) amended section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019 et seq.). The amendment provides that for the revenues collected from geothermal leasing, 50 percent of the revenues are to be paid to the State and 25 percent are to be paid to the County in which the leased lands or geothermal resources are located. In addition, revenue amounts, received during the first five fiscal years following enactment of the Energy Policy Act and excluding funds paid to State and County governments, are deposited into a separate Treasury account for use in the implementation of the Geothermal Steam Act of 1970 and the Energy Policy Act of 2005.

Environmental protection.—This activity funds those functions that directly contribute to ensuring that the environment is protected during surface coal mining operations. It also addresses those activities that ensure that coal operators adequately reclaim the land after mining is completed.

Under this activity, OSM provides regulatory grants to States to operate enforcement programs under the terms of the Surface Mining Control and Reclamation Act of 1977 (SMCRA). It also provides for the operation of Federal and Indian land programs and the oversight of State programs, and supports State regulatory program development and maintenance. In addition, this activity funds environmental reclamation efforts through the collection of civil penalties for post-SMCRA reclamation and funds from bond forfeitures, and provides funding for underground and coal outcrop fires.

Technology development and transfer.—This activity provides funding to enhance the technical skills that States and Indian tribes need to operate their regulatory programs. It

provides technical outreach to States and Indian tribes to solve problems related to the environmental effects of coal mining. The Applicant Violator System is funded from this activity.

Financial management.—This activity provides the resources for the managing, accounting, and processing of collections and for the pursuit of delinquent civil penalties. This includes developing and maintaining information management systems that support these functions and enhance the agency's ability to deny new mining permits to applicants with unabated State or Federal violations.

Executive direction and administration.—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services, such as rent, telephones, and postage.

Environmental restoration.—This activity funds those functions that contribute to reclaiming lands affected by past coal mining practices. Funds are used to restore land and water resources and the environment that have been degraded by mining prior to the passage of the Surface Mining Control and Reclamation Act (SMCRA).

This activity provides reclamation grants to qualified States. It also provides for the Federal reclamation program, which includes the Federally-administered emergency reclamation program, and for high priority projects in States that do not have a reclamation program.

Funding is also provided within this account for the Appalachian Clean Streams Initiative.

Technology development and transfer.—This activity provides funding to enhance the technical skills that the States and Indian tribes need to operate their reclamation programs. OSM conducts technical studies on mining and reclamation-related problems.

Financial management.—This activity provides funds to identify, notify, collect, and audit fees from coal operators for the Abandoned Mine Reclamation Fund. OSM seeks to maximize voluntary compliance with the SMCRA's reclamation fee provisions.

Executive direction and administration.—This activity provides funding for executive direction, general administrative support, and the acquisition of certain agency-wide common services such as rent, telephones, and postage.

WATER AND SCIENCE

BUREAU OF RECLAMATION

Appropriations to the Bureau are made from the general fund and special funds. The special funds are: (a) the Reclamation Fund, derived from repayments and other revenues from water and power users, receipts from the sale, lease, and rental of Federal lands, and certain oil and mineral revenues; (b) the Central Valley Project Restoration Fund, consisting of revenues from project beneficiaries; and (c) other sources such as the Colorado River Dam Fund, which generates revenue from the sale of Boulder Canyon power, and the recreation, entrance, and use fee account, consisting of fees collected pursuant to the Land and Water Conservation Fund Act of 1965, as amended. Non-Federal entities also advance funds for operation and maintenance and provide funds under the Contributed Funds Act. The Water and Related Resources account supports the development, management, and restoration of water and related natural resources in the 17 Western States. The account includes funds for operating and maintaining existing facilities to obtain the greatest overall level of benefits, to protect public safety, and to conduct studies on ways to improve the use of water and related natural resources. Work will be done in partnership and cooperation with non-Federal entities and other Federal agencies to reduce conflict, facilitate solutions to complex water issues and stretch limited water supplies. In 2007, Reclamation will continue to implement Water 2025, which is aimed at preventing conflict and crises over water in the West by focusing Reclamation's resources on areas in the West where conflict exists or is most likely to occur.

Ongoing construction costs of the Central Arizona project are financed through appropriations transferred to this fund. Revenues from the operation and repayment, including interest, of project facilities are available without further appropriation. A portion of the revenues from the Boulder Canyon power and Parker-Davis projects are also transferred to this fund. Use of the revenues are authorized for operation and maintenance expenses, for a share of Colorado River salinity control projects, and for other purposes defined in the Colorado River Basin Project Act as amended by the Arizona Water Settlements Act, P.L. 108-451.

Under the Small Reclamation Projects Act, loans and grants can be made to non-Federal organizations for construction of small water resource projects.

As required by the Federal Credit Reform Act of 1990, the loan program account records the subsidy costs associated with the direct loans obligated in 1992 and beyond, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

No funds are requested for the Bureau of Reclamation Loan Program for direct loans or Loan Program Administration for fiscal year 2007.

UNITED STATES GEOLOGICAL SURVEY

Federal Funds

General and special funds:

SURVEYS, INVESTIGATIONS, AND RESEARCH

For expenses necessary for the United States Geological Survey to perform surveys, investigations, and research covering topography, geology, hydrology, biology, and the mineral and water resources of the United States, its territories and possessions, and other areas as authorized by 43 U.S.C. 31, 1332, and 1340; classify lands as to their mineral and water resources; give engineering supervision to power permittees and Federal Energy Regulatory Commission licensees; administer the minerals exploration program (30 U.S.C. 641); conduct inquiries into the economic conditions affecting mining and materials processing industries (30 U.S.C. 3, 21a, and 1603; 50 U.S.C. 98g(1)) and related purposes as authorized by law; and to publish and disseminate data relative to the foregoing activities; **[\$976,035,000] \$944,760,000**, of which **[\$63,770,000] \$62,171,000** shall be available only for cooperation with States or municipalities for water resources investigations; of which **[\$8,000,000] \$7,882,000** shall remain available until expended for satellite operations; of which **[\$21,720,000] \$21,083,000** shall be available until September 30, **[2007] 2008**, for the operation and maintenance of facilities and deferred maintenance; of which **[\$1,600,000] \$2,000,000** shall be available until expended for deferred maintenance and capital improvement projects that exceed \$100,000 in cost; and of which **[\$177,485,000] \$172,596,000** shall be available until September 30, **[2007] 2008**, for the biological research activity and the operation of the Cooperative Research Units: *Provided*, That none of the funds provided for the biological research activity shall be used to conduct new surveys on private property, unless specifically authorized in writing by the property owner: *Provided further*, That no part of this appropriation shall be used to pay more than one-half the cost of topographic mapping or water resources data collection and investigations carried on in cooperation with States and municipalities. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2006.*)

[For an additional amount for "Surveys, Investigations, and Research", for necessary expenses related to the consequences of hurricanes in the Gulf of Mexico in calendar year 2005 and for repayment of advances to other appropriation accounts from which funds were transferred for such purposes, \$5,300,000, to remain available until expended: *Provided*, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of H. Con. Res. 95 (109th Congress), the concurrent resolution on the budget for fiscal year 2006.

For an additional amount for "Surveys, Investigations, and Research" for the detection of highly pathogenic avian influenza in wild birds, including the investigation of morbidity and mortality events, targeted surveillance in live wild birds, and targeted surveillance in hunter-taken birds, \$3,670,000, to remain available until September 30, 2007: *Provided*, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of H. Con. Res. 95 (109th Congress), the concurrent resolution on the budget for fiscal year 2006. The U.S. Geological Survey provides research and scientific information to support the mission of the Department of the Interior and the science needs of its land and resource management bureaus. The U.S. Geological Survey also works in collaboration with other Federal, State, and Tribal cooperators to conduct research and provide scientific data and information concerning natural hazards and environmental issues pertaining to the water, land, geologic, and biological resources of the Nation.

The 2007 budget continues science programs that generate relevant, objective information for land managers and for communities throughout the Nation. Major areas of emphasis in the budget include preparing for a new and improved Earth observation system, set to launch by 2010, and a pilot program to assist communities in developing integrated natural hazards preparedness and mitigation plans.

Geographic research, investigations, and remote sensing.—The USGS Geography Program seeks to observe the Earth at various scales using remote sensing to understand the human and environmental dynamics of land change. The Geography Program also provides scientific information to describe and interpret America's landscape by mapping the terrain, monitoring changes over time, and analyzing how and why these changes have occurred. The knowledge gained through these activities is used to model the processes of change and to forecast future changes.

Geologic hazards, resources, and processes.—The national program of onshore and offshore geologic research and investigations produces: (1) information on natural hazards of geologic origin such as earthquakes, volcanic eruptions, landslides, and coastal erosion; (2) geologic information for use in the management of public lands and in national policy determinations; (3) information on the chemistry and physics of the Earth, its past climate, and the geologic processes by which it was formed and is being modified; (4) geologic, geophysical, and geochemical maps and analyses to address environmental, energy and mineral resource, and hazards concerns; (5) hazards, energy and mineral resource, and environmental assessments; and (6) improved methods and instrumentation for detecting and monitoring hazards, disseminating hazards information, and conducting assessments.

Water resources investigations.—The USGS water programs produce data, analyses, assessments, and methodologies to support Federal, State, Tribal, and local government decisions on water planning, water management, water quality, flood forecasting and warning, and enhancement of the quality of the environment. The U.S. Geological Survey's water resources programs work cooperatively with other Federal agencies, States, and other entities to leverage Federal resources to meet their mutual water information needs.

Biological research.—The national program of biological research: (1) conducts biological resources inventory and monitoring; (2) provides scientific information for the management of biological resources; and (3) predicts the consequences of environmental change and the effects of alternative management actions on plants, animals, and their habitats. The program conducts the high priority biological research needed by the Department of the Interior's land management bureaus and operates the Cooperative Research Unit program, which provides research and information to resource managers, and

trains natural resource professionals in partnership with university and State scientists.

Enterprise information.—The USGS enterprise information program supports bureau-level activities and investments in the areas of information technology, information security, information management, information policy and standards, and information science. As the primary vehicle for planning and executing the broad information goals and objectives of the USGS, the program provides bureau-level information policies, infrastructure, and services needed to support the bureau's scientific mission; creates an integrated information environment within the USGS; ensures that the bureau meets legislative and administrative information management mandates; and provides the basic foundation for easy discovery, access, acquisition, and use of USGS data and information. The 2007 budget proposes a budget restructure that moves *The National Map* from Geographic research, investigations, and remote sensing to Enterprise information. The National Geospatial Program is focused on improving geospatial data access, integration, and applications through implementation of *The National Map* and the National Spatial Data Infrastructure (NSDI). Partnerships with other Federal, State, and local agencies; the private sector; and academia are the key-stone for accomplishing this mission.

Science support.—Science support provides for Bureauwide management; executive direction and coordination; administrative, human resources, and business information systems management; and financial and personnel systems support provided by DOI's National Business Center.

Facilities.—This activity finances: (1) USGS rental payments; (2) operation and maintenance for properties; and (3) deferred maintenance and capital improvement.

