The Affordable Housing Program was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). FIRREA requires each of the twelve Federal Home Loan Banks to contribute 10 percent of its previous year's net earnings to an Affordable Housing Program (AHP) to be used to subsidize the cost of affordable homeownership and rental housing. The Federal Housing Finance Board regulates the AHP and ensures that the AHP fulfills its mission.

Note: Financial data presented for future years is based on the 2005 program level and is not an estimate of future earnings of the Federal Home Loan Banks.

This appropriation supports a Federal-State partnership to invest in sustainable economic development in the 410-county Appalachian Region. The Appalachian Regional Commission is comprised of 13 members representing the States in the region and a Federal Co-Chairman. The Federal Co-Chairman represents the Federal Government on the Commission and leads in the coordination of programs serving the Appalachian Region across the Federal Government.

Appalachian Development Highway System.—The Appalachian Development Highway System (ADHS), including local access roads, is designed to improve the accessibility of Appalachia and reduce highway transportation costs to and within Appalachia.

The Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) authorized \$470 million annually out of the Highway Trust Fund for each of the years 2005 through 2009 for construction of the ADHS and local access road projects. The ARC exercises policy and programmatic control over these funds.

Area development and technical assistance program.—Area development funds are allocated by formula to the 13 member States for projects that promote sustainable regional economic development, with assistance targeted at the most distressed and underdeveloped counties and areas.

Area development provides funds for projects that advance the goals and objectives of ARC's 2005-2010 strategic plan: 1) increasing Appalachian job opportunities and per capita income, 2) improving employability through education and health initiatives, 3) strengthening infrastructure including basic services like clean water, and 4) building the Appalachian Development Highway System. In 2007, the Commission will continue to focus on planning and coordinating regional investments and targeting resources to those communities with the greatest needs.

Local development districts program.—ARC's 410 counties are divided into 72 multi-county local development districts (LDDs) that assist local governments in identifying needs and developing strategies in a regional context to promote sustainable community and economic development.

Salaries and expenses.—In this Federal-State partnership, the Federal Government contributes half of the expenses of a professional staff which works with the states and the Federal staff in operating the program. The other half of these non-Federal employee expenses are provided by member States.

Performance.—In its PART assessment, the Appalachian Regional Commission received an Adequate rating and has continued to make progress in developing outcome-based performance measures. In 2007, the Appalachian Regional Commission will begin working with its state and local partners to create a Challenge Grant for Regional Innovation award program. These grants will be awarded to distressed communities that have shown significant potential to increase economic opportunity or to remove economic development bar-

riers and will include performance measures to track a community's progress.

The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of

The Commission engages in studies concerning areas in which there may be denials of civil rights and reports on these matters to the President and the Congress. Hearings by the Commissioners are held to investigate and obtain information about denials of civil rights. Conferences and open meetings are held by staff and State Advisory Committees to gather data and issue reports providing information about civil rights problems. In addition, the Commission appraises and reports on Federal agencies' enforcement of civil rights laws. Complaints alleging discrimination are referred to the proper Federal agencies.

The Commission provides liaison with private groups, public groups, and the media to provide civil rights information to Government officials, organizations, and the public. The Commission issues publications and public service announcements to discourage discrimination and denial of equal protection of the laws. The Commission also provides a library resource to support civil rights research, studies, hearings, and other Commission activities, and makes this information available to the general public.

The Committee for Purchase From People Who Are Blind or Severely Disabled (the Committee) administers the Javits-Wagner-O'Day (JWOD) Act of 1971, as amended. The principal objective of the Program is to leverage the purchasing power of the Federal Government to provide employment opportunities for people who are blind or have other severe disabilities. The Committee accomplishes its mission by first identifying Government procurement requirements that can create employment opportunities for individuals who are blind or have other severe disabilities. Following opportunities for public comment and after due deliberation, the Committee then places such products and service requirements on the JWOD Procurement List, thus requiring Federal departments and agencies to procure the designated products and services from a network of over 625 qualified State and private non-profit agencies (NPAs) employing people who are blind or have other severe disabilities.

The long-term goal of the JWOD Program has been and continues to be increasing job opportunities for people who are blind or have other severe disabilities. In 2004, approximately 45,000 individuals who earned \$366.2 million in wages were employed through the JWOD Program. Because of their employment through the JWOD Program, these individuals have reduced their dependence on Social Security, Food Stamps, Temporary Assistance of Needy Families, and other public income transfer payments.

Because of changes in Federal procurement practices, the focus of the JWOD Program has changed significantly in the last decade. In an effort to become the preferred source for

products and services for Federal customers, the Program has opened new lines of business in areas such as automotive fleet management, document destruction services, and secure mail facility management that offer opportunities for future employment growth and support the President's management agenda for a more streamlined, efficient Government. In addition to pursuing these initiatives, the Program has expanded the range of military unique products and services it has traditionally provided to meet the needs of the Nation's war fighters. The resources proposed for 2007 would enable the Committee to continue to increase employment opportunities for people who are blind or severely disabled while providing Federal departments and agencies with high quality products and services to support their missions.

The Commodity Futures Trading Commission (CFTC) administers the Commodity Exchange Act of 1936 (CEA), as amended. CFTC furthers the economic utility of the futures markets by encouraging efficiency, assuring integrity, and protecting participants against abusive trade practices, fraud, and deceit. CFTC performs daily surveillance of high-risk market activity and fundamental economic market factors as it systematically investigates the functioning of markets and market users. CFTC's oversight enables the markets to better serve their designated functions of providing a price discovery mechanism and CFTC constantly works to develop better tools to assist in detecting and preventing price distortions. CFTC also is responsible for detecting, investigating, and litigating violations of the CEA and CFTC regulations and monitors compliance activities of designated contract markets, registered commodities professionals, and self-regulatory organizations.

The Administration proposes increased resources for the CFTC in 2007. These increased resources will ensure proper oversight of the markets through the maintenance of adequate staffing levels, which generally have been held constant for years in the face of substantial market growth—trading volume has quadrupled over the past 12 years. The resources will also allow the CFTC to build upon its knowledge of the increasingly complex futures markets and improve its ability to undertake enforcement actions against wrongdoers. The CFTC must remain vigilant in its supervision of critical areas such as energy and foreign currency exchange fraud, and maintain expertise of the changing nature of traded products and evolving platforms on which they are traded.

For 2007, the Administration proposes a new transaction fee on commodity futures and option contracts traded on approved exchanges to cover the cost of the CFTC's regulatory activities. CFTC is the only Federal financial regulator that does not derive its funding from the specialized entities it regulates. This fee will shift CFTC's costs from the general taxpayer to the primary beneficiaries of CFTC's oversight and will be set at a level to avoid inhibiting the market's competitiveness.

The Corporation for National and Community Service works with non-profits, faith-based groups, schools, and other civic organizations to engage Americans of all ages and backgrounds in community-based service which addresses the Nation's educational, human, public safety, and environmental needs, including homeland security, to achieve meaningful results. In doing so, the Corporation fosters civic responsibility, strengthens the ties that bind us together as a people, and provides educational opportunity for those who make a substantial commitment to service.

National Service Trust.—The Trust serves as a secure repository for educational awards set aside for eligible participants in National Service programs. The budget request supports the President's goal of 75,000 new AmeriCorps members and is based on the accounting methodology specified in the Strengthen AmeriCorps Program Act of 2003.

AmeriCorps State and National grants.—With funds both channelled through States and provided directly to community based organizations, AmeriCorps grants enable communities to address problems they identify by using the skills of individuals serving in National Service positions. The budget request funds 67,250 AmeriCorps State and National members.

Innovation, demonstration, and assistance.—This activity supports innovative and demonstration service programs that may not be eligible under other subtitles of the national service laws, training and technical assistance to grantees, disabled participants who need special accommodation, and other activities that help build an ethic of service among Americans of all ages and backgrounds.

Evaluation.—This activity supports performance measurement and studies of program impact. The budget request funds key recurring data collection activities: performance benchmarking surveys for each major program, a longitudinal study of the impact of AmeriCorps service on members, and a Current Population Survey supplement on volunteering in America.

AmeriCorps National Civilian Community Corps.—A residential national service program for people ages 18-24. AmeriCorps*NCCC members are deployed to respond to disasters, build low-income housing, tutor children, preserve the environment, and meet other local needs. The budget request provides funding to close out operations of the NCCC program, which was rated "ineffective" commensurate with its relatively high per-participant cost in a recent Program Assessment Rating Tool review.

Learn and Serve America.—Provides grants to schools, higher education institutions and after-school programs to integrate service into their curricula. Service-learning aims to promote civic participation and volunteering from an early age.

State commission administrative grants.—These formula grants support the operations of State service commissions, through which the Corporation funds roughly three-quarters of AmeriCorps*State and National programs. Commissions are responsible for monitoring sub-grantees and ensuring that they comply with Federal requirements and performance expectations. These grants must be matched by the commissions.

Points of Light Foundation.—A grant will be provided to this nongovernment, nonprofit 501(c)(3) entity to enable it to increase opportunities for Americans to participate in voluntary activities.