Reimbursable program.—Reimbursements from non-Federal sources are from States, Tribes, and municipalities for: cooperative efforts and proceeds from sale to the public of copies of photographs and records; proceeds from sale of personal property; reimbursements from permittees and licensees of the Federal Energy Regulatory Commission; and reimbursements from foreign countries and international organizations for technical assistance. Reimbursements from other Federal agencies are for mission-related work performed at the request of the financing agency.

Funds in this account are provided by States, local governments, and private organizations (pursuant to 43 U.S.C. 36c). This appropriation (a permanent, indefinite, special fund) makes these funds available to the USGS to perform the work desired by the contributor and the USGS. Research and development; data collection and analysis; and services are undertaken when such activities are of mutual interest and benefit and assist the USGS in accomplishing its mandated purposes.

ALLOCATIONS RECEIVED FROM OTHER ACCOUNTS

Note.—Obligations incurred under allocations from other accounts are included in the schedule of the parent appropriation as follows:

Department of the Interior: Bureau of Land Management: "Central hazardous materials fund".

Department of the Interior: Departmental Offices: "Natural resource damage assessment and restoration fund".

ADMINISTRATIVE PROVISIONS

From within the amount appropriated for activities of the United States Geological Survey such sums as are necessary shall be available for the purchase and replacement of passenger motor vehicles; reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for gauging stations and observation wells; expenses of the United States National Committee on Geology; and payment of compensation and expenses of persons on the rolls of the Survey duly appointed to represent the United States in the negotiation and administration of interstate compacts: *Provided*, That activities funded by appropriations herein made may be accomplished through the use of contracts, grants, or cooperative agreements as defined in 31 U.S.C. 6302 et seq.: *Provided further*, That the United States Geological Survey may enter into contracts or cooperative agreements directly with individuals or indirectly with institutions or nonprofit organizations, without regard to 41 U.S.C. 5, for the temporary or intermittent services of students or recent graduates, who shall be considered employees for the purpose of chapters 57 and 81 of title 5, United States Code, relating to compensation for travel and work injuries, and chapter 171 of title 28, United States Code, relating to tort claims, but shall not be considered to be Federal employees for any other purposes. Ecological services.—The Service conserves, protects, and enhances fish, wildlife, plants, and their habitat by working with private landowners, States, and other Federal agencies. These partnership activities help make the listing of species under the Endangered Species Act unnecessary and protect and recover those species that are listed. Financial assistance is provided to private landowners to restore or improve habitat for endangered species and other at-risk species. Technical assistance helps prevent or minimize adverse environmental effects of development projects. Contaminants are investigated, monitored, and assessed for effects on trust resources.

National wildlife refuge system.—The Service maintains the National Wildlife Refuge System consisting of 545 refuges, waterfowl production areas in 203 counties that are managed by 37 wetland management districts, and 50 coordination areas, totaling nearly 96 million acres. A total of \$131.7 million is proposed for refuge maintenance as part of the Service's continued effort to address deferred maintenance.

Migratory bird management and law enforcement.—The Service directs and coordinates national migratory bird programs to protect and enhance populations and habitat of more than 900 species of birds. Grants and partnerships are key to these programs, such as Joint Ventures implementing the North American Waterfowl Management Plan. The Service Law Enforcement program investigates wildlife crimes, regulates wildlife trade, helps Americans understand and obey wildlife protections laws, and works in partnership with international, state, and tribal counterparts to conserve wildlife resources.

Fisheries.—The Fisheries Program consists of 69 national hatcheries, nine Fish Health Centers, seven Fish Technology Centers, 64 Fishery Resource Offices, and a Historic National Fish Hatchery. Working with partners, the Fisheries Program recovers, restores and maintains fish and other aquatic resources at self-sustaining levels; provides technical assistance to States, Tribes and others; and supports Federal mitigation programs for the benefit of the American Public.

General operations.—Funding for Service general operations provides policy guidance, program coordination, and administrative services to all fish and wildlife programs. The funds also support the Service's international activities, the National Conservation Training Center, science excellence, and projects through the National Fish and Wildlife Foundation to restore and enhance fish and wildlife populations.

Consistent with the Administration's focus on working with partners to address imperiled species and other priority wildlife conservation needs, the State and Tribal Wildlife grant program provides funds to States, the District of Columbia, Tribes, and territories to develop and implement wildlife management and habitat restoration programs. Allocation of funds

to the States is determined by a formula of one-third based on land area and two-thirds based on population and require a cost-share. Grants to the Tribes are awarded competitively. Additionally, \$5,000,000 will be provided on a competitive basis to those projects that emphasize cooperative conservation and best demonstrate results linked to outcome performance goals.

Federal Land Acquisition funds are used to protect areas that have native fish and/or wildlife values and provide natural resource benefits over a broad geographical area, and for acquisition management activities. Emphasis is placed on acquiring important fish and wildlife habitat necessary for the conservation of listed, endangered and threatened species; nationally important wetlands; and additions to existing national wildlife refuges. The program focuses on projects that use alternative and innovative conservation tools, such as easements, and projects that include the input and participation of the affected local communities and stakeholders.

Funds deposited into this account include direct appropriations and fines, penalties, and forfeitures collected under the authority of the Migratory Bird Treaty Act (16 U.S.C. 707) and interest on obligations held in the Federal Aid in Wildlife Restoration Fund. The North American Wetlands Conservation Fund supports wetlands conservation projects approved by the Migratory Bird Conservation Commission. A portion of receipts to the Sport Fish Restoration Account is also available for coastal wetlands conservation projects.

These projects help fulfill the habitat protection, restoration and enhancement goals of the North American Waterfowl Management Plan and the Tripartite Agreement among Mexico, Canada, and the United States. These projects may involve partnerships with public agencies and private entities, with non-Federal matching contributions, for the long-term conservation of habitat for migratory birds and other fish and wildlife, including species that are listed, or are candidates to be listed, under the Endangered Species Act (16 U.S.C. 1531).

Wetlands conservation projects include the obtaining of a real property interest in lands or waters, including water rights; the restoration, management or enhancement of habitat; and training and development for conservation management in Mexico. Funding may be provided for assistance for wetlands conservation projects in Canada or Mexico.

The Cooperative Endangered Species Conservation Fund provides grants to States and U.S. territories for conservation, recovery, and monitoring projects for species that are listed, or species that are candidates for listing, as threatened or endangered. Grants are also awarded to States and U.S. territories for land acquisition in support of Habitat Conservation Plans and species recovery efforts in partnership with local governments and other interested parties to protect species while allowing development to continue. The Fund is partially financed by permanent appropriations from the General Fund of the U.S. Treasury in an amount equal to five percent of receipts deposited to the Federal aid in wildlife and sport fish restoration accounts and amounts equal to Lacey Act receipts over \$500,000. The actual amount available for grants is subject to annual appropriations.

The Refuge Revenue Sharing Act (16 U.S.C. 715s) authorizes revenues through the sale of products from Service lands, less expenses for producing revenue and activities related to revenue sharing. The Fish and Wildlife Service makes payments to counties in which Service fee lands are located. If the net revenues are insufficient to make full payments according to the formula contained in the Act, direct appropriations are authorized to make up the difference.

The Federal Lands Recreation Enhancement Act (FLREA) was passed on December 8, 2004, as part of the Omnibus Appropriations bill for FY 2005. The Recreation Fee Program, created by the FLREA, replaces the Recreation Fee Demonstration Program. Most of the current 113 Fish and Wildlife Service sites currently in the Recreation Fee Demonstration Program will transition into the new program and will continue to collect entrance fees and other receipts. All receipts will be deposited into a recreation fee account of which at least 80 percent will return to the collecting site.

The new recreation fee program will demonstrate the feasibility of user generated cost recovery for the operation and maintenance of recreation areas, visitor services improvements, and habitat enhancement projects on federal lands. Fees will be used primarily at the site to improve visitor access, enhance public safety and security, address backlogged maintenance needs, enhance resource protection, and cover the costs of collection. The FLREA authorizes this program through 2014.

The Federal Aid in Wildlife Restoration Act, now known as the Pittman-Robertson Wildlife Restoration Act, created a program to fund the selection, restoration, rehabilitation and improvement of wildlife habitat, hunter education and safety, and wildlife management research. Under the program, States, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Northern Mariana Islands are allocated funds from an excise taxes on sporting arms and ammunition, handguns, and a tax on certain archery equipment. States are reimbursed up to 75 percent of the cost of approved wildlife and hunter education projects.

The Wildlife and Sport Fish Restoration Programs Improvement Act of 2000 (P.L. 106-408) amends the Pittman-Robertson Wildlife Restoration Act and authorizes a Multistate Conservation Grant Program and a firearm and bow hunter education and safety enhancement program that provides grants to the States.

Operation and maintenance of quarters.—Revenue from rental of government quarters is deposited in this account for use in the operation and maintenance of such quarters for the Fish and Wildlife Service, pursuant to Public Law 98-473, Section 320, 98 Stat. 1874, as amended.

Proceeds from sales, water resources development projects.—Receipts collected from the sale of timber and crops from refuges leased or licensed from the Department of the Army may be used to pay the costs of production of the timber and crops and for managing wildlife habitat. 16 U.S.C. 460d.

Lahontan Valley and Pyramid Lake Fish and Wildlife Fund.—Under the Truckee-Carson Pyramid Lake Settlement Act of 1990, as amended, the Lahontan Valley and Pyramid Lake Fish and Wildlife Fund receives revenues from non-Federal parties to support the restoration and enhancement of wetlands in the Lahontan Valley and to restore and protect Pyramid Lake fisheries. Payments made in excess of operation and maintenance costs of the Stampede Reservoir are available without further appropriations. Donations made for express purposes, state cost-sharing funds, and unexpended interest from the Pyramid Lake Paiute Fisheries Fund are available without further appropriation. The Secretary is also authorized to deposit proceeds from the sale of certain lands, interests in lands, and water rights into the Pyramid Lake Fish and Wildlife Fund.

The Federal Aid in Sport Fish Restoration Act, now known as the Dingell-Johnson Sport Fish Restoration Act (as modified by the Wallop-Breaux and other amendments), created a fishery resources, conservation, and restoration program funded by excise taxes on fishing equipment, and certain other sport fish related products.

Since 1992 the Sport Fish Restoration Account has supported coastal wetlands grants pursuant to the Coastal Wetlands Planning, Protection and Restoration Act (P.L. 101-646). Additional revenue from small engine fuel taxes was provided under the Surface Transportation Extension Act of 1997 and again by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, enacted for FY 2006 and beyond.

The Coastal Wetlands Planning, Protection and Restoration Act is funded through the Dingell-Johnson Sport Fish Restoration Act, which requires an amount equal to 18.5 percent

SPORT FISH RESTORATION—Continued

of net deposits into the Sport Fish Restoration and Boating Safety Trust Fund, or amounts collected in small engine fuels excise taxes as provided by 26 U.S.C. 9504(b), whichever is greater, to be distributed as follows: 70 percent shall be available to the Corps of Engineers for priority project and conservation planning activities in Louisiana; 15 percent shall be available to the Fish and Wildlife Service for coastal wetlands conservation grants; and 15 percent to the Fish and Wildlife Service for wetlands conservation projects under Section 8 of the North American Wetlands Conservation Act (P.L. 101-233).