America's Promise.—A grant will be provided to this non-government, nonprofit 501(c)(3) entity to enable it to mobilize individuals, groups and organizations to build and strengthen the character and competence of the Nation's youth.

AmeriCorps Volunteers in Service to America.—The AmeriCorps*VISTA program assists communities working to resolve local poverty-related problems in areas such as illiteracy, hunger, unemployment, substance abuse, homelessness, and lack of adequate health support. The budget request funds 7,750 AmeriCorps*VISTA members including 1,100 summer associates.

Senior Corps.—These programs provide opportunities for people aged 55 and over, including those who are low-income, to volunteer their services to the community in many socially useful activities including helping children learn to read and working with the emotionally disturbed, the mentally retarded, and physically disabled, as well as the isolated and infirm elderly. The budget request supports nearly 500,000 senior volunteers.

The gifts and contributions account is a consolidation of two trust accounts. In one, gifts and contributions from individuals and organizations are deposited for use in furthering program goals. In the other, funds appropriated to make educational awards to individuals who successfully complete national service are maintained until such time as the individual uses those awards.

ADMINISTRATIVE PROVISIONS

Notwithstanding any other provision of law, the term “qualified student loan” with respect to national service education awards shall mean any loan determined by an institution of higher education to be necessary to cover a student’s cost of attendance at such institution and made, insured, or guaranteed directly to a student by a State agency, in addition to other meanings under section 148(b)(7) of the National and Community Service Act.

Notwithstanding any other provision of law, funds made available under section 129(d)(5)(B) of the National and Community Service Act to assist entities in placing applicants who are individuals with disabilities may be provided to any entity that receives a grant under section 121 of the Act.

【The Inspector General of the Corporation for National and Community Service shall conduct random audits of the grantees that administer activities under the AmeriCorps programs and shall levy sanctions in accordance with standard Inspector General audit resolution procedures which include, but are not limited to, debarment

of any grantee (or successor in interest or any entity with substantially the same person or persons in control) that has been determined to have committed any substantial violations of the requirements of the AmeriCorps programs, including any grantee that has been determined to have violated the prohibition of using Federal funds to lobby the Congress: *Provided*, That the Inspector General shall obtain reimbursements in the amount of any misused funds from any grantee that has been determined to have committed any substantial violations of the requirements of the AmeriCorps programs.

For fiscal year 2006, the Corporation shall make any significant changes to program requirements or policy only through public notice and comment rulemaking. For fiscal year 2006, during any grant selection process, no officer or employee of the Corporation shall knowingly disclose any covered grant selection information regarding such selection, directly or indirectly, to any person other than an officer or employee of the Corporation that is authorized by the Corporation to receive such information.】 (*Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2006.*)

General programming.—The Corporation for Public Broadcasting provides grants to qualified public television and radio stations to be used at their discretion for purposes related to program production or acquisition and general operations. The Corporation also supports the production and acquisition of radio and television programs for national distribution. In addition, the Corporation assists in the financing of several system-wide activities, including national satellite interconnection services and the payment of music royalty fees, and provides limited technical assistance, research, and planning services to improve system-wide capacity and performance. By custom, the appropriation for the Corporation has been enacted two years in advance. For 2007, appropriations of \$400 million were enacted in 2005; and for 2008, appropriations of \$400 million were enacted in 2006. The Administration proposes a \$53.5 million rescission of the Corporation's advance appropriation for 2007 and a \$50 million rescission of the Corporation's advance appropriation for 2008.

The Administration proposes that the Corporation receive appropriations like other programs that receive Federal assistance. Therefore, a 2009 funding request for the Corporation will be proposed in the 2009 President's Budget.

To ensure Federal funding provides the greatest benefit, CPB, in consultation with public broadcasting licensees, will continue to explore more effective means for targeting resources to areas of most need.

Digital Transition.—In 2007, up to \$38 million from within the Corporation's already enacted 2006 funding is made available for digital conversion grants to public television broadcasters. Public television broadcasting stations are in various stages of conversion to digital technology. These dollars are intended to support the necessary equipment that will allow stations to convert to digital broadcasting as required by law.

Interconnection.—The Corporation, in an agreement with the Public Broadcasting Service, has begun replacing the public television interconnection system, which is the major na-

tional distribution network for public broadcasting stations. Up to \$36 million in funding is made available from within the 2007 appropriation to complete the replacement and upgrade of the interconnection system.

The National Capital Revitalization and Self-Government Improvement Act established the Court Services and Offender Supervision Agency (CSOSA) for the District of Columbia as an independent Federal agency, which has assumed the District of Columbia (D.C.) pretrial services, adult probation, and parole supervision functions. The mission of CSOSA is to increase public safety, prevent crime, reduce recidivism and support the fair administration of justice in close collaboration with the community. The Public Defender Service (PDS) for the District of Columbia, an independent District of Columbia Agency (16 D.C. Code § 2-1601 et seq.), has a separate and distinct mission to provide legal representation services within the District of Columbia. PDS transmits its budget with that of CSOSA, as required by law.

The CSOSA appropriation supports the Community Supervision Program, the Pretrial Services Agency, and the Public Defender Service for the District of Columbia.

Community Supervision Program.—This activity provides supervision in the community of adult offenders on probation, parole or supervised release—consistent with a crime prevention strategy that integrates successful re-entry into the community, close supervision, routine drug testing, treatment, and graduated sanctions. The activity also develops and provides probation and parole authorities with timely and useful information for decision-making.

Pretrial Services Agency.—This activity assists the trial and appellate levels of both the Federal and local courts in determining eligibility for pretrial release by providing background information on all arrestees. The background information is used to establish release conditions to ensure defendants will return to court and will not be a danger to the community while on pretrial release. The Pretrial Services Agency is further responsible for supervising conditions of release, conducting drug testing, administering graduated sanctions, referring defendants to treatment and other social services, and reporting on defendants' compliance to the courts. The Budget

proposes additional resources to reduce the ratio of pre-trial supervisors to defendants from 126:1 to 76:1.

Public Defender Service.—This agency provides legal representation to indigent defendants and provides support in the form of training, consultation and legal reference services to members of the local bar appointed as counsel in criminal, juvenile, and mental health cases involving indigent individuals.

The Defense Nuclear Facilities Safety Board, authorized by Public Law 100-456, is responsible for evaluating the content and implementation of the standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy (DOE) (as defined in Public Law 100-456). The Board also reviews the design of new DOE defense nuclear facilities and periodically reviews and monitors construction of such facilities to ensure adequate protection of public and worker health and safety. In addition, the National Defense Authorization Act for 1992 and 1993 (Public Law 102-190) expanded the Board's jurisdiction to include facilities and activities involved with the assembly, disassembly, and testing of nuclear weapons. The Board is also responsible for investigating any event or practice at a defense nuclear facility which has or may adversely affect public health and safety. The Board makes specific recommendations to the Secretary of Energy on measures that should be adopted to ensure that both public and employee health and safety are adequately protected.

The Delta Regional Authority (DRA), authorized by P.L. 106-554, was established to assist the eight-state, 240-county Mississippi Delta region in obtaining the transportation and basic public infrastructure, skills training, and opportunities for economic development essential to strong local economies.

The DRA was created as a Federal-State partnership. DRA will focus on: basic public infrastructure in distressed counties and isolated areas of distress; transportation infrastructure facilitating the economic development of the region; business development; and job training or employment-related education. In its PART assessment, the Delta Regional Authority was rated as Results Not Demonstrated, due to its lack of annual performance measures and independent program evaluations. In response, in 2007, the Authority will be working to develop and implement outcome-based annual performance measures to accurately measure investment impacts. Additionally, the Authority will continue to focus on multi-state planning and facilitation of regional investments.

The Denali Commission was established by the Denali Commission Act of 1998 (P.L. 105-277) to promote sustainable rural infrastructure development, to provide job training and other economic development services in rural communities with a focus on distressed communities, and to deliver services in the most cost-effective manner practicable in the State of Alaska. The Denali Commission is composed of 7 members with a Federal cochairperson. The Commission is required to develop an annual work plan that ensures coordination of State and Federal agencies for cost-shared and sustainable utilities and infrastructure related projects that promote health, safety, and economic self-sufficiency throughout rural Alaska.

The Budget is not requesting reimbursable funding for the Denali Commission for 2007. In 2006, the Commission received \$61 million of unrequested funding from the Departments of Agriculture, Health and Human Services and Labor, and \$25 million in transportation funding through the 2005 highway reauthorization bill.

In its PART assessment, the Denali Commission received an Adequate rating, based upon the fact that while the Commission has annual performance measures, it is difficult to determine the impact the Commission's investments have.

Measuring impact remains a challenge due to the many Federal programs that provided assistance in the region, and the small share of total Federal investment that the Commission represents. Therefore, in 2007, the Denali Commission will continue to work to develop more outcome-based performance measures, and initiate independent program evaluations. These measures will focus on improvements in employment, health, and other indicators in distressed rural Alaska. Additionally, the Commission will continue to focus on planning and coordinating regional investments.

The Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (P.L. 105-277) established the annual transfer of interest from the Oil Spill Liability Trust Fund to the Denali Commission. The Denali Commission, in consultation with the Coast Guard, developed a program in which these funds are to be used to repair or replace bulk fuel storage tanks in Alaska which are not in compliance with Federal law, including the Oil Pollution Act of 1990, or State law.

Under the National Capital Revitalization and Self-Government Improvement Act of 1997, the Federal Government is required to finance the District of Columbia Courts beginning in 1998. This Federal payment to the District of Columbia Courts funds the operations of the District of Columbia Court of Appeals, Superior Court, the Court System, and the Capital Improvement Program. These improvements will include establishing a permanent home for the DC Family Court, a complete renovation of the historic Old Courthouse, as well as design and renovation work on several other buildings in Judiciary Square.

The 2007 Budget provides funds to: complete the Annex Renovation for Juvenile Holding; complete the modernization of Building A; and provide much needed upgrades to plumbing and electrical systems and fire and security systems.

By law, the annual budget includes estimates of the expenditures for the operations of the District of Columbia Courts prepared by the Joint Committee on Judicial Administration in the District of Columbia and the President's recommendation for funding District Courts operations. The President's recommended level of \$197 million includes: \$146 million for District of Columbia Court of Appeals, Superior Court of the District of Columbia, and the District of Columbia Court System operations; and \$51 million for capital improvements for District courthouse facilities. Under a separate transmittal to Congress, the District Courts are requesting \$334 million; \$161 million for operations and \$173 million for capital improvements.

The District of Columbia Courts appoint and compensate attorneys to represent persons who are financially unable to obtain such representation under three Defender Services programs: the Criminal Justice Act (CJA) program provides court-appointed attorneys to indigent persons who are charged with criminal offenses; the Counsel for Child Abuse and Neglect (CCAN) program provides court-appointed attorneys for family proceedings in which child neglect is alleged, or where the termination of the parent-child relationship is

under consideration and the parent, guardian, or custodian of the child is indigent; the Guardianship program provides for the representation and protection of mentally incapacitated individuals and minors whose parents are deceased. In addition to legal representation, these programs provide indigent persons with services such as: transcripts of court proceedings; expert witness testimony; foreign and sign language interpretation; and investigations and genetic testing. The President's recommended funding level for Defender Services is \$43 million. Under a separate transmittal to the Congress, the Courts are requesting \$54 million for Defender Services.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended (the Act), requires the Secretary of the Treasury to make payments at the end of each fiscal year, beginning in 1998, from the General Fund of the Treasury into the District of Columbia Judicial Retirement and Survivors Annuity Fund (Judicial Fund). Annual payments consist of amounts necessary to amortize the original unfunded liability over 30 years, the net experience gain or loss over 10 years, any other changes in actuarial liability over 20 years; and amounts necessary to fund the normal cost and covered administrative expenses for the year. This account receives the annual payments from the General Fund and immediately transfers those amounts to the Judicial Fund through an expenditure transfer.

The 2007 Budget provides continued support for the D.C. School Choice program and Federal support of D.C. public schools and D.C. charter schools. This includes an investment of \$15 million to support the D.C. School Choice program. This program helps increase the capacity of the District to provide parents—particularly low-income parents—more options for obtaining quality education for their children who are trapped in low-performing schools. As part of the Administration's commitment to improving education in D.C., the budget also continues funding for D.C. public schools and D.C. charter schools, with \$26 million.

The Budget proposes \$30 million to begin construction on a new central library and renovation of neighborhood branches. An estimated 37% of adults in the district are functionally illiterate and the district's libraries are in a state of significant disrepair and are poorly equipped. The library initiative will serve as a state-of-the-art learning environment and offer literacy training through its new Center for Literacy. The Budget recognizes that there is a significant Federal interest in expanding the Navy Yard Metro station, as there was previously when the Federal Government supported funding for the New York Avenue and Mt. Vernon Square-Convention Center stations, due to the increasing number of Federal workers passing through those stations. Accordingly, the 2007 Budget includes \$20 million for the Navy Yard Metro station, which is expected to accommodate an estimated 10,000 Federal employees and contractors upon completion of the Federal Center Southeast area.

The Budget proposes \$1 million for the Criminal Justice Coordinating Council, which is a multi-agency body that coordinates local and Federal criminal justice functions in the District of Columbia. The Budget also includes \$7 million for the DC Water and Sewer Authority to reduce combined sewer overflows in the Anacostia River.

The Budget proposes to eliminate the Federal Payment to the Chief Financial Officer, which funds over 70 earmarked projects.

General and special funds—Continued**FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA PENSION FUND—Continued**

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended (the Act) requires the Secretary of the Treasury to make payments at the end of each fiscal year from the General Fund of the Treasury into the District of Columbia Pension Fund. This account receives the annual payments from the General Fund and immediately transfers those amounts to the District of Columbia Federal Pension Fund. Annual payments consist of amounts necessary to amortize the original unfunded liability over 30 years, the net experience gain or loss over 10 years, and any other changes in actuarial liability over 20 years; and amounts necessary to fund covered administrative expenses for the year. Prior to the December 23, 2004 enactment of the District of Columbia Retirement Protection Improvement Act of 2004 (Improvement Act) the amounts received from the General Fund were immediately transferred into the Federal Supplemental District of Columbia Pension Fund (Supplemental Fund). The Improvement Act terminated the Supplemental Fund and transferred its assets to the District of Columbia Federal Pension Fund.

The 1990 District of Columbia Appropriations Act established a system "to improve the means by which the District of Columbia (now the D.C. Water and Sewer Authority, DCWASA) is paid for water and sanitary sewer services furnished to the Government of the United States or any department, agency, or independent establishment thereof." Each agency is to pay 25 percent of its estimated yearly bill each quarter by depositing its payment into this account. If an agency does not submit payment on time, Treasury is directed to pay the Government-wide bill, making up the difference

from a permanent, indefinite appropriation account, which is then to be reimbursed by the appropriate agencies.

The National Capital Revitalization and Self-Government Improvement Act of 1997 (the Act) established the District of Columbia Federal Pension Liability Trust Fund (Trust Fund) to pay retirement benefits for the District of Columbia police officers, firefighters, and teachers; and to pay any necessary expenses to administer the Trust Fund or expenses incurred by the Secretary of the Treasury in carrying out his responsibilities regarding such retirement benefits. The District of Columbia Retirement Protection Improvement Act of 2004 (enacted December 23, 2004) amended the Act to terminate the Trust Fund and establish the District of Columbia Federal Pension Fund. The obligations and assets of the Trust Fund transferred to the District of Columbia Federal Pension Fund as of October 1, 2004. Prior to the transfer, the Trust Fund consisted of: the proceeds of accumulated pension assets transferred from the District of Columbia during 1999 and liquidated, pursuant to the Act; and any income earned from the investment of the assets in public debt securities.

GENERAL PROVISIONS

SEC. 101. Whenever in this Act, an amount is specified within an appropriation for particular purposes or objects of expenditure, such amount, unless otherwise specified, shall be considered as the maximum amount that may be expended for said purpose or object rather than an amount set apart exclusively therefor.

SEC. 102. Appropriations in this Act shall be available for expenses of travel and for the payment of dues of organizations concerned with the work of the District of Columbia government, when authorized by the Mayor, or, in the case of the Council of the District of Columbia, funds may be expended with the authorization of the Chairman of the Council.

SEC. 103. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of legal settlements or judgments that have been entered against the District of Columbia government.

SEC. 104. (a) Except as provided in subsection (b), no part of this appropriation shall be used for publicity or propaganda purposes or

implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

(b) The District of Columbia may use local funds provided in this title to carry out lobbying activities on any matter other than—

- (1) the promotion or support of any boycott; or
- (2) statehood for the District of Columbia or voting representation in Congress for the District of Columbia.

(c) Nothing in this section may be construed to prohibit any elected official from advocating with respect to any of the issues referred to in subsection (b).

SEC. 105. (a) None of the funds provided under this title to the agencies funded by this title, both Federal and District government agencies, that remain available for obligation or expenditure in fiscal year **[2006] 2007**, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this title, shall be available for obligation or expenditures for an agency through a reprogramming of funds which—

- (1) creates new programs;
- (2) eliminates a program, project, or responsibility center;
- (3) establishes or changes allocations specifically denied, limited or increased under this Act;
- (4) increases funds or personnel by any means for any program, project, or responsibility center for which funds have been denied or restricted;
- (5) reestablishes any program or project previously deferred through reprogramming;
- (6) augments any existing program, project, or responsibility center through a reprogramming of funds in excess of \$3,000,000 or 10 percent, whichever is less; or
- (7) increases by 20 percent or more personnel assigned to a specific program, project or responsibility center,

unless the Committees on Appropriations of the House of Representatives and Senate are notified in writing 15 days in advance of the reprogramming.

(b) None of the local funds contained in this Act may be available for obligation or expenditure for an agency through a transfer of any local funds in excess of \$3,000,000 from one appropriation heading to another unless the Committees on Appropriations of the House of Representatives and Senate are notified in writing 15 days in advance of the transfer, except that in no event may the amount of any funds transferred exceed 4 percent of the local funds in the appropriations.