The Clean Vessel Act authorizes the Secretary of the Interior to make grants to States, in specified amounts as determined through a competitive award process, to carry out projects for the construction, renovation, operation, and maintenance of pumpout stations and waste reception facilities. The Dingell-Johnson Sport Fish Restoration Act, as amended, provides for the transfer of funds from the Sport Fish Restoration and Boating Trust Fund to the Sport Fish Restoration Account for use by the Secretary of the Interior to carry out the purposes of this Act and for use by the Secretary of Homeland Security for State recreational boating safety programs (46 U.S.C. 13106(a)(1)). The Sportfishing and Boating Safety Act of 1998 authorizes the Secretary of the Interior to develop national and state outreach plans to promote safe fishing and boating opportunities and the conservation of aquatic resources, as well as to make grants to states for developing and maintaining sewage disposal facilities and other boating facilities for recreational vessels.

Assistance is provided to States, Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and the District of Columbia for up to 75 percent of the cost of approved projects including: research into fisheries problems, surveys and inventories of fish populations, acquisition and improvement of fish habitat and provision of access for public use.

The Wildlife and Sport Fish Restoration Programs Improvement Act of 2000 (P.L. 106-408) amends the Dingell-Johnson Sport Fish Restoration Act and authorizes a Multistate Conservation Grant Program and provides funding for several fisheries commissions and the Sport Fishing and Boating Partnership Council.

The National Park System administers 388 areas and 79.0 million acres of land in 49 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, Samoa, and the Northern Marianas. These areas have been established to protect and preserve the cultural and natural heritage of the United States and its territories. Park visits total over 276 million annually. This annual appropriation funds the operation of individual units of the National Park System as well as planning and administrative support for the entire system. Funds within this appropriation are used to support the cooperative effort for restoration of the Everglades and are available until expended. Within this appropriation, repair and rehabilitation funds are available for two years, to provide

the flexibility needed to carry out this project program, in which typical projects include, but are not limited to, facility, campground, and trail rehabilitation; roadway overlay and/or reconditioning; bridge repair; wastewater and water line replacement; and the rewiring of buildings. The repair and rehabilitation program includes funding for development and implementation of the automated facility management software system and to conduct comprehensive facility condition assessments.

The Urban Park and Recreation Fund provides matching grants to cities for the renovation of urban park and recreation facilities, targeting low-income inner-city neighborhoods. There have been no new funds provided since 2003 for the grant portion of this program. Small amounts of unobligated grant balances remain. As of 2005, funding for administering previously awarded grants has been transferred to the National Recreation & Preservation account.

Line item construction.—This activity provides for the construction, rehabilitation, and replacement of those facilities needed to accomplish the management objectives approved for each park. Projects are categorized as facility improvement, utility systems rehabilitation, historic preservation, and natural resource preservation.

Special programs.—Under this activity several former activity and subactivity components are combined. These include Emergency and Unscheduled Projects, the Seismic Safety of National Park System Buildings Program, Employee Housing, Dam Safety, and Equipment Replacement.

Construction planning.—This activity includes the project planning function in which funds are used to prepare working drawings, specification documents, and contracts needed to construct or rehabilitate National Park Service facilities.

Construction program management and operations.—This activity complies with NAPA recommendations to base fund construction program management through offices in Washington, D.C. and Denver. In 2007, funding for management and operations of the NPS design center located in Harpers Ferry, WV, is proposed to be combined with similar offices under this activity.

General management plans.—Under this activity, funding is used to prepare General Management Plans and keep them up-to-date to guide National Park Service actions for the protection, use, development, and management of each park unit; and to conduct studies of alternatives for the protection of areas that may have potential for addition to the National Park System.

Federal Lands Recreation Enhancement Act.—The National Park Service and other land management agencies operate a fee program that allows parks and other units to collect admission and user fees in accordance with the Federal Lands Recreation Enhancement Act. The FLREA was passed on December 8, 2004, as part of the Omnibus Appropriations bill for FY 2005, and authorizes this program through 2014. By law, up to 15 percent of proceeds may be used for administration, overhead, and indirect costs related to the program, and net proceeds are to be used for high-priority visitor service or resource management projects throughout the National Park System.

America the Beautiful: The National Parks and Federal Recreational Lands Pass.—Proceeds from the sale of national park and Federal recreational lands passes are to be distributed between the Federal land management agencies as determined by the Secretaries of these agencies in accordance with Public Law 108-447.

Deed-restricted parks fee program.—Park units where admission fees may not be collected by reason of deed restrictions retain any other recreation fees collected and use them for certain park operation purposes in accordance with Public Law 105-327. This law applies to Great Smoky Mountains National Park, Lincoln Home National Historic Site, and Abraham Lincoln Birthplace National Historic Site.

Transportation systems fund.—Fees charged for public use of transportation services at parks are retained and used by each collecting park for costs associated with the transportation systems in accordance with section 501 of Public Law 105-391.

Educational expenses, children of employees, Yellowstone National Park.—Revenues received from the collection of short-term recreation fees to the park are used to provide education facilities to pupils who are dependents of persons engaged in the administration, operation, and maintenance of Yellowstone National Park (16 U.S.C. 40a).

Payment for tax losses on land acquired for Grand Teton National Park.—Revenues received from fees collected from visitors are used to compensate the State of Wyoming for tax losses on Grand Teton National Park lands (16 U.S.C. 406d-3).

The Historic Preservation Fund finances 60 percent of programmatic matching grants-in-aid to the States and certified local governments, as well as grants to Indian Tribes. This appropriation also funds the President's Preserve America initiative to assist local communities in designing heritage tourism programs that support sustainable uses for historic assets and create economic opportunities for communities. Under the Preserve America umbrella, the Budget includes three grant programs. Preserve America grants help States and communities preserve their historic resources by incorporating them into their local economies; it also helps local communities develop resource management strategies and sound business practices for the continued preservation of heritage assets, including historic resources and associated landscapes and natural features. Save America's Treasures grants help restore historic sites and collections, including significant documents, objects, manuscripts, photographs, works of art, journals, still and moving images, sound recordings, historic structures, and sites that document and illuminate the history and culture of the United States. National Heritage Area grants provide seed money for congressional designated, but locally managed, heritage areas.

Park concessions franchise fees.—Franchise fees for concessioner activities in the National Park System are deposited in this account and used for certain park operations activities in accordance with section 407 of Public Law 105–391. By law, 20 percent of franchise fees collected are used to support activities throughout the National Park System generally and 80 percent are retained and used by each collecting park unit for visitor services and for purposes of funding high-priority and urgently necessary resource management programs and operations.

Concessions improvement accounts.—National Park Service agreements with private concessioners providing visitor services within national parks can require concessioners to deposit a portion of gross receipts or a fixed sum of money in a separate bank account. A concessioner may expend funds from such an account at the direction of the park superintendent for facilities that directly support concession visitor services, but would not otherwise be funded through the appropriations process. Concessioners do not accrue possessory interests from improvements funded through these accounts.

Park buildings lease and maintenance fund.—Rental payments for leases to use buildings and associated property in the National Park System are deposited in this account and used for infrastructure needs at park units in accordance with section 802 of Public Law 105–391.

Operation and maintenance of quarters.—Revenues from the rental of Government-owned quarters to park employees are deposited in this account and used to operate and maintain the quarters.

National Maritime Heritage grants program.—Of the revenues received from the sale of obsolete vessels in the National Defense Reserve Fleet, 25 percent are used for matching grants to State and local governments and private nonprofit organizations under the National Maritime Heritage Grants Program and for related administrative expenses in accordance with 16 U.S.C. 5401. Program authorization expires at the end of 2006.

Delaware Water Gap, Route 209 operations.—Fees collected for use of Route 209 within the Delaware Water Gap National Recreation Area by commercial vehicles are used for management, operation, and maintenance of the route within the park as authorized by Public Law 98–63 (97 Stat. 329), section 117 of Public Law 98–151 (97 Stat. 977) as amended by Public Law 99–88 (99 Stat. 343), and section 702 of Division I of Public Law 104–333 (110 Stat. 4185). The expired authorization was restored in fiscal year 1997 by Public Law 104–333 and in fiscal year 2006 by Public Law 109–156.

Glacier Bay National Park resource protection.—Of the revenues received from fees paid by tour boat operators or other permittees for entering Glacier Bay National Park, 60 percent are used for certain activities to protect resources of the Park from harm by permittees in accordance with section 703 of Division I of Public Law 104–333 (110 Stat. 4185).

Filming and photography special use fees.—The National Park Service is now authorized to retain fee receipts that are collected from issuing permits to use park lands and facilities for commercial filming, still photography, and similar activities. Amounts collected should provide a fair return to the Government and may be used in accordance with the formula and purposes established under the Federal Lands Recreation Enhancement Act.

Contributions to U.S. Park Police annuity benefits.—Necessary costs of benefit payments to annuitants under the pension program for United States Park Police officers hired prior to January 1, 1984, established under Public Law 85–157, are paid from the General Fund of the Treasury to the extent the payments exceed deductions from salaries of active duty

employees in the program. Permanent funding for such payments was provided in the Department of the Interior and Related Agencies Appropriations Act, 2002. Before fiscal year 2002, such payments were funded from appropriations made annually to the National Park Service.

Parkway construction project funds have been derived from the Highway Trust Fund through appropriations to liquidate contract authority, which has been provided under section 104(a)(8) of the Federal Aid Highway Act of 1978, title I of Public Law 95–599, as amended, and appropriation language, which has made the contract authority and the appropriations available until expended.

Reconstruction and relocation of Route 25E through the Cumberland Gap National Historical Park, including construction of a tunnel and the approaches thereto, are authorized without fund limitation by Public Law 93–87, section 160.

CONSTRUCTION (TRUST FUND)—Continued

Improvements to the George Washington Memorial Parkway and the Baltimore Washington Parkway are authorized and funded by the Department of the Interior and Related Agencies Appropriations Acts, 1987, as included in Public Law 99–591, and 1991, Public Law 101–512. No more significant obligations are expected in this account for these two parkway projects.

As per P.L. 108–7, remaining unobligated balances, once reconciled, will be applied to repairs of the Going-to-the-Sun Road in Glacier National Park.

Note.—Obligations incurred under allocations from other accounts are included in the schedules of the parent appropriations as follows:

- Department of Agriculture, Forest Service: “State and Private Forestry”
- Department of Labor, Employment and Training Administration: “Training and Employment Services”
- Department of Transportation, Federal Highway Administration: “Federal-Aid Highways (Liquidation of Contract Authorization) (Highway Trust Fund)” and “Highway Studies, Feasibility, Design, Environmental, Engineering”
- Department of the Interior, Bureau of Land Management: “Central Hazardous Materials Fund” and “Wildland Fire Management”
- Department of the Interior, Office of the Secretary: “Natural Resource Damage Assessment and Restoration Fund”

ADMINISTRATIVE PROVISIONS

Appropriations for the National Park Service shall be available for the purchase of not to exceed [245] 233 passenger motor vehicles, of which [199] 193 shall be for replacement only, including not to exceed [193] 190 for police-type use, [10] 11 buses, and [8] 6 ambulances: *Provided*, That none of the funds appropriated to the National Park Service may be used to implement an agreement for the redevelopment of the southern end of Ellis Island until such agreement has been submitted to the Congress and shall not be implemented prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than 3 calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on the development of the southern end of Ellis Island, including the facts and circumstances relied upon in support of the proposed project[: *Provided further*, That in fiscal year 2006 and thereafter, appropriations available to the National Park Service may be used to maintain the following areas in Washington, District of Columbia: Jackson Place, Madison Place, and Pennsylvania Avenue between 15th and 17th Streets, Northwest].