SEC. 106. Consistent with the provisions of section 1301(a) of title 31, United States Code, appropriations under this Act shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.

SEC. 107. Notwithstanding any other provisions of law, the provisions of the District of Columbia Government Comprehensive Merit Personnel Act of 1978 (D.C. Law 2-139; D.C. Official Code, section 1-601.01 et seq.), enacted pursuant to section 422(3) of the District of Columbia Home Rule Act (D.C. Official Code, section 1-2041.22(3)), shall apply with respect to the compensation of District of Columbia employees. For pay purposes, employees of the District of Columbia government shall not be subject to the provisions of title 5, United States Code.

SEC. 108. No later than 30 days after the end of the first quarter of fiscal year **[2006] 2007**, the Mayor of the District of Columbia shall submit to the Council of the District of Columbia and the Committees on Appropriations of the House of Representatives and Senate the new fiscal year **[2006] 2007** revenue estimates as of the end of such quarter. These estimates shall be used in the budget request for fiscal year **[2007] 2008**. The officially revised estimates at midyear shall be used for the midyear report.

SEC. 109. No sole source contract with the District of Columbia government or any agency thereof may be renewed or extended without opening that contract to the competitive bidding process as set forth in section 303 of the District of Columbia Procurement Practices Act of 1985 (D.C. Law 6-85; D.C. Official Code, section 2-303.03), except that the District of Columbia government or any agency thereof may renew or extend sole source contracts for which competition is not feasible or practical, but only if the determination as to whether to invoke the competitive bidding process has been made in accordance with duly promulgated rules and procedures and has been reviewed and certified by the Chief Financial Officer of the District of Columbia.

SEC. 110. None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses,

or other costs associated with the offices of United States Senator or United States Representative under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979 (D.C. Law 3-171; D.C. Official Code, section 1-123).

SEC. 111. None of the Federal funds made available in this Act may be used to implement or enforce the Health Care Benefits Expansion Act of 1992 (D.C. Law 9-114; D.C. Official Code, section 32-701 et seq.) or to otherwise implement or enforce any system of registration of unmarried, cohabiting couples, including but not limited to registration for the purpose of extending employment, health, or governmental benefits to such couples on the same basis that such benefits are extended to legally married couples.

SEC. 112. (a) Notwithstanding any other provision of this Act, the Mayor, in consultation with the Chief Financial Officer of the District of Columbia may accept, obligate, and expend Federal, private, and other grants received by the District government that are not reflected in the amounts appropriated in this Act.

(b)(1) No such Federal, private, or other grant may be obligated, or expended pursuant to subsection (a) until—

(A) the Chief Financial Officer of the District of Columbia submits to the Council a report setting forth detailed information regarding such grant; and

(B) the Council has reviewed and approved the obligation, and expenditure of such grant.

(2) For purposes of paragraph (1)(B), the Council shall be deemed to have reviewed and approved the obligation, and expenditure of a grant if—

(A) no written notice of disapproval is filed with the Secretary of the Council within 14 calendar days of the receipt of the report from the Chief Financial Officer under paragraph (1)(A); or

(B) if such a notice of disapproval is filed within such deadline, the Council does not by resolution disapprove the obligation, or expenditure of the grant within 30 calendar days of the initial receipt of the report from the Chief Financial Officer under paragraph (1)(A).

(c) No amount may be obligated or expended from the general fund or other funds of the District of Columbia government in anticipation of the approval or receipt of a grant under subsection (b)(2) or in anticipation of the approval or receipt of a Federal, private, or other grant not subject to such subsection.

(d) The Chief Financial Officer of the District of Columbia may adjust the budget for Federal, private, and other grants received by the District government reflected in the amounts appropriated in this title, or approved and received under subsection (b)(2) to reflect a change in the actual amount of the grant.

(e) The Chief Financial Officer of the District of Columbia shall prepare a quarterly report setting forth detailed information regarding all Federal, private, and other grants subject to this section. Each such report shall be submitted to the Council of the District of Columbia **[and]**, to the Committees on Appropriations of the House of Representatives and Senate, *and to the President* not later than 15 days after the end of the quarter covered by the report.

SEC. 113. (a) Except as otherwise provided in this section, none of the funds made available by this Act or by any other Act may be used to provide any officer or employee of the District of Columbia with an official vehicle unless the officer or employee uses the vehicle only in the performance of the officer's or employee's official duties. For purposes of this paragraph, the term "official duties" does not include travel between the officer's or employee's residence and workplace, except in the case of—

(1) an officer or employee of the Metropolitan Police Department who resides in the District of Columbia or is otherwise designated by the Chief of the Department;

(2) at the discretion of the Fire Chief, an officer or employee of the District of Columbia Fire and Emergency Medical Services Department who resides in the District of Columbia and is on call 24 hours a day or is otherwise designated by the Fire Chief;

(3) the Mayor of the District of Columbia; and

(4) the Chairman of the Council of the District of Columbia.

(b) The Chief Financial Officer of the District of Columbia shall submit by March 1, **[2006] 2007**, an inventory, as of September 30, **[2005] 2006**, of all vehicles owned, leased or operated by the District of Columbia government. The inventory shall include, but not be limited to, the department to which the vehicle is assigned; the year and make of the vehicle; the acquisition date and cost; the general condition of the vehicle; annual operating and maintenance costs; current mileage; and whether the vehicle is allowed

to be taken home by a District officer or employee and if so, the officer or employee's title and resident location.

SEC. 114. None of the funds contained in this Act may be used for purposes of the annual independent audit of the District of Columbia government for fiscal year [2006] 2007 unless—

(1) the audit is conducted by the Inspector General of the District of Columbia, in coordination with the Chief Financial Officer of the District of Columbia, pursuant to section 208(a)(4) of the District of Columbia Procurement Practices Act of 1985 (D.C. Official Code, section 2–302.8); and

(2) the audit includes as a basic financial statement a comparison of audited actual year-end results with the revenues submitted in the budget document for such year and the appropriations enacted into law for such year using the format, terminology, and classifications contained in the law making the appropriations for the year and its legislative history.

SEC. 115. (a) None of the funds contained in this Act may be used by the District of Columbia Corporation Counsel or any other officer or entity of the District government to provide assistance for any petition drive or civil action which seeks to require Congress to provide for voting representation in Congress for the District of Columbia.

(b) Nothing in this section bars the District of Columbia Corporation Counsel from reviewing or commenting on briefs in private lawsuits, or from consulting with officials of the District government regarding such lawsuits.

SEC. 116. (a) None of the funds contained in this Act may be used for any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug.

(b) Any individual or entity who receives any funds contained in this Act and who carries out any program described in subsection (a) shall account for all funds used for such program separately from any funds contained in this Act.

SEC. 117. None of the funds contained in this Act may be used after the expiration of the 60-day period that begins on the date of the enactment of this Act to pay the salary of any chief financial officer of any office of the District of Columbia government (including any independent agency of the District of Columbia) who has not filed a certification with the Mayor and the Chief Financial Officer of the District of Columbia that the officer understands the duties and restrictions applicable to the officer and the officer's agency as a result of this Act (and the amendments made by this Act), including any duty to prepare a report requested either in the Act or in any of the reports accompanying the Act and the deadline by which each report must be submitted: *Provided*, That the Chief Financial Officer of the District of Columbia shall provide to the Committees on Appropriations of the House of Representatives and Senate by April 1, [2006] 2007 and October 1, [2006] 2007, a summary list showing each report, the due date, and the date submitted to the Committees.

SEC. 118. Nothing in this Act may be construed to prevent the Council or Mayor of the District of Columbia from addressing the issue of the provision of contraceptive coverage by health insurance plans, but it is the intent of Congress that any legislation enacted on such issue should include a "conscience clause" which provides exceptions for religious beliefs and moral convictions.

SEC. 119. The Mayor of the District of Columbia shall submit to the *President*, the Committees on Appropriations of the House of Representatives and Senate, the Committee on Government Reform of the House of Representatives, and the Committee on Governmental Affairs of the Senate quarterly reports addressing—

(1) crime, including the homicide rate, implementation of community policing, the number of police officers on local beats, and the closing down of open-air drug markets;

(2) access to substance and alcohol abuse treatment, including the number of treatment slots, the number of people served, the number of people on waiting lists, and the effectiveness of treatment programs;

(3) management of parolees and pre-trial violent offenders, including the number of halfway houses escapes and steps taken to improve monitoring and supervision of halfway house residents to reduce the number of escapes to be provided in consultation with the Court Services and Offender Supervision Agency for the District of Columbia;

(4) education, including access to special education services and student achievement to be provided in consultation with the District of Columbia Public Schools and the District of Columbia public charter schools;

(5) improvement in basic District services, including rat control and abatement;

(6) application for and management of Federal grants, including the number and type of grants for which the District was eligible but failed to apply and the number and type of grants awarded to the District but for which the District failed to spend the amounts received; and

(7) indicators of child well-being.

SEC. 120. (a) No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer of the District of Columbia shall submit to the *President*, the appropriate committees of Congress, the Mayor, and the Council of the District of Columbia a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, section 1–204.42), for all agencies of the District of Columbia government for fiscal year [2006] 2007 that is in the total amount of the approved appropriation and that realigns all budgeted data for personal services and other-than-personal-services, respectively, with anticipated actual expenditures.

(b) This section shall apply only to an agency where the Chief Financial Officer of the District of Columbia certifies that a reallocation is required to address unanticipated changes in program requirements.

[SEC. 121. Notwithstanding any other law, in fiscal year 2006 and in each subsequent fiscal year, the District of Columbia Courts shall transfer to the general treasury of the District of Columbia all fines levied and collected by the Courts under section 10(b)(1) and (2) of the District of Columbia Traffic Act (D.C. Official Code, section 50–2201.05(b)(1) and (2)): *Provided*, that the transferred funds are hereby made available and shall remain available until expended and shall be used by the Office of the Attorney General of the District of Columbia for enforcement and prosecution of District traffic alcohol laws in accordance with section 10(b)(3) of the District of Columbia Traffic Act (D.C. Official Code, section 50–2201.05(b)(3)).]

SEC. [122] 121. (a) None of the funds contained in this Act may be made available to pay—

(1) the fees of an attorney who represents a party in an action or an attorney who defends an action brought against the District of Columbia Public Schools under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) in excess of \$4,000 for that action; or

(2) the fees of an attorney or firm whom the Chief Financial Officer of the District of Columbia determines to have a pecuniary interest, either through an attorney, officer, or employee of the firm, in any special education diagnostic services, schools, or other special education service providers.

(b) In this section, the term "action" includes an administrative proceeding and any ensuing or related proceedings before a court of competent jurisdiction.

SEC. [123] 122. The Chief Financial Officer of the District of Columbia shall require attorneys in special education cases brought under the Individuals with Disabilities Education Act (IDEA) in the District of Columbia to certify in writing that the attorney or representative rendered any and all services for which they receive awards, including those received under a settlement agreement or as part of an administrative proceeding, under the IDEA from the District of Columbia. As part of the certification, the Chief Financial Officer of the District of Columbia shall require all attorneys in IDEA cases to disclose any financial, corporate, legal, memberships on boards of directors, or other relationships with any special education diagnostic services, schools, or other special education service providers to which the attorneys have referred any clients as part of this certification. The Chief Financial Officer shall prepare and submit quarterly reports to the Committees on Appropriations of the House of Representatives and Senate on the certification of and the amount paid by the government of the District of Columbia, including the District of Columbia Public Schools, to attorneys in cases brought under IDEA. The Inspector General of the District of Columbia may conduct investigations to determine the accuracy of the certifications.

[SEC. 124. The amount appropriated by this Act may be increased by no more than \$42,000,000 from funds identified in the comprehensive annual financial report as the District's fiscal year 2005 unexpended general fund surplus. The District may obligate and expend these amounts only in accordance with the following conditions:

(1) The Chief Financial Officer of the District of Columbia shall certify that the use of any such amounts is not anticipated to

have a negative impact on the District's long-term financial, fiscal, and economic vitality.

(2) The District of Columbia may only use these funds for the following expenditures:

- (A) One-time expenditures.
- (B) Expenditures to avoid deficit spending.
- (C) Debt Reduction.
- (D) Program needs.
- (E) Expenditures to avoid revenue shortfalls.

(3) The amounts shall be obligated and expended in accordance with laws enacted by the Council in support of each such obligation or expenditure.

(4) The amounts may not be used to fund the agencies of the District of Columbia government under court ordered receivership.

(5) The amounts may not be obligated or expended unless the Mayor notifies the Committees on Appropriations of the House of Representatives and Senate not fewer than 30 days in advance of the obligation or expenditure.】

【SEC. 125. (a) The fourth proviso in the item relating to "Federal Payment for School Improvement" in the District of Columbia Appropriations Act, 2005 (Public Law 108-335; 118 Stat. 1327) is amended—

(1) by striking "\$4,000,000" and inserting "\$4,000,000, to remain available until expended,"; and

(2) by striking "\$2,000,000 shall be for a new incentive fund" and inserting "\$2,000,000, to remain available until expended, shall be for a new incentive fund".

(b) The amendments made by subsection (a) shall take effect as if included in the enactment of the District of Columbia Appropriations Act, 2005.】

SEC. 【126】 123. (a) To account for an unanticipated growth of revenue collections, the amount appropriated as District of Columbia Funds pursuant to this Act may be increased—

(1) by an aggregate amount of not more than 25 percent, in the case of amounts proposed to be allocated as "Other-Type Funds" in the Fiscal Year 【2006】 2007 Proposed Budget and Financial Plan submitted to Congress by the District of Columbia [on June 6, 2005]; and

(2) by an aggregate amount of not more than 6 percent, in the case of any other amounts proposed to be allocated in such Proposed Budget and Financial Plan.

(b) The District of Columbia may obligate and expend any increase in the amount of funds authorized under this section only in accordance with the following conditions:

(1) The Chief Financial Officer of the District of Columbia shall certify—

(A) the increase in revenue; and

(B) that the use of the amounts is not anticipated to have a negative impact on the long-term financial, fiscal, or economic health of the District.

(2) The amounts shall be obligated and expended in accordance with laws enacted by the Council of the District of Columbia in support of each such obligation and expenditure, consistent with the requirements of this Act.

(3) The amounts may not be used to fund any agencies of the District government operating under court-ordered receivership.

(4) The amounts may not be obligated or expended unless the Mayor has notified the Committees on Appropriations of the House of Representatives and Senate not fewer than 30 days in advance of the obligation or expenditure.

SEC. 【127】 124. The Chief Financial Officer for the District of Columbia may, for the purpose of cash flow management, conduct short-term borrowing from the emergency reserve fund and from the contingency reserve fund established under section 450A of the District of Columbia Home Rule Act (Public Law 98-198): *Provided*, That the amount borrowed shall not exceed 50 percent of the total amount of funds contained in both the emergency and contingency reserve funds at the time of borrowing; *Provided further*, That the borrowing shall not deplete either fund by more than 50 percent; *Provided further*, That 100 percent of the funds borrowed shall be replenished within 9 months of the time of the borrowing or by the end of the fiscal year, whichever occurs earlier; *Provided further*, That in the event that short-term borrowing has been conducted and the emergency or the contingency funds are later depleted below 50 percent as a result of an emergency or contingency, an amount equal to the amount necessary to restore reserve levels to 50 percent of the total amount of funds contained in both the emergency and

contingency reserve fund must be replenished from the amount borrowed within 60 days.

SEC. 【128】 125. (a) None of the funds contained in this Act may be used to enact or carry out any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 802) or any tetrahydrocannabinols derivative.

(b) The Legalization of Marijuana for Medical Treatment Initiative of 1998, also known as Initiative 59, approved by the electors of the District of Columbia on November 3, 1998, shall not take effect.

SEC. 【129】 126. None of the funds appropriated under this Act shall be expended for any abortion except where the life of the mother would be endangered if the fetus were carried to term or where the pregnancy is the result of an act of rape or incest.

【SEC. 130. Section 7 of the District of Columbia Stadium Act of 1957 (Public Law 85-300, 71 Stat. 619), as amended, is further amended by inserting after paragraph (d)(4) the following:

"(e)(1) Upon receipt of a written description from the District of Columbia of not more than 15 contiguous acres (hereinafter referred to as 'the 15 acres'), within the area designated 'D' on the revised map entitled 'Map to Designate Transfer of Stadium and Lease of Parking Lots to the District' and bound by 21st Street, NE, Oklahoma Avenue, NE, Benning Road, NE, the Metro line, and C Street, NE, and execution of a long-term lease by the Mayor of the District of Columbia that is contingent upon the Secretary's conveyance of the 15 acres and for the purpose consistent with this paragraph, the Secretary shall convey the 15 acres described land to the District of Columbia for the purpose of siting, developing, and operating an educational institution for the public welfare, with first preference given to a pre-collegiate public boarding school.

"(2) Upon conveyance, the portion of the stadium lease that affects the 15 acres on the property and all the conditions associated therewith shall terminate, and the 15 acres property shall be removed from the 'Map to Designate Transfer of Stadium and Lease of Parking Lots to the District', and the long-term lease described in paragraph (1) shall take effect immediately. The Mayor of the District of Columbia shall execute and deliver a quitclaim deed to effectuate the District's responsibilities under this section."】

SEC. 【131】 127. The authority that the Chief Financial Officer of the District of Columbia exercised with respect to personnel and the preparation of fiscal impact statements during a control period (as defined in Public Law 104-8) shall remain in effect until September 30, 【2006】 2007.

SEC. 【132】 128. The entire process used by the Chief Financial Officer to acquire any and all kinds of goods, works and services by any contractual means, including but not limited to purchase, lease or rental, shall be exempt from all of the provisions of the District of Columbia's Procurement Practices Act: *Provided*, That provisions made by this subsection shall take effect as if enacted in D.C. Law 11-259 and shall remain in effect until September 30, 【2006】 2007.