None of the funds in this Act may be spent by the National Park Service for activities taken in direct response to the United Nations Biodiversity Convention.

The National Park Service may distribute to operating units based on the safety record of each unit the costs of programs designed to improve workplace and employee safety, and to encourage employees receiving workers’ compensation benefits pursuant to chapter 81 of title 5, United States Code, to return to appropriate positions for which they are medically able.

If the Secretary of the Interior considers *that* the decision of any value determination proceeding conducted under a National Park Service concession contract issued prior to November 13, 1998, **[to]** misinterprets or **[misapply]** *misapplies* relevant contractual requirements or their underlying legal authority, *then* the Secretary may seek, within 180 days of any such decision, the de novo review of the value determination by the United States Court of Federal Claims. *This Court* **[, and that court]** may make an order affirming, vacating, modifying or correcting the determination.

In addition to other uses set forth in section 407(d) of Public Law 105-391, franchise fees credited to a sub-account shall be available for expenditure by the Secretary, without further appropriation, for use at any unit within the National Park System to extinguish or reduce liability for Possessory Interest or leasehold surrender interest. Such funds may only be used for this purpose to the extent that the benefiting unit anticipated franchise fee receipts over the term of the contract at that unit exceed the amount of funds used to extinguish or reduce liability. Franchise fees at the benefiting unit shall be credited to the sub-account of the originating unit over a period not to exceed the term of a single contract at the benefiting unit, in the amount of funds so expended to extinguish or reduce liability. (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2006.*)

The Operation of Indian Programs appropriation consists of a wide range of services and benefits provided to Indian Tribes, Alaskan Native groups, and individual Native Americans that fulfill Federal trust responsibility and implement Federal Indian policy. Beginning in 2007 this account will be reported under a new budget structure developed in consultation with the Tribes and approved by Congress.

The current budget structure used in FY 2005 and 2006 includes:

Tribal priority allocations.—This activity includes the majority of funds used to support ongoing programs at the local Tribal level. Funding priorities for Tribal base programs included in Tribal Priority Allocations are determined by Tribes. Although budget estimates include specific amounts for individual programs, funds may be shifted among programs within the total available for a Tribe or a Bureau of Indian Affairs (BIA) agency or regional office at the time of budget execution.

Other recurring programs.—This activity includes ongoing programs for which funds are (1) distributed by formula, such as elementary and secondary school operations and Tribal community colleges; and (2) for resource management activities that carry out specific laws or court-ordered settlements.

Non-recurring programs.—This activity includes programs that support Indian reservation and Tribal projects of limited duration, such as noxious weed eradication, cadastral surveys, and forest development.

Central office operations.—This activity supports the executive, program, information technology, and other administrative management costs of central office organizations, most of which are located in Washington, DC.

Regional office operations.—The BIA has 12 regional offices located throughout the country. Regional Directors have line authority over agency office superintendents. Most of the agency offices are located on Indian reservations. Virtually all of the staff and related administrative support costs for regional and agency offices are included within this activity. Regional Directors have flexibility in aligning their staff and resources to best meet the program requirements of the Tribes within their region.

Special programs and pooled overhead.—Most of the funds in this activity support law enforcement and bureau-wide expenses for items such as unemployment compensation, workers compensation, facilities rentals, telecommunications, and data processing. This activity includes the Bureau's two post-secondary schools, the Indian police academy, the Indian Integrated Resources Information Program, and non-education facilities operation and maintenance. The Arts and Crafts Board was transferred to the Departmental Management in 2005.

The budget structure used in FY 2007 includes:

Tribal Government.—This activity promotes the sovereignty of Federally recognized Tribes by supporting and assisting Indian Tribes in the development and maintenance of strong and stable Tribal governments capable of administering quality programs and developing economies. This activity is pri-

marily executed under contracts or compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Human services.—This activity provides funding for social services, housing improvement, welfare assistance, and Indian child welfare. The objective of this activity is to improve the quality of life for individual Indians that live on or near Indian reservations and to protect the children, elderly, and disabled from abuse and neglect. This activity is primarily executed under contracts compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Trust.—Natural resources management.—This activity provides for the management, development, and protection of Indian trust land and natural resource assets. Natural resource programs in Indian country include agriculture, forestry, water, fish, wildlife, parks, minerals, and mining. A significant portion of this activity is executed under contracts or compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Trust.—Real estate.—This activity promotes cooperative efforts with landowners for the optimal utilization, development, and enhancement of trust and restricted Federal Indian-owned lands. The activity includes general real estate services, probate, land title and records, environmental compliance, and other trust services and rights protection. A significant portion this activity is executed under contracts or compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Education.—This activity supports BIA-funded Tribal elementary and secondary school operations, other education programs for elementary-aged Indian children, Tribal post-secondary schools, and education program management. The BIA school system includes 170 elementary and secondary BIA and Tribally-run schools, 14 dormitories, two post-secondary schools, and operating grants to eligible Tribal colleges and universities. A significant portion of this activity is executed under grants or contracts with Tribes. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Public safety and justice.—This activity funds law enforcement activities on approximately 56 million acres of Indian country in 35 States. Programs under this activity include investigative, police, and detention services, Tribal courts, and fire protection. A significant portion of this activity is executed under contracts or compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Community and economic development.—This activity promotes the economic vitality of Indian Tribes and Alaska Natives through Job Placement and Training, Economic Development, Road Maintenance, and Community Development. A significant portion of this activity is executed under contracts or compacts with Tribes to run Tribal and Federal programs. Funding also supports BIA oversight and technical assistance for this activity in central and regional offices.

Executive direction and administrative services.—This activity supports the management of BIA's finance, budget, acquisition, and property functions, as well as information technology resources, personnel services, facilities management, payment of GSA and direct rentals, and intra-governmental payments.

This account covers expenses associated with the following activities.

Land settlements:

White Earth Reservation Land Settlement Act (Public Law 99-264).—Funds are used to investigate and verify questionable transfers of land by which individual Indian allottees, or their heirs, were divested of ownership and to achieve the payment of compensation to said allottees or heirs in accordance with the Act. A major portion of work is contracted under Public Law 93-638, as amended, to the White Earth Reservation Business Committee.

Hoopa-Yurok Settlement Act (Public Law 100-580).—The Act provides for the settlement of reservation lands between the Hoopa Valley Tribe and the Yurok Indians in northern California. Funds will be used for the settlement as authorized by law and for administrative expenses related to implementing the settlement.

Quinault Indian Nation Boundary Settlement.—Funds related to this settlement are for the acquisition of conservation easements within the Northern Extension.

Water settlements:

Truckee-Carson-Pyramid Lake Water Settlement Act (Public Law 101-618).—The Act provides for the settlement of claims of the Pyramid Lake Paiute Tribe (NV). Funds will be used to provide payments to the Truckee-Carson Irrigation District for service of water rights acquired.

Colorado Ute Settlement Act Amendments (Public Law 106-554).—Funds are requested for the settlement of water rights of the outstanding claims of the Tribes on the Animas and LaPlata Rivers. Funds will be used for payment into the Tribal Resource Fund(s). FY 2006 appropriations completed funding required by this settlement.

Cherokee, Choctaw, and Chickasaw Nations Claims Settlement Act (Public Law 107-331).—Funds are requested for the settlement of claims of the Cherokee, Choctaw, and Chickasaw Nations as authorized.

Zuni Indian Tribe Water Rights Settlement (Public Law 108-34).—Funds are requested for the settlement of water rights claims of the Zuni Tribe as authorized for American Indians: "Federal Trust Programs". FY 2006 appropriations completed funding required by this settlement.

Rocky Boys/North Central Montana Regional Water System Act (Public Law 107-331).—The Act is a follow up to a previous Act, Public Law 106-163 which established the Chipewewa Cree Water System Operation, Maintenance, and Replacement Trust Fund.

Snake River Water Rights Act (Public Law 108-477).—Funds are requested for payments as required by the settlement to the Nez Perce Water and Fisheries Fund, Nez Perce Tribe Habitat Accounts, and the Nez Perce Domestic Water Supply Fund.

Note.—Obligations incurred under allocations from other accounts are included in the schedule of the parent appropriation as follows:

The Department of the Interior: Bureau of Land Management: "Firefighting"
The Department of Transportation: Federal Highway Administration: "Federal-Aid Highways"
The Department of the Interior: Office of the Special Trustee for American Indians: "Federal Trust Programs"

ADMINISTRATIVE PROVISIONS

The Bureau of Indian Affairs may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts and grants, either directly or in cooperation with States and other organizations.

Notwithstanding 25 U.S.C. 15, the Bureau of Indian Affairs may contract for services in support of the management, operation, and maintenance of the Power Division of the San Carlos Irrigation Project.

Appropriations for the Bureau of Indian Affairs (except the revolving fund for loans, the Indian loan guarantee and insurance fund, and the Indian Guaranteed Loan Program account) shall be available for expenses of exhibits, and purchase and replacement of passenger motor vehicles.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs for central office [operations or pooled overhead general administration] *oversight and Executive Direction and Administrative Services* (except [facilities operations and maintenance] *executive direction and administrative services funding for Tribal Priority Allocations and regional offices*) shall be available for tribal contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103-413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs for distribution to other

tribes, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

Appropriations made available in this or any other Act for schools funded by the Bureau shall be available only to the schools in the Bureau school system as of September 1, 1996. No funds available to the Bureau shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau school system as of October 1, 1995. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1146 of the Education Amendments of 1978 (25 U.S.C. 2026)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter school's operation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code.

Notwithstanding 25 U.S.C. 2007(d), and implementing regulations, the funds reserved from the Indian Student Equalization Program to meet emergencies and unforeseen contingencies affecting education programs appropriated herein and in Public Law 109-54 may be used for costs associated with significant student enrollment increases at Bureau-funded schools during the relevant school year.

Notwithstanding any other provision of law, including section 113 of title I of appendix C of Public Law 106-113, if a tribe or tribal organization in fiscal year 2003 or 2004 received indirect and administrative costs pursuant to a distribution formula based on section 5(f) of Public Law 101-301, the Secretary shall continue to distribute indirect and administrative cost funds to such tribe or tribal organization using the section 5(f) distribution formula. The Central Hazardous Materials Fund is used to fund remedial investigations/feasibility studies and cleanups of hazardous waste sites for which the Department of the Interior is liable. Authority is provided for amounts recovered from responsible parties to be credited to this account. Thus, the account may be composed of both annual appropriations of no-year funds and of offsetting collections. The Comprehensive Environmental Response, Compensation and Liability Act, as amended (42 U.S.C. Section 9601 et seq.) requires responsible parties, including Federal landowners, to investigate and clean up releases of hazardous substances.