【SEC. 133. Section 4013 of the Uniform Per Student Funding Formula for Public Schools and Public Charter Schools Amendment Act of 2005, passed on first reading on May 10, 2005 (engrossed version of Bill 16-200), is hereby enacted into law.】

【SEC. 134. The Chief Financial Officer of the District is hereby authorized to transfer \$5,000,000 from the local funds appropriated for the Deputy Mayor for Economic Development to the Anacostia Waterfront Corporation and to reallocate the appropriation authority for such funds to a heading to be entitled "Anacostia Waterfront Corporation" in addition, an amount of \$3,200,000 is hereby appropriated from the local funds made available to the Anacostia Waterfront Corporation in fiscal year 2005. *Provided*, That all of the funds made available herein to the Anacostia Waterfront Corporation shall remain available until expended.】

【SEC. 135. Amounts appropriated in the Act for the Department of Health may be increased by \$250,000 in local funds to remain available until expended to conduct a health study in Spring Valley.】

【SEC. 136. Notwithstanding section 602(c)(1) of the District of Columbia Home Rule Act, amendments to the Ballpark Technical Amendments Act of 2005 and the Ballpark Fee Rebate Act of 2005 shall take effect on the date of the enactment by the District of Columbia.】

SEC. 【137】 129. Except as expressly provided otherwise, any reference to "this Act" contained in this division shall be treated as referring only to the provisions of this division. (*District of Columbia Appropriations Act, 2006.*)

The Energy Policy Act of 2005 (P.L. 109–58) authorizes the Federal Energy Regulatory Commission to certify an Electric Reliability Organization (ERO) to establish and enforce reliability standards for the electric bulk-power system. These standards include requirements for operating existing bulk-power system facilities, including cybersecurity protection, and design of planned additions or modifications to these facilities to provide for reliable operation, but does not include requirements to construct new transmission or generation capacity. When certified, the ERO will be funded by fees on end users of the bulk-power system. The Budget assumes the ERO will be certified by 2007. Since it is anticipated that the ERO will not report budget data to Treasury, ERO funding is based on estimates.

The Equal Employment Opportunity Commission (EEOC) is the Federal agency responsible for enforcement of: the Age Discrimination in Employment Act of 1967; title VII of the Civil Rights Act of 1964, as amended; the Equal Pay Act of 1963; in the Federal sector only, section 501 of the Rehabilitation Act of 1963; the Americans with Disabilities Act of 1990; and the Civil Rights Act of 1991. These acts prohibit employment discrimination based on race, sex, religion, national origin, age, or disability status. EEOC is also responsible for carrying out Executive Order 12067, which promotes coordination and minimizes conflict and duplication among Federal agencies that administer statutes or regulations involving employment discrimination.

TOTAL WORKLOAD

	2005 actual	2006 est.	2007 est.
Private sector enforcement	110,914	114,663	120,924
Federal sector program			
Appeals	11,124	11,325	12,041
Hearings	16,117	15,860	15,184
Total workload	138,155	141,848	148,149

Note.—For the Private Sector Program, total workload estimates reflect the carryover from prior years as well as new charge receipts and deferrals from State and local agencies. The estimates of total workload in the Federal Sector Program reflect the carryover from prior years in addition to new hearings or appeal requests that EEOC receives during the year.

In support of the President’s Management Agenda, the 2007 Budget for EEOC aligns the agency’s staffing and funding request with the two mission-related Strategic Objectives in its Strategic Plan—*Justice and Opportunity and Inclusive Workplace*. Allocations are further distributed among the agency’s programs, incorporating elements of the EEOC’s “Five-Point Plan.” Also incorporated within the two Strategic Objectives are staffing and resource allocations contributing toward achieving Strategic Objective 3, *Organizational Excellence*. All of EEOC’s efforts to become a more proficient and effective organization are designed to support its mission-related work. In addition, EEOC will continue to implement the President’s management reforms by streamlining decision layers and making the agency more accessible and responsive to citizens’ needs.

EEOC’s enforcement responsibilities are predominately in two areas—the private sector and the Federal sector under Strategic Objective 1—*Justice and Opportunity*. The State and Local Program is accounted separately under this objective, within the private sector area.

Private sector: In the private sector, EEOC addresses equal employment opportunity in several ways. The agency investigates charges alleging employment discrimination; makes findings on the allegations; resolves charges through mediation, negotiated settlement or conciliation; and litigates cases

of employment discrimination by enforcing compliance with Title VII, the Equal Pay Act, the Age Discrimination in Employment Act, the Americans with Disabilities Act, and the Civil Rights Act of 1991. The agency engages in proactive efforts to prevent or remove discriminatory barriers to employment opportunities, and it conducts outreach events and provides education and technical assistance to individuals, employers and stakeholder groups.

Charges/complaints deferred to EEOC	4,919	4,919	4,919
Charges/complaints forwarded	54,287	50,766	47,245

EEOC's outreach, education and technical assistance activities are under Strategic Objective 2—*Inclusive Workplace*. Staff from most of the agency's programs are involved in these efforts, and many activities are done in partnership with State and local program FEPAs. In addition, EEOC's Revolving Fund, which accompanies this account in the budget, supports these activities.

Outreach, education, and technical assistance: This program is intended to encourage and facilitate voluntary compliance with the anti-discrimination laws by employers and employer groups in the private and Federal sectors, and to increase knowledge about individual rights under the anti-discrimina-

tion laws among employers, employee groups and the public. To support the President's New Freedom Initiative, the budget also provides funding for a review of States' strategies for removing employment barriers faced by people with disabilities.

The purpose of the Export-Import Bank (Ex-Im Bank) is to aid in the financing and promotion of U.S. exports. To accomplish its objectives, the bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet officially sponsored foreign export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The bank provides its export credit support through direct loan, loan guarantee and insurance programs. The bank is actively assisting small- and medium-sized businesses.

The 2007 Budget estimates that the Bank's export credit support will total \$17.5 billion, and will be funded by a requested \$26.4 million of new budget authority in addition to amounts carried over from prior years. The 2007 budget also proposes \$75.2 million for administrative expenses, of which \$10.7 million are budgeted for technology expenses.

As required by the Federal Credit Reform Act of 1990, this account records, for Ex-Im Bank, the subsidy costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The subsidy amounts are estimated on a present value basis; administrative expenses are estimated on a cash basis.

Operating results and financial condition.—The bank is a wholly owned Government corporation. Capital stock of \$1 billion was purchased by the U.S. Treasury.

The bank has a reserve for possible credit losses, which provides for the risk of loss inherent in the lending process. This reserve is a general reserve, available to absorb credit losses related to the total loan portfolio. The reserve is increased by provisions charged to expenses and decreased by charge-offs, net of recoveries.

The provision for possible credit losses is based on the bank's evaluation of the adequacy of the reserve, taking into consideration a variety of factors, including repayment status of loans, future risk factors, the relationship of the reserve to the portfolio, and worldwide economic conditions. Providing for such possible losses does not imply that any loans will be written off. It simply recognizes the fact that the prospects for collection of some of the bank's loans are impaired. It does not provide for losses on a country-by-country basis and is intended only to provide an overall revaluation of the loan portfolio.

The bank's net income was \$2,681 million in 2005. Total Government deficit in the corporation was \$3,472 million on September 30, 2005.

As required by the Federal Credit Reform Act of 1990, this account records, for Ex-Im Bank, all cash flows to and from the Government resulting from direct loans obligated and loan guarantees and insurance committed prior to 1992. This account is shown on a cash basis. All new activity in this program in 1992 and beyond is recorded in corresponding program and financing accounts.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System (System) for safety and soundness. The System is a cooperative agricultural credit system of farm credit banks and associations that lends to farmers, ranchers, and their cooperatives; farm related business; and rural homeowners. Since 1990, the FCA also performs annual examinations of the Federal Agricultural Mortgage Corporation. In addition, FCA annually examines The National Consumer Cooperative Bank.

As of October 1, 2005, the System was composed of four Farm Credit Banks, one Agricultural Credit Bank, 96 associations, five service corporations, the Federal Farm Credit Banks Funding Corporation, the Farm Credit System Financial Assistance Corporation, and the Federal Agricultural Mortgage Corporation.

Assessments based upon estimated administrative expenses are collected from institutions in the System, including the Federal Agricultural Mortgage Corporation, and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the Farm Credit Administration Board.

The Farm Credit System Financial Assistance Corporation (FAC) was created by the Agricultural Credit Act of 1987 to provide funds to System institutions experiencing financial difficulties. Authority for FAC to issue obligations and provide assistance expired in 1992, after \$1.26 billion in FAC debt had been issued. Proceeds of FAC debt issuances were paid into, and amounts for assistance and other expenses were paid from, the FAC Assistance Fund. The FAC was re-classified from a Government-sponsored enterprise to a Federal entity beginning in 1993, when most of the private capital in FAC, provided by the System, was rebated from the FAC Trust Fund pursuant to the Reconciliation and Agriculture Appropriations Acts of 1989. Under law, the FAC will terminate upon complete discharge of its statutory responsibilities, or in no event later than 2 years following the maturity and full payment of its debt obligations. On June 10, 2005, the FAC repaid its remaining debt obligations of \$325 million and also repaid all interest advanced by the U.S. Treasury (\$440 million). In December 2005, the FAC board formally requested FCA cancel its charter. Though this step is not required by the Act, FCA intends to do so by year-end 2005.

The Farm Credit System Insurance Corporation (Corporation) was established to ensure the timely payment of prin-

cipal and interest on System debt obligations purchased by investors. The Corporation is managed by a three member Board of Directors that consists of the same members as the Farm Credit Administration Board of Directors. The Corporation derives its revenues from insurance premiums collected from insured System banks and from the investment income earned on its investment portfolio. Insurance premiums are assessed on System banks based on the level of accruing and non-accruing loans outstanding in each bank and its affiliated associations' loan portfolio. Congress established a secure base amount of 2 percent of outstanding System obligations, or such other amounts determined by its Board of Directors to be actuarially sound to maintain the Insurance Fund. The Insurance Fund was slightly below the secure base amount at September 30, 2005 at 1.87%. For 2005, the Corporation is assessing insurance premiums at 5 basis points on accrual loans and 25 basis points on non-accrual loans. In January 2006, the Corporation's Board will determine insurance premium rates for 2006.

The Insurance Fund is available for payment on System obligations if an insured System bank defaults on its primary liability. The Insurance Fund is also available to ensure the timely retirement of certain eligible borrower stock, pay the operating costs of the Corporation. The Corporation can exercise its authority to make loans, purchase System bank assets or obligations, provide other financial assistance and otherwise act to reduce its exposure to losses.

The Corporation has the authority to make refunds of excess Insurance Fund balances. No refunds are anticipated in 2006.

Under the Telecommunications Act of 1996, telecommunications carriers that provide interstate and international telecommunications services are required to contribute funds for the preservation and advancement of universal service. The contributions generally provided, in turn, by each carrier's subscribers, are used to provide services eligible for universal service support as prescribed by the FCC. Eligible telecommunications carriers receive support from the universal service funds if they (1) provide service to high cost areas,

(2) provide eligible services at a discount rate to schools, libraries or rural health care providers, or (3) provide subsidized service or subsidized telephone installation to low income consumers. Interest income on these funds is utilized to offset carrier contributions. Administrative costs of the program are provided from carrier contributions.

Public Law 109-108 temporarily suspended the application of the Antideficiency Act to the Federal universal service fund programs authorized under section 254 of the Communications Act of 1934, through December 31, 2006. The Antideficiency Act requires that funds be available before incurring an obligation on behalf of the Federal Government.

The Program Assessment Rating Tool analyses conducted in 2005 revealed that the High Cost and E-Rate universal service support mechanisms lacked adequate performance measures. The FCC is examining program policies, performance measures, and administrative effectiveness in order to ensure that the programs use resources efficiently and provide meaningful results.

This program provided direct loans for the purpose of purchasing spectrum licenses at the Federal Communications Commission's auctions. The licenses were purchased on an installment basis, which constitutes an extension of credit. The first year of activity for this program was 1996.

SPECTRUM AUCTION PROGRAM ACCOUNT—Continued

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and administrative expenses are estimated on a cash basis. The FCC no longer offers credit terms on purchases through spectrum auctions. Program activity relates to maintenance and close-out of existing loans.

SPECTRUM LICENSE USER FEE

(Legislative proposal, subject to PAYGO)

To continue to promote efficient spectrum use, the Administration will propose legislation providing the FCC with new authority to use other economic mechanisms, such as fees, as a spectrum management tool. The FCC would be authorized to set user fees on unauctioned spectrum licenses based on public-interest and spectrum-management principles. Fees would be phased in over time as part of an ongoing rule-making process to determine the appropriate application of and level for fees. Fee collections are estimated to begin in 2007.

SPECTRUM AUCTION AUTHORITY

(Legislative proposal, subject to PAYGO)

The Administration proposes to extend indefinitely the FCC's authority to auction spectrum licenses, which was slated to expire in 2007, but is extended through 2011 in the Deficit Reduction Act of 2005.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation (FDIC) was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices.

The Financial Institutions Reform Recovery and Enforcement Act of 1989 established the Bank Insurance Fund (BIF), the Savings Association Insurance Fund (SAIF), and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund (FRF). Under the Deficit Reduction Act of 2005, which the Budget assumes will be enacted before publication, the BIF and SAIF will be merged into a new Deposit Insurance Fund (DIF). Individual deposits are currently insured up to \$100,000. Under the Deficit Reduction Act, the deposit insurance ceiling will be changed for various accounts, including an increase in coverage for retirement accounts of up to \$250,000 and authorization, beginning in 2010, and every five years thereafter, for FDIC to increase deposit insurance coverage limits for non-retirement accounts based on inflation if the Board determines prudent.

The Federal Deposit Insurance Corporation Improvement Act of 1991 generally requires FDIC to use the least costly method to resolve failed banks, and mandates that FDIC take prompt corrective action against under-capitalized financial institutions. In order to accomplish its varied functions to protect depositors, FDIC is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as an insurer.

tions including managing and disposing of their assets and (3) recover assets from failed institutions. FDIC, acting on behalf of BIF, examines state-chartered banks that are not members of the Federal Reserve System. As of September 30, 2005, BIF's fund balance totaled \$35.3 billion and the reserve ratio of the fund was 1.25 percent.

The BIF is primarily funded from (1) interest earned on investments in U.S. Treasury obligations and (2) deposit insurance assessments. If necessary, additional sources of funding include: the authority to borrow from the Federal Financing Bank on behalf of BIF and SAIF, and the authority to borrow up to \$30 billion from the U.S. Treasury for insurance purposes.

The functions of the BIF will be taken over by the new DIF.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) was enacted to reform, recapitalize, and consolidate the Federal Deposit Insurance System. The FIRREA created the SAIF as an insurance fund responsible for protecting the insured thrift depositors from loss due to institution failures. Pursuant to FIRREA, an active institution's fund membership and primary Federal supervisor are generally determined by the institution's charter type. Deposits of SAIF-member institutions are generally insured by the SAIF; SAIF members are predominately thrifts supervised by the Office of Thrift Supervision.

As of September 30, 2005, SAIF's fund balance totaled \$13.0 billion and the reserve ratio of the fund was 1.30 percent.

The functions of the SAIF will be taken over by the new DIF.

The primary purpose of the Deposit Insurance Fund (DIF) is to insure deposits and protect the depositors of failed institutions, including those previously insured by the BIF and the SAIF. Through the DIF, the FDIC will resolve and recover assets from failed institutions. The FDIC is authorized to charge risk-based premiums on member institutions to man-

age fund reserves, which must be a designated percent of total insured deposits—the reserve ratio—as set by the FDIC at the beginning of each year. The reserve ratio must be between 1.15 and 1.50 percent of estimated insured deposits. If the ratio is higher than 1.50 percent, the FDIC must return the amount in the fund in excess of that which is needed to maintain the 1.50 percent ratio to DIF institutions based on each institution's previously-paid premiums and other factors. If the ratio is between 1.35 and 1.50 percent, the FDIC must rebate half of the amount in the fund in excess of that which is needed to maintain the 1.35 percent ratio. If the ratio is projected to fall below 1.15 percent, the FDIC must develop a five-year restoration plan to ensure the ratio is at or above the minimum ratio level. FDIC is also required to provide a one-time credit to certain institutions that paid premiums prior to 1997.

The FSLIC Resolution Fund (FRF) is the successor to FSLIC assets and liabilities from thrift resolutions prior to August 1989. Beginning in August 1989, the RTC assumed responsibility for the FSLIC's unresolved cases. On December 31, 1995, the RTC was terminated and its assets and liabilities were transferred to FRF.

Funds for FRF operations have come from: income earned on its assets; liquidation proceeds from receiverships; the proceeds of the sale of bonds by the Financing Corporation; and, a portion of insurance premiums paid by SAIF members prior to 1993. The Financial Institutions Reform, Recovery, and Enforcement Act authorizes appropriations to make up for any shortfall. The FRF will terminate upon the disposition of all its assets, and any net proceeds will be paid to the Treasury. Net proceeds from the former RTC will be paid to the Resolution Funding Corporation.

FDIC's Office of Inspector General (OIG) is an independent unit within FDIC that conducts audits and investigations of corporate activities and assists FDIC in preventing and detecting fraud, waste, abuse, and mismanagement. The OIG was established by the FDIC Board of Directors pursuant to the Inspector General Act amendments of 1988 (Public Law 100-504). The Resolution Trust Corporation Completion Act, enacted December 17, 1993, provided that the FDIC Inspector General be appointed by the President and confirmed by the Senate. The Completion Act, thus, added FDIC to the establishments whose OIGs have separate appropriation accounts under Section 1105(a) of Title 31, United States Code. The OIG's appropriations are derived from the BIF, the SAIF, and the FRF. However, once the BIF and the SAIF are merged, the OIG's funding will be derived from the DIF and the FRF instead.

Note.—Excludes \$100 million in budget authority in 2006 for activities transferred to the Department of Justice.