The Working Capital Fund finances services and activities that can be performed more effectively and efficiently in a centralized manner, including business services provided by the National Business Center (NBC). Activities financed through the fund include information technology and security, Departmental news and information, and safety and health initiatives. The NBC hosts the Department's administrative systems, including: the Federal Personnel and Payroll System (FPPS), Federal Financial System (FFS), and the Interior Department Electronic Acquisitions System (IDEAS). The NBC also provides accounting, acquisition, aircraft, central reproduction, communications, supplies and health services. The NBC has expanded payroll services to other agencies as one of the four government-wide payroll providers selected by OPM. The NBC was selected to host the Human Resources and Financial Management Lines of Business. In FY 2007 the Department will consolidate NBC's procurement activities currently financed through the Working Capital Fund account into the Franchise Fund account.

The Government Management Reform Act (P.L. 103-356) authorized creation of six pilot franchise funds and in May 1996, the Department of the Interior was designated as one of those agencies. Section 113 of the General Provisions of the Department of the Interior and Related Agencies Appropriation Act of 1997, established in the Treasury a franchise fund pilot. The Interior Franchise Fund (IFF) provides acquisition management and administrative services to the Department of the Interior and other Federal agencies on a fully competitive and fee basis. Fees from Federal agencies fully cover the cost of operating the IFF. In 2007 the Department will consolidate procurement activities currently financed through the Working Capital Fund account into the Franchise Fund.

Until October 1, 1994, the United States exercised jurisdiction over the Trust Territory of the Pacific Islands according to the terms of the 1947 Trusteeship Agreement between the United States and the Security Council of the United Nations. These responsibilities were carried out by the Department of the Interior.

The Department of the Interior is seeking no additional appropriations for the Trust Territory of the Pacific Islands. Compacts of Free Association have been implemented with the Federated States of Micronesia, the Republic of the Marshall Islands, and, as of October 1, 1994, the Republic of Palau. Assistance to the Republic of Palau is now contained in the "Compact of Free Association" account.

Remaining funds in the "Trust Territory of the Pacific Islands" account will be used to meet final transition responsibilities of the United States. Outlays from numerous ongoing infrastructure construction projects in the Republic of Palau and the other two entities will continue as provided by the Compacts of Free Association and appropriation laws and will be reported as Trust Territory expenditures until such time as the activities cease.

COMPACT OF FREE ASSOCIATION

For grants and necessary expenses, [\$5,362,000] \$4,862,000, to remain available until expended, as provided for in sections 221(a)(2), 221(b), and 233 of the Compact of Free Association for the Republic of Palau; and section 221(a)(2) of the Compacts of Free Association for the Government of the Republic of the Marshall Islands and the Federated States of Micronesia, as authorized by Public Law

The peoples of the Marshall Islands and the Federated States of Micronesia approved Compacts of Free Association negotiated by the United States and their governments. The Compact of Free Association Act of 1985 (Public Law 99–239) constituted the necessary authorizing legislation to make annual payments to the Republic of the Marshall Islands and the Federated States of Micronesia. Payments began in

1987 and continued through 2003 when the original economic assistance package expired. The Compact of Free Association Amendments Act of 2003, Public Law 108–188, continues financial assistance to the Federated States of Micronesia and the Republic of the Marshall Islands through fiscal year 2023.

The Compact of Free Association with the Republic of Palau was implemented under the terms of Public Law 99–658 on October 1, 1994. This compact will provide annual benefits to the Republic totalling an estimated \$600 million over the fifteen-year period that began at the implementation date.

In 2000, the American Samoa Government (ASG) was authorized to borrow \$18.6 million from the U.S. Treasury in order to reduce significant past due debts to vendors. Repayment of the loan is secured and accomplished with funds, as they become due and payable to ASG from the Escrow Account established under the terms and conditions of the Tobacco Master Settlement Agreement. ASG agreed to significant financial reforms as a prerequisite to receiving the loan proceeds.

The mission of the Office of Inspector General is to promote excellence, accountability and integrity in the programs, operations and management of the Department of the Interior. The Office's focus is in assisting the Secretary and the Congress is to target resources toward developing solutions for the Department's most serious management and program challenges, and toward high-risk areas vulnerable to fraud, waste, abuse and mismanagement. The Office is responsible for independently and objectively identifying risks and vulnerabilities that directly impact, or could impact, the Department's ability to accomplish its mission. The Office is required to keep the Secretary and the Congress fully and currently informed about problems and deficiencies relating to the administration of departmental programs and operations. Effective implementation of this mandate addresses the public's demand for greater accountability and integrity in the administration of government programs and operations and the demand for programs that work better, cost less, and get the results about which Americans care most.

Under the Natural Resource Damage Assessment and Restoration Fund (Restoration Fund), natural resource damage assessments will be performed in order to provide the basis for claims against responsible parties for the restoration of injured natural resources. Funds are appropriated to conduct damage assessments, provide restoration support, and for program management. In addition, funds will be received for the restoration of damaged resources and other activities and for natural resource damage assessments from responsible parties through negotiated settlements or other legal actions by the Department of the Interior.

Restoration activities include: (1) the replacement and enhancement of affected resources; (2) acquisition of equivalent resources and services; and, (3) long-term environmental monitoring and research programs directed to the prevention, containment, and amelioration of hazardous substances and oil spill sites.

The Restoration Fund operates as a departmentwide program, incorporating the interdisciplinary expertise of its various bureaus and offices. Natural resource damage assessments and the restoration of injured natural resources are authorized by the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.), the Oil Pollution Act of 1990 (33 U.S.C. 2701 et seq.), and the Act of July 27, 1990 (16 U.S.C. 1911 et seq.). Since 1992, amounts received by the United States from responsible parties for restoration or reimbursement in settlement of natural resource damages may be deposited in the Fund and shall accrue interest.

EXXON VALDEZ RESTORATION PROGRAM

The budget reflects the receipts, transfers, and mandatory spending by the Department of Interior associated with the civil and criminal settlements resulting from the 1989 *Exxon Valdez* oil spill in the Prince William Sound and surrounding areas. Funding from the settlements, including interest, is provided to Federal and Alaska State natural resource trustee agencies to restore the natural resources and services damaged by the spill. The *Exxon Valdez* Oil Spill Trustee Council consists of 3 State and 3 Federal trustees who oversee restoration of the injured ecosystem through the use of civil settlement funds. The criminal settlement funds are managed separately by the Federal and Alaska State governments, but are coordinated with the Council.

The original civil settlement with the Exxon Corporation includes a re-opener provision valid from September 2002 to September 2006, which provides an opportunity for the Trustee governments to claim up to an additional \$100 million for natural resource injury that could not have been known or anticipated at the time of settlement.

The civil settlement and interest earned to date total roughly \$1 billion, of which \$138 million remains, outside the Treasury. The balance is managed on behalf of the Trustee Council by the State of Alaska (*Exxon Valdez* Investment Fund), with funds earmarked for future habitat acquisition and protection and for marine research and ecological monitoring in the spill zone.

Executive direction.—This activity supports the Office of the Special Trustee for American Indians and staff offices. Under the American Indian Trust Fund Management Reform Act of 1994, the Special Trustee for American Indians is charged with general oversight for Indian trust reform efforts departmentwide. Additionally, in 1996, at the direction of the Congress, direct responsibilities and authorities for Indian Trust Fund Management were transferred to the Special Trustee from the Assistant Secretary-Indian Affairs.

Program operations, support, and improvements.—This activity supports the management and investment of approximately \$3 billion held in trust for Tribes and individual Indians. Resources support the implementation of trust management reform efforts, including historical accounting*, and the accurate collection, investment, disbursement, and provision of timely financial information to Indian Tribes and individual Indian monies (IIM) account holders.

(*The amount for historical accounting may be revised as legal issues pending before the Courts are resolved.)

The Office of the Special Trustee for American Indians, (OST) through the Office of Trust Funds Management, (OTFM) is responsible for the financial management of the funds held in trust for tribal and individual Indian beneficiaries. In 1998, OTFM identified a difference between the OTFM investment balances (assets) and the underlying Individual Indian Monies (IIM) account balances (liabilities). Since that time, approximately \$700,000 has been recovered as a result of historical account reconciliation efforts. An approximate \$6 million discrepancy currently exists between the investment pool (assets) and the positive IIM subsidiary accounts (liabilities). The Administration has proposed legislation to balance the accounts that would authorize up to \$6 million be made available to credit the investment pool and will work with Congress to resolve the matter.

This appropriation funds a program to consolidate fractional interests in Indian lands. Funds will be used to purchase small partial interests from willing individual Indian landowners. Consolidation of these interests is expected to reduce the Government's costs for managing Indian lands and promote economic opportunity on these lands. This program is authorized under the Indian Land Consolidation Act Amendments of 2000 (P.L. 106-462) and other authorities.

Tribal trust funds are deposited into a consolidated account in the U.S. Treasury pursuant to: (1) general or specific acts of Congress; and (2) Federal management of Tribal real properties, the titles to which are held in trust for the Tribes by the United States. These funds are available to the respective Tribal groups for various purposes, under various acts of Congress, and are subject to the provisions of Tribal constitutions, bylaws, charters, and resolutions of the various Tribes, bands, or groups.

Commencing with 2000, most Tribal trust funds, including special funds, managed by the Office of the Special Trustee for American Indians were reclassified as non-budgetary. Ownership of these funds did not change, nor did the Federal Government's management responsibilities; changes were made for presentation purposes only. Some Tribal trust funds will remain budgetary, in either this Tribal Special Fund or the Tribal Trust Fund presented later in this section. Most

The Indian Gaming Regulatory Act (P.L. 100-497) established the National Indian Gaming Commission as an independent agency within the Department of the Interior. The Commission monitors and regulates gaming activities conducted on Indian lands. Operating costs of the Commission are financed to the greatest extent possible through annual assessments of gaming operations regulated by the Commission.

fees. For the past several years, the annual appropriation acts have included language raising the Commission's limitation on assessments to \$12 million. The 2007 budget requests that this limitation be increased to \$13 million until the enactment of proposed legislation that would enable the Commission to adjust its operations with the growth or contraction of the Indian gaming industry.

The budget assumes that the first oil and gas lease sale in the coastal plain of the Arctic National Wildlife Refuge (ANWR) would be held in 2008, producing \$7.0 billion in receipts from bonuses which would be shared 50/50 between the Federal government and the State of Alaska. The Federal share of the royalties from the leased areas would be directed to reducing the budget deficit.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: *Provided*, That no funds shall be made available

under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted: *Provided further*, That it is the sense of the Congress that all funds used pursuant to this section [must] be replenished by a supplemental appropriation which must be requested as promptly as possible.

SEC. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of wildland fires on or threatening lands under the jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods, volcanoes, storms, or other unavoidable causes; for contingency planning subsequent to actual oil spills; for response and natural resource damage assessment activities related to actual oil spills; for the prevention, suppression, and control of actual or potential grasshopper and Mormon cricket outbreaks on lands under the jurisdiction of the Secretary, pursuant to the authority in section 1773(b) of Public Law 99–198 (99 Stat. 1658); for emergency reclamation projects under section 410 of Public Law 95–87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primary State is not carrying out the regulatory provisions of the Surface Mining Act: *Provided*, That appropriations made in this title for wildland fire operations shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for wildland fire operations, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: *Provided further*, That for wildland fire operations, no funds shall be made available under this authority until the Secretary determines that funds appropriated for “wildland fire operations” shall be exhausted within 30 days: *Provided further*, That it is the sense of the Congress that all funds used pursuant to this section [must] be replenished by a supplemental appropriation [which must], to be requested as promptly as possible: *Provided further*, That such replenishment funds [shall] should be used to reimburse, on a pro rata basis, accounts from which emergency funds were transferred.

SEC. 103. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed \$500,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

SEC. 104. No funds provided in this title may be expended by the Department of the Interior for the conduct of offshore preleasing, leasing and related activities placed under restriction in the President’s moratorium statement of June 12, 1998, in the areas of northern, central, and southern California; the North Atlantic; Washington and Oregon; and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

SEC. 105. No funds provided in this title may be expended by the Department of the Interior to conduct offshore oil and natural gas preleasing, leasing and related activities in the eastern Gulf of Mexico planning area for any lands located outside Sale 181, as identified in the final Outer Continental Shelf 5-Year Oil and Gas Leasing Program, 1997–2002.

SEC. 106. No funds provided in this title may be expended by the Department of the Interior to conduct oil and natural gas preleasing, leasing and related activities in the Mid-Atlantic and South Atlantic planning areas.

SEC. 107. Appropriations made in this Act under the headings Bureau of Indian Affairs and Office of Special Trustee for American Indians and any unobligated balances from prior appropriations Acts made under the same headings shall be available for expenditure or transfer for Indian trust management and reform activities, except that total funding for historical accounting activities shall not exceed amounts specifically designated in this Act for such purpose.

[SEC. 108. Notwithstanding any other provision of law, in fiscal years 2006 through 2010, for the purpose of reducing the backlog of Indian probate cases in the Department of the Interior, the hearing

requirements of chapter 10 of title 25, United States Code, are deemed satisfied by a proceeding conducted by an Indian probate judge, appointed by the Secretary without regard to the provisions of title 5, United States Code, governing the appointments in the competitive service, for such period of time as the Secretary determines necessary: *Provided*, That the basic pay of an Indian probate judge so appointed may be fixed by the Secretary without regard to the provisions of chapter 51, and subchapter III of chapter 53 of title 5, United States Code, governing the classification and pay of General Schedule employees, except that no such Indian probate judge may be paid at a level which exceeds the maximum rate payable for the highest grade of the General Schedule, including locality pay.]

SEC. [109] 108. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to redistribute any Tribal Priority Allocation funds, including tribal base funds, to alleviate tribal funding inequities by transferring funds to address identified, unmet needs, dual enrollment, overlapping service areas or inaccurate distribution methodologies. No tribe shall receive a reduction in Tribal Priority Allocation funds of more than 10 percent in fiscal year [2006] 2007. Under circumstances of dual enrollment, overlapping service areas or inaccurate distribution methodologies, the 10 percent limitation does not apply.

[SEC. 110. (a) For fiscal year 2006 and each succeeding fiscal year, any funds made available by this Act for the Southwest Indian Polytechnic Institute and Haskell Indian Nations University for postsecondary programs of the Bureau of Indian Affairs in excess of the amount made available for those postsecondary programs for fiscal year 2005 shall be allocated in direct proportion to the need of the schools, as determined in accordance with the postsecondary funding formula adopted by the Office of Indian Education Programs.

(b) For fiscal year 2007 and each succeeding fiscal year, the Bureau of Indian Affairs shall use the postsecondary funding formula adopted by the Office of Indian Education Programs based on the needs of the Southwest Indian Polytechnic Institute and Haskell Indian Nations University to justify the amounts submitted as part of the budget request of the Department of the Interior.]

SEC. [111] 109. Notwithstanding any other provision of law, in conveying the Twin Cities Research Center under the authority provided by Public Law 104–134, as amended by Public Law 104–208, the Secretary may accept and retain land and other forms of reimbursement: *Provided*, That the Secretary may retain and use any such reimbursement until expended and without further appropriation: (1) for the benefit of the National Wildlife Refuge System within the State of Minnesota; and (2) for all activities authorized by Public Law 100–696; 16 U.S.C. 460zz.

SEC. [112] 110. The Secretary of the Interior may use or contract for the use of helicopters or motor vehicles on the Sheldon and Hart National Wildlife Refuges for the purpose of capturing and transporting horses and burros. The provisions of subsection (a) of the Act of September 8, 1959 (18 U.S.C. 47(a)) shall not be applicable to such use. Such use shall be in accordance with humane procedures prescribed by the Secretary.

[SEC. 113. Funds provided in this Act for Federal land acquisition by the National Park Service for Shenandoah Valley Battlefields National Historic District and Ice Age National Scenic Trail, and funds provided in division E of Public Law 108–447 (118 Stat. 3050) for land acquisition at the Niobrara National Scenic River, may be used for a grant to a State, a local government, or any other land management entity for the acquisition of lands without regard to any restriction on the use of Federal land acquisition funds provided through the Land and Water Conservation Fund Act of 1965 as amended.]

[SEC. 114. None of the funds made available by this Act may be obligated or expended by the National Park Service to enter into or implement a concession contract which permits or requires the removal of the underground lunchroom at the Carlsbad Caverns National Park.]

[SEC. 115. None of the funds made available in this Act may be used: (1) to demolish the bridge between Jersey City, New Jersey, and Ellis Island; or (2) to prevent pedestrian use of such bridge, when such pedestrian use is consistent with generally accepted safety standards.]

[SEC. 116. None of the funds in this or any other Act can be used to compensate the Special Master and the Special Master-Monitor, and all variations thereto, appointed by the United States District Court for the District of Columbia in the Cobell v. Norton litigation at an annual rate that exceeds 200 percent of the highest Senior

Executive Service rate of pay for the Washington-Baltimore locality pay area.]

SEC. [117] 111. The Secretary of the Interior may use discretionary funds to pay private attorney fees and costs for employees and former employees of the Department of the Interior reasonably incurred in connection with *Cobell v. Norton* to the extent that such fees and costs are not paid by the Department of Justice or by private insurance. In no case shall the Secretary make payments under this section that would result in payment of hourly fees in excess of the highest hourly rate approved by the District Court for the District of Columbia for counsel in *Cobell v. Norton*.

[SEC. 118. The United States Fish and Wildlife Service shall, in carrying out its responsibilities to protect threatened and endangered species of salmon, implement a system of mass marking of salmonid stocks, intended for harvest, that are released from Federally operated or Federally financed hatcheries including but not limited to fish releases of coho, chinook, and steelhead species. Marked fish must have a visible mark that can be readily identified by commercial and recreational fishers.]

SEC. [119] 112. (a) IN GENERAL.—Nothing in section 134 of the Department of the Interior and Related Agencies Appropriations Act, 2002 (115 Stat. 443) affects the decision of the United States Court of Appeals for the 10th Circuit in *Sac and Fox Nation v. Norton*, 240 F.3d 1250 (2001).

(b) USE OF CERTAIN INDIAN LAND.—Nothing in this section permits the conduct of gaming under the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.) on land described in section 123 of the Department of the Interior and Related Agencies Appropriations Act, 2001 (114 Stat. 944), or land that is contiguous to that land, regardless of whether the land or contiguous land has been taken into trust by the Secretary of the Interior.

[SEC. 120. No funds appropriated for the Department of the Interior by this Act or any other Act shall be used to study or implement any plan to drain Lake Powell or to reduce the water level of the lake below the range of water levels required for the operation of the Glen Canyon Dam.]

SEC. [121] 113. Notwithstanding the limitation in subparagraph (2)(B) of section 18(a) of the Indian Gaming Regulatory Act (25 U.S.C. 2717(a)), the total amount of all fees imposed by the National Indian Gaming Commission for fiscal year [2007] 2008 shall not exceed \$12,000,000 \$13,000,000.

SEC. [122] 114. Notwithstanding any implementation of the Department of the Interior's trust reorganization or reengineering plans, or the implementation of the "To Be" Model, funds appropriated for fiscal year [2006] 2007 shall be available to the tribes within the California Tribal Trust Reform Consortium and to the Salt River Pima-Maricopa Indian Community, the Confederated Salish and Kootenai Tribes of the Flathead Reservation and the Chippewa Cree Tribe of the Rocky Boys Reservation through the same methodology as funds were distributed in fiscal year 2003. This Demonstration Project shall continue to operate separate and apart from the Department of the Interior's trust reform and reorganization and the Department shall not impose its trust management infrastructure upon or alter the existing trust resource management systems of the above referenced tribes having a self-governance compact and operating in accordance with the Tribal Self-Governance Program set forth in 25 U.S.C. 458aa–458hh: *Provided*, That the California Trust Reform Consortium and any other participating tribe agree to carry out their responsibilities under the same written and implemented fiduciary standards as those being carried by the Secretary of the Interior: *Provided further*, That they demonstrate to the satisfaction of the Secretary that they have the capability to do so: *Provided further*, That the Department shall provide funds to the tribes in an amount equal to that required by 25 U.S.C. 458cc(g)(3), including funds specifically or functionally related to the provision of trust services to the tribes or their members.

[SEC. 123. Notwithstanding any provision of law, including 42 U.S.C. 4321 et. seq., nonrenewable grazing permits authorized in the Jarbidge Field Office, Bureau of Land Management within the past 9 years, shall be renewed. The Animal Unit Months contained in the most recently expired nonrenewable grazing permit, authorized between March 1, 1997, and February 28, 2003, shall continue in effect under the renewed permit. Nothing in this section shall be deemed to extend the nonrenewable permits beyond the standard 1-year term.]

SEC. [124] 115. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to acquire lands, waters, or interests therein including the use of all or part of any pier, dock,

or landing within the State of New York and the State of New Jersey, for the purpose of operating and maintaining facilities in the support of transportation and accommodation of visitors to Ellis, Governors, and Liberty Islands, and of other program and administrative activities, by donation or with appropriated funds, including franchise fees (and other monetary consideration), or by exchange; and the Secretary is authorized to negotiate and enter into leases, subleases, concession contracts or other agreements for the use of such facilities on such terms and conditions as the Secretary may determine reasonable.

[SEC. 125. Upon the request of the permittee for the Clark Mountain Allotment lands adjacent to the Mojave National Preserve, the Secretary shall also issue a special use permit for that portion of the grazing allotment located within the Preserve. The special use permit shall be issued with the same terms and conditions as the most recently-issued permit for that allotment and the Secretary shall consider the permit to be one transferred in accordance with section 325 of Public Law 108–108.]

SEC. [126] 116. Notwithstanding any other provision of law, the National Park Service final winter use rules published in Part VII of the Federal Register for November 10, 2004, 69 Fed. Reg. 65348 et seq., shall be in force and effect for the winter use season of [2005–2006] 2006–2007 that commences on or about December 15, [2005] 2006.