The HIDTA program was established by the Anti-Drug Abuse Act of 1988, as amended, and the Office of National Drug Control Policy's reauthorization, P.L. 105-277, to provide assistance to Federal, State and local law enforcement entities operating in those areas most adversely affected by drug trafficking. For FY 2007, the Budget proposes transferring the High-Intensity Drug Trafficking Area (HIDTA) Program, operated by the Office of National Drug Control Policy, to the Department of Justice in order to improve coordination with the Organized Crime Drug Enforcement Task Force (OCDETF) and the Department's other drug enforcement efforts.

The program originally was intended to focus resources on a limited number of regions experiencing the most serious problems with organized drug trafficking. It now spends \$225 million on 28 areas that include much of the populated United States. Efforts to focus the HIDTAs on the President's National Drug Control Strategy priority of targeting high-level organizations such as those on the Consolidated Priority Organization Target (CPOT) List have been hindered by the practice of funding individual HIDTAs at the same level year after year. As a result, the Budget proposes a HIDTA Program that will focus funds on regions that are primary national drug distribution or transit zones. The Budget provides this new, better focused HIDTA program with funding of \$208 million.

The Anti-Drug Abuse Act of 1988, as amended, and the Office of National Drug Control Policy's reauthorization, P.L. 105-277, established this account to be administered by the Director of the Office of National Drug Control Policy (ONDCP). The funds appropriated to the program support high-priority drug control programs and may be transferred to drug control agencies.

For 2007, funds appropriated to this account, will be used for the following activities:

National Youth Anti-Drug Media Campaign.—The National Youth Anti-Drug Media Campaign is an integrated advertising and communications campaign using paid media messages (print and broadcast) targeted to youth, their parents, and other influential adults, to change youth attitudes about drug use and its consequences.

Drug-Free Communities Program.—The Drug Free Communities (DFC) Support Program provides small grants (no more than \$100,000 per year) to established local community anti-drug coalitions. The grants are awarded competitively to coalitions that provide funds for organizing multiple sectors of a community as a means for reducing and/or preventing substance abuse.

National Drug Court Institute.—The National Drug Court Institute facilitates the growth of the drug court movement by: promoting and disseminating education, research and scholarship concerning drug court programs and providing a comprehensive drug court training series for practitioners.

United States Anti-Doping Agency.—This funding continues the effort to educate athletes on the dangers of drug use and to eliminate illegal drug use in Olympic sports.

World Anti-Doping Agency Dues.—ONDCP is a full participant in the World Anti-Doping Agency which promotes and coordinates international activities against doping in sport, in all its forms, and as such, is responsible for the associated dues.

National Drug Control Performance Measures.—This funding is provided to conduct evaluation research to assess the effectiveness of the National Drug Control Strategy.

Pursuant to the Office of National Drug Control Policy Reauthorization Act of 1998 (title VII of Division C of Public Law 105-277), the Counterdrug Technology Assessment Center serves as the central counterdrug research and development organization for the United States Government.

The Center operates two programs—a Research and Development program (R&D) and a Technology Transfer program (TTP):

- The R&D program identifies law enforcement’s scientific and technological needs, coordinates Federal counterdrug R&D initiatives, and supports improvements to counterdrug capabilities that transcend the need of any single Federal agency.
- The TTP provides state-of-the-art, affordable, easily integrated and maintainable tools to enhance the capabilities of State and local law enforcement agencies for counterdrug missions. The goals of the TTP are to maximize the delivery of hand-held drug detection devices and appropriate training to State and local law enforcement agencies in smaller jurisdictions (less than 500,000) and to provide case building investigative tools to law enforce-

ment agencies serving larger jurisdictions (500,000 and greater). Beginning in 2007, all funding will support research projects.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (Public Law 101-73) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council. Subsequent legislation (Public Law 101-235) authorized the Secretary of the Department of Housing and Urban Development to designate a member of the Appraisal Subcommittee.

The Subcommittee is charged with ensuring that real estate appraisals used in federally-related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the States. Its responsibilities include: (1) monitoring the requirements established by the States for the certification and licensing of appraisers; (2) monitoring the requirements established by the Federal financial institutions' regulatory agencies regarding appraisal standards; (3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; and, (4) maintaining a national registry of licensed and certified appraisers.

Subcommittee activities, including grants awarded to the Appraisal Foundation, were initially funded from a one-time appropriation of \$5 million. These funds were repaid to Treasury at the end of 1998 in accordance with the Economic Growth and Regulatory Paperwork Reduction Act of 1996. The Subcommittee is now operating on fee income from State-licensed and certified real estate appraisers in the national registry.

The Budget proposes a new strengthened regulator for the housing Government-sponsored enterprises (GSEs) to promote a strong, resilient financial system and increased opportunities for affordable homeownership. (See the Credit and Insurance chapter in the Analytical Perspectives volume of the Budget document for more discussion.)

Upon enactment of this proposal, it is expected that all resources available to the Office of Federal Housing Enterprise Oversight of the Department of Housing and Urban Development and the Federal Housing Finance Board would be transferred to the Federal Housing Enterprise Regulator.

The Administration supports direct funding of these activities with mandatory assessments on the housing GSEs, at a level that will be developed by the Federal Housing Enterprise Regulator upon its creation. The resource level presented here is an estimate based on the estimated activities of the Office of Federal Housing Enterprise Oversight and the Federal Housing Finance Board for 2007.

The Federal Housing Finance Board (Finance Board) is the safety and soundness regulator for the Federal Home Loan Bank System, a Government-sponsored enterprise (GSE). The Finance Board was established by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 which amended the Federal Home Loan Bank Act. The duties of the Finance Board are: (1) to ensure that the twelve Federal Home Loan Banks (Banks) operate in a safe and sound manner; (2) to supervise the Banks; (3) to ensure that the Banks carry out their housing finance mission; and, (4) to ensure the Banks remain adequately capitalized and able to raise funds in the capital markets. The Finance Board succeeded the former Federal Home Loan Bank Board with respect to the Banks. The Finance Board funds its activities through mandatory assessments on the Federal Home Loan Banks.

The Budget proposes a new strengthened housing GSE regulator as an independent agency. All Finance Board resources would be transferred to it. The Administration supports continued direct funding of these activities with mandatory assessments on the Federal Home Loan Banks.

The Federal Labor Relations Authority (FLRA) is an independent administrative Federal agency created by Title VII

of the Civil Service Reform Act of 1978 (the Statute) with a mission to carry out five statutory responsibilities: (1) determining the appropriateness of units for Labor organization representation; (2) resolving complaints of unfair labor practices; (3) adjudicating exceptions to arbitrator's awards; (4) adjudicating legal issues relating to duty to bargain; and (5) resolving impasses during negotiations. All work throughout the agency is undertaken to support a single program—to administer and enforce the Statute by determining the respective rights of employees, agencies, and labor organizations in their relations with one another.

The FLRA's authority is divided by law and by delegation among a three-member Authority and an Office of General Counsel, appointed by the President and subject to Senate confirmation; and the Federal Service Impasses Panel, which consists of seven part-time members appointed by the President.

The FLRA does not initiate cases. Proceedings before the FLRA originate from filings arising through the actions of Federal employees, Federal agencies, or Federal labor organizations. Nationwide, the FLRA includes seven Regional Offices, two satellite offices, and a Headquarters site in Washington, D.C. The FLRA regional workload declined 32% between 2001 and 2004. Department of Defense and Department of Homeland Security personnel system reforms may increase this trend.

Authority.—The Authority adjudicates appeals filed by either a Federal agency or Federal labor organization on negotiability issues; exceptions to arbitration awards; appropriate units for the purposes of exclusive recognition; eligibility of labor organizations for national consultation rights; and unfair labor practice complaints.

Office of the General Counsel.—The General Counsel investigates allegations of unfair labor practices and processes all representation petitions received. In addition, the General Counsel conducts elections concerning the exclusive recognition of labor organizations and certifies the results of elections.

Federal Service Impasses Panel.—The Panel resolves labor negotiation impasses between Federal agencies and labor organizations.

The Federal Maritime Commission (the Commission) regulates the international waterborne commerce of the United States. In addition, the Commission has responsibility for: licensing and bonding ocean transportation intermediaries and assuring that vessel owners or operators establish financial responsibility to pay judgments for death or injury to passengers, or nonperformance of a cruise, on voyages from U.S. ports. Major program areas for 2007 are: carrying out investigations of foreign trade practices under the Foreign Shipping Practices Act; maintaining equitable trading conditions in U.S. ocean commerce; facilitating compliance with applicable shipping statutes through outreach and oversight; assisting in the resolution of disputes; and, reviewing ocean carrier operational and pricing agreements to guard against excessively anticompetitive effects.

The Federal Mediation and Conciliation Service (FMCS or the Service) provides assistance to parties in labor disputes in industries affecting commerce through conciliation and mediation.

Dispute mediation.—The Service assists labor and management in the mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment to the national defense. The Service also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. The Service provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments closed in both the private and public sectors.

Preventive mediation, public information, and educational activities.—Through its preventive mediation program, the