[SEC. 127. Section 1121(d) of the Education Amendments of 1978 (25 U.S.C. 2001(d)) is amended by striking paragraph (7) and inserting the following:

“(7) APPROVAL OF INDIAN TRIBES.—The Secretary shall not terminate, close, consolidate, contract, transfer to another authority, or take any other action relating to an elementary school or secondary school (or any program of such a school) of an Indian tribe without the approval of the governing body of any Indian tribe that would be affected by such an action.”]

(a) Notwithstanding section 508(c) of the Omnibus Parks and Public Lands Management Act of 1996 (40 U.S.C. 8903 note; Public Law 104–333) there is hereby appropriated to the Secretary of the Interior \$10,000,000, to remain available until expended, for necessary expenses for the Memorial to Martin Luther King, Jr., authorized in that Act.

(b) The funds appropriated in subsection (a) shall only be made available after the entire amount is matched by non-Federal contributions (not including in-kind contributions) that are pledged and received after July 26, 2005, but prior to the date specified in subsection (c).

(c) Section 508(b)(2) of the Omnibus Parks and Public Lands Management Act of 1996 is amended by striking “November 12, 2006” and inserting “November 12, 2008.”】 (*Department of the Interior, Environment, and Related Agencies Appropriations Act, 2006.*)

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 201. (a) None of the funds appropriated or otherwise made available by this Act may be used to determine the final point of discharge for the interceptor drain for the San Luis Unit until development by the Secretary of the Interior and the State of California of a plan, which shall conform to the water quality standards of the State of California as approved by the Administrator of the Environmental Protection Agency, to minimize any detrimental effect of the San Luis drainage waters.

(b) The costs of the Kesterson Reservoir Cleanup Program and the costs of the San Joaquin Valley Drainage Program shall be classified by the Secretary of the Interior as reimbursable or nonreimbursable and collected until fully repaid pursuant to the “Cleanup Program-Alternative Repayment Plan” and the “SJVDP-Alternative Repayment Plan” described in the report entitled “Repayment Report, Kesterson Reservoir Cleanup Program and San Joaquin Valley Drainage Program, February 1995”, prepared by the Department of the Interior, Bureau of Reclamation. Any future obligations of funds by the United States relating to, or providing for, drainage service or drainage studies for the San Luis Unit shall be fully reimbursable by San Luis Unit beneficiaries of such service or studies pursuant to Federal reclamation law.

【SEC. 202. None of the funds appropriated or otherwise made available by this or any other Act may be used to pay the salaries and expenses of personnel to purchase or lease water in the Middle Rio Grande or the Carlsbad Projects in New Mexico unless said purchase or lease is in compliance with the purchase requirements of section 202 of Public Law 106–60.】

【SEC. 203. (a) Section 1(a) of the Lower Colorado Water Supply Act (Public Law 99–655) is amended by adding at the end the following: “The Secretary is authorized to enter into an agreement or agreements with the city of Needles or the Imperial Irrigation District for the design and construction of the remaining stages of the Lower Colorado Water Supply Project on or after November 1, 2004, and the Secretary shall ensure that any such agreement or agreements include provisions setting forth: (1) the responsibilities of the parties to the agreement for design and construction; (2) the locations of the remaining wells, discharge pipelines, and power transmission

lines; (3) the remaining design capacity of up to 5,000 acre-feet per year which is the authorized capacity less the design capacity of the first stage constructed; (4) the procedures and requirements for approval and acceptance by the Secretary of the remaining stages, including approval of the quality of construction, measures to protect the public health and safety, and procedures for protection of such stages; (5) the rights, responsibilities, and liabilities of each party to the agreement; and (6) the term of the agreement.”

(b) Section 2(b) of the Lower Colorado Water Supply Act (Public Law 99–655) is amended by adding at the end the following: “Subject to the demand of such users along or adjacent to the Colorado River for Project water, the Secretary is further authorized to contract with additional persons or entities who hold Boulder Canyon Project Act section 5 contracts for municipal and industrial uses within the State of California for the use or benefit of Project water under such terms as the Secretary determines will benefit the interest of Project users along the Colorado River.”】

【SEC. 204. Funds under this title for Drought Emergency Assistance shall be made available primarily for leasing of water for specified drought related purposes from willing lessors, in compliance with existing State laws and administered under State water priority allocation. Such leases may be entered into with an option to purchase: *Provided*, That such purchase is approved by the State in which the purchase takes place and the purchase does not cause economic harm within the State in which the purchase is made.】

【SEC. 205. The Secretary of the Interior, acting through the Commissioner of the Bureau of Reclamation, is authorized to enter into grants, cooperative agreements, and other agreements with irrigation or water districts and States to fund up to 50 percent of the cost of planning, designing, and constructing improvements that will conserve water, increase water use efficiency, or enhance water management through measurement or automation, at existing water supply projects within the States identified in the Act of June 17, 1902, as amended, and supplemented: *Provided*, That when such improvements are to federally owned facilities, such funds may be provided in advance on a non-reimbursable basis to an entity operating affected transferred works or may be deemed non-reimbursable for non-transferred works: *Provided further*, That the calculation of the non-Federal contribution shall provide for consideration of the value of any in-kind contributions, but shall not include funds received from other Federal agencies: *Provided further*, That the cost of operating and maintaining such improvements shall be the responsibility of the non-Federal entity: *Provided further*, That this section shall not supercede any existing project-specific funding authority: *Provided further*, That the Secretary is also authorized to enter into grants or cooperative agreements with universities or non-profit research institutions to fund water use efficiency research.】

【SEC. 206. WATER DESALINATION ACT.—Section 8 of Public Law 104–298 (The Water Desalination Act of 1996) (110 Stat. 3624) as amended by section 210 of Public Law 108–7 (117 Stat. 146) and by section 6015 of Public Law 109–13 is amended by—

(1) in paragraph (a) by striking “2005” and inserting in lieu thereof “2006”; and

(2) in paragraph (b) by striking “2005” and inserting in lieu thereof “2006”.】

【SEC. 207. Section 17(b) of the Colorado Ute Indian Water Rights Settlement Act of 1988 as amended (Public Law 100–585, 102 Stat. 2973; Public Law 106–554, 114 Stat. 2763A–266) is amended by striking “within 7 years” and all that follows through “following the date of enactment of this section” and inserting “for each of fiscal years 2006 through 2012”.】

【SEC. 208. (a)(1) Using amounts made available under section 2507 of the Farm and Security Rural Investment Act of 2002 (43 U.S.C. 2211 note; Public Law 107–171), the Secretary shall provide not more than \$70,000,000 to the University of Nevada—

(A) to acquire from willing sellers land, water appurtenant to the land, and related interests in the Walker River Basin, Nevada; and

(B) to establish and administer an agricultural and natural resources center, the mission of which shall be to undertake research, restoration, and educational activities in the Walker River Basin relating to—

- (i) innovative agricultural water conservation;
- (ii) cooperative programs for environmental restoration;
- (iii) fish and wildlife habitat restoration; and
- (iv) wild horse and burro research and adoption marketing.

(2) In acquiring interests under paragraph (1)(A), the University of Nevada shall make acquisitions that the University determines are the most beneficial to—

(A) the establishment and operation of the agricultural and natural resources research center authorized under paragraph (1)(B); and

(B) environmental restoration in the Walker River Basin.

(b)(1) Using amounts made available under section 2507 of the Farm and Security Rural Investment Act of 2002 (43 U.S.C. 2211 note; Public Law 107–171), the Secretary shall provide not more than \$10,000,000 for a water lease and purchase program for the Walker River Paiute Tribe.

(2) Water acquired under paragraph (1) shall be—

(A) acquired only from willing sellers;

(B) designed to maximize water conveyances to Walker Lake; and

(C) located only within the Walker River Paiute Indian Reservation.

(c) Using amounts made available under section 2507 of the Farm and Security Rural Investment Act of 2002 (43 U.S.C. 2211 note; Public Law 107–171), the Secretary, acting through the Commissioner of Reclamation, shall provide—

(1) \$10,000,000 for tamarisk eradication, riparian area restoration, and channel restoration efforts within the Walker River Basin that are designed to enhance water delivery to Walker Lake, with priority given to activities that are expected to result in the greatest increased water flows to Walker Lake; and

(2) \$5,000,000 to the United States Fish and Wildlife Service, the Walker River Paiute Tribe, and the Nevada Division of Wildlife to undertake activities, to be coordinated by the Director of the United States Fish and Wildlife Service, to complete the design and implementation of the Western Inland Trout Initiative and Fishery Improvements in the State of Nevada with an emphasis on the Walker River Basin.

(d) For each day after June 30, 2006, on which the Bureau of Reclamation fails to comply with subsections (a), (b), and (c), the total amount made available for salaries and expenses of the Bureau of Reclamation shall be reduced by \$100,000 per day.]

【SEC. 209. (a) The Secretary of the Interior is authorized to complete a special report to update the analysis of costs and associated benefits of the Auburn-Folsom South Unit, Central Valley Project, California authorized under Federal reclamation laws and the Act of September 2, 1965, Public Law 89–161, 79 Stat. 615 in order to—

(1) identify those project features that are still relevant;

(2) identify changes in benefit values from previous analyses and update to current levels;

(3) identify design standard changes from the 1978 Reclamation design which require updated project engineering;

(4) assess risks and uncertainties associated with the 1978 Reclamation design;

(5) update design and reconnaissance-level cost estimate for features identified under paragraph (1); and

(6) perform other analyses that the Secretary deems appropriate to assist in the determination of whether a full feasibility study is warranted.

(b) There are authorized to be appropriated \$1,000,000 to carry out this section. The cost of completing this update shall be non-reimbursable.】 (*Energy and Water Development Appropriations Act, 2006.*)

TITLE IV—GENERAL PROVISIONS

SEC. 401. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 402. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which Congressional action is not complete other than to communicate to Members of Congress as described in 18 U.S.C. 1913.

SEC. 403. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 404. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency except as otherwise provided by law.

SEC. 405. Estimated overhead charges, deductions, reserves or holdbacks from programs, projects, activities and subactivities to support government-wide, departmental, agency or bureau administrative functions or headquarters, regional or central operations shall be presented in annual budget justifications [and subject to approval by the Committees on Appropriations. Changes]. *Advance notice of changes* to such estimates shall be presented to the Committees on Appropriations [for approval].

【SEC. 406. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government except pursuant to a transfer made by, or transfer provided in, this Act or any other Act.】

SEC. 【407】 406. None of the funds in this Act may be used to plan, prepare, or offer for sale timber from trees classified as giant sequoia (*Sequoiadendron giganteum*) which are located on National Forest System or Bureau of Land Management lands in a manner different than such sales were conducted in fiscal year 【2005】 2006.

SEC. 【408】 407. (a) LIMITATION OF FUNDS.—None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to accept or process applications for a patent for any mining or mill site claim located under the general mining laws.

(b) EXCEPTIONS.—The provisions of subsection (a) shall not apply if the Secretary of the Interior determines that, for the claim concerned: (1) a patent application was filed with the Secretary on or before September 30, 1994; and (2) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims and sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, and 37) for placer claims, and section 2337 of the Revised Statutes (30 U.S.C. 42) for mill site claims, as the case may be, were fully complied with by the applicant by that date.

(c) REPORT.—On September 30, 【2006】 2007, the Secretary of the Interior shall file with the House and Senate Committees on Appropriations and the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on actions taken by the Department under the plan submitted pursuant to section 314(c) of the Department of the Interior and Related Agencies Appropriations Act, 1997 (Public Law 104–208).

(d) MINERAL EXAMINATIONS.—In order to process patent applications in a timely and responsible manner, upon the request of a patent applicant, the Secretary of the Interior shall allow the applicant to fund a qualified third-party contractor to be selected by the Bureau of Land Management to conduct a mineral examination of the mining claims or mill sites contained in a patent application as set forth in subsection (b). The Bureau of Land Management shall have the sole responsibility to choose and pay the third-party contractor in accordance with the standard procedures employed by the Bureau of Land Management in the retention of third-party contractors.

SEC. 【409】 408. Notwithstanding any other provision of law, amounts appropriated to or earmarked in committee reports for the Bureau of Indian Affairs and the Indian Health Service by Public Laws 103–138, 103–332, 104–134, 104–208, 105–83, 105–277, 106–113, 106–291, 107–63, 108–7, 108–108, [and] 108–447, and 109–54 for payments to tribes and tribal organizations for contract support costs associated with self-determination or self-governance contracts, grants, compacts, or annual funding agreements with the Bureau of Indian Affairs or the Indian Health Service as funded by such Acts, are the total amounts available for fiscal years 1994 through 【2005】 2006 for such purposes, except that, for the Bureau of Indian Affairs, tribes and tribal organizations may use their tribal priority allocations for unmet contract support costs of ongoing contracts, grants, self-governance compacts or annual funding agreements.

SEC. 【410】 409. The National Endowment for the Arts and the National Endowment for the Humanities are hereafter authorized to solicit, accept, receive, and invest in the name of the United States, gifts, bequests, or devises of money and other property or services and to use such in furtherance of the functions of the National Endowment for the Arts and the National Endowment for the Humanities. Any proceeds from such gifts, bequests, or devises, after acceptance by the National Endowment for the Arts or the National Endowment for the Humanities, shall be paid by the donor or the represent-

ative of the donor to the Chairman. The Chairman shall enter the proceeds in a special interest-bearing account to the credit of the appropriate endowment for the purposes specified in each case.

SEC. [411] 410. No part of any appropriation contained in this Act shall be expended or obligated to complete and issue the 5-year program under the Forest and Rangeland Renewable Resources Planning Act.

[SEC. 412. Section 3(a) of the Act of June 9, 1930 (commonly known as the Knutson-Vandenberg Act; 16 U.S.C. 576b), is amended—

(1) by striking “or” following “stand of timber,” in (3); and

(2) by striking the period following “wildlife habitat management” in (4), and inserting “, or (5) watershed restoration, wildlife habitat improvement, control of insects, disease and noxious weeds, community protection activities, and the maintenance of forest roads, within the Forest Service region in which the timber sale occurred: *Provided*, That such activities may be performed through the use of contracts, forest product sales, and cooperative agreements.”.]

SEC. [413] 411. Amounts deposited during fiscal year [2005] 2006 in the roads and trails fund provided for in the 14th paragraph under the heading “FOREST SERVICE” of the Act of March 4, 1913 (37 Stat. 843; 16 U.S.C. 501), shall be used by the Secretary of Agriculture, without regard to the State in which the amounts were derived, to repair or reconstruct roads, bridges, and trails on National Forest System lands or to carry out and administer projects to improve forest health conditions, which may include the repair or reconstruction of roads, bridges, and trails on National Forest System lands in the wildland-community interface where there is an abnormally high risk of fire. The projects shall emphasize reducing risks to human safety and public health and property and enhancing ecological functions, long-term forest productivity, and biological integrity. The projects may be completed in a subsequent fiscal year. Funds shall not be expended under this section to replace funds which would otherwise appropriately be expended from the timber salvage sale fund. Nothing in this section shall be construed to exempt any project from any environmental law.

[SEC. 414. Other than in emergency situations, none of the funds in this Act may be used to operate telephone answering machines during core business hours unless such answering machines include an option that enables callers to reach promptly an individual on-duty with the agency being contacted.]

SEC. [415] 412. Prior to October 1, [2006] 2007, the Secretary of Agriculture shall not be considered to be in violation of subparagraph 6(f)(5)(A) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604(f)(5)(A)) solely because more than 15 years have passed without revision of the plan for a unit of the National Forest System. Nothing in this section exempts the Secretary from any other requirement of the Forest and Rangeland Renewable Resources Planning Act (16 U.S.C. 1600 et seq.) or any other law: *Provided*, That if the Secretary is not acting expeditiously and in good faith, within the funding available, to revise a plan for a unit of the National Forest System, this section shall be void with respect to such plan and a court of proper jurisdiction may order completion of the plan on an accelerated basis.

[SEC. 416. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar. Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, all of the western redcedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, the volume of western redcedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (1) which is surplus to the needs of domestic processors in Alaska; and (2) is that percent of the surplus western redcedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Man-

agement Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a “rolling basis” shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed “surplus to the needs of domestic processors in Alaska” when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.]

SEC. [417] 413. No funds provided in this Act may be expended to conduct preleasing, leasing and related activities under either the Mineral Leasing Act (30 U.S.C. 181 et seq.) or the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) within the boundaries of a National Monument established pursuant to the Act of June 8, 1906 (16 U.S.C. 431 et seq.) as such boundary existed on January 20, 2001, except where such activities are allowed under the Presidential proclamation establishing such monument.

SEC. [418] 414. In entering into agreements with foreign countries pursuant to the Wildfire Suppression Assistance Act (42 U.S.C. 1856m) the Secretary of Agriculture and the Secretary of the Interior are authorized to enter into reciprocal agreements in which the individuals furnished under said agreements to provide wildfire services are considered, for purposes of tort liability, employees of the country receiving said services when the individuals are engaged in fire suppression: *Provided*, That the Secretary of Agriculture or the Secretary of the Interior [shall] *should* not enter into any agreement under this provision unless the foreign country (either directly or through its fire organization) agrees to assume any and all liability for the acts or omissions of American firefighters engaged in firefighting in a foreign country: *Provided further*, That when an agreement is reached for furnishing fire fighting services, the only remedies for acts or omissions committed while fighting fires shall be those provided under the laws of the host country, and those remedies shall be the exclusive remedies for any claim arising out of fighting fires in a foreign country: *Provided further*, That neither the sending country nor any legal organization associated with the firefighter shall be subject to any legal action whatsoever pertaining to or arising out of the firefighter’s role in fire suppression.

[SEC. 419. Notwithstanding any other provision of law or regulation, to promote the more efficient use of the health care funding allocation for fiscal year 2006, the Eagle Butte Service Unit of the Indian Health Service, at the request of the Cheyenne River Sioux Tribe, may pay base salary rates to health professionals up to the highest grade and step available to a physician, pharmacist, or other health professional and may pay a recruitment or retention bonus of up to 25 percent above the base pay rate.]

SEC. [420] 415. In awarding a Federal contract with funds made available by this Act, notwithstanding Federal Government procurement and contracting laws, the Secretary of Agriculture and the Secretary of the Interior (the “Secretaries”) may, in evaluating bids and proposals, give consideration to local contractors who are from, and who provide employment and training for, dislocated and displaced workers in an economically disadvantaged rural community, including those historically timber-dependent areas that have been affected by reduced timber harvesting on Federal lands and other forest-dependent rural communities isolated from significant alternative employment opportunities: *Provided*, That notwithstanding Federal Government procurement and contracting laws the Secretaries may award contracts, grants or cooperative agreements to local non-profit entities, Youth Conservation Corps or related partnerships with State, local or non-profit youth groups, or small or micro-business or disadvantaged business: *Provided further*, That the contract, grant, or cooperative agreement is for forest hazardous fuels reduction, watershed or water quality monitoring or restoration, wildlife or fish population monitoring, or habitat restoration or management: *Provided further*, That the terms “rural community” and “economically disadvantaged” shall have the same meanings as in section 2374 of Public Law 101–624: *Provided further*, That the Secretaries shall develop guidance to implement this section: *Provided further*, That nothing in this section shall be construed as relieving the Secretaries of any duty under applicable procurement laws, except as provided in this section.

SEC. [421] 416. No funds appropriated in this Act for the acquisition of lands or interests in lands may be expended for the filing of declarations of taking or complaints in condemnation without the [approval] *prior notification* of the House and Senate Committees on Appropriations: *Provided*, That this provision shall not apply to funds appropriated to implement the Everglades National Park Protection and Expansion Act of 1989, or to funds appropriated for Federal assistance to the State of Florida to acquire lands for Everglades restoration purposes.

[SEC. 422. (a) LIMITATION ON COMPETITIVE SOURCING STUDIES.—

(1) Of the funds made available by this or any other Act to the Department of the Interior for fiscal year 2006, not more than \$3,450,000 may be used by the Secretary of the Interior to initiate or continue competitive sourcing studies in fiscal year 2006 for programs, projects, and activities for which funds are appropriated by this Act until such time as the Secretary concerned submits a reprogramming proposal to the Committees on Appropriations of the Senate and the House of Representatives, and such proposal has been processed consistent with the reprogramming guidelines included in the report accompanying this Act.

(2) Of the funds appropriated by this Act, not more than \$3,000,000 may be used in fiscal year 2006 for competitive sourcing studies and related activities by the Forest Service.

(b) COMPETITIVE SOURCING STUDY DEFINED.—In this section, the term “competitive sourcing study” means a study on subjecting work performed by Federal Government employees or private contractors to public-private competition or on converting the Federal Government employees or the work performed by such employees to private contractor performance under the Office of Management and Budget Circular A-76 or any other administrative regulation, directive, or policy.

(c) COMPETITIVE SOURCING EXEMPTION FOR FOREST SERVICE STUDIES CONDUCTED PRIOR TO FISCAL YEAR 2006.—The Forest Service is hereby exempted from implementing the Letter of Obligation and post-competition accountability guidelines where a competitive sourcing study involved 65 or fewer full-time equivalents, the performance decision was made in favor of the agency provider; no net savings was achieved by conducting the study, and the study was completed prior to the date of this Act.

(d) In preparing any reports to the Committees on Appropriations on competitive sourcing activities, agencies funded in this Act shall include the incremental cost directly attributable to conducting the competitive sourcing competitions, including costs attributable to paying outside consultants and contractors and, in accordance with full cost accounting principles, all costs attributable to developing, implementing, supporting, managing, monitoring, and reporting on competitive sourcing, including personnel, consultant, travel, and training costs associated with program management.

(e) In carrying out any competitive sourcing study involving Forest Service employees, the Secretary of Agriculture shall—

(1) determine whether any of the employees concerned are also qualified to participate in wildland fire management activities; and

(2) take into consideration the effect that contracting with a private sector source would have on the ability of the Forest Service to effectively and efficiently fight and manage wildfires.]

[SEC. 423. None of the funds in this Act or prior Acts making appropriations for the Department of the Interior and Related Agencies may be provided to the managing partners or their agents for the SAFECOM or Disaster Management projects.]
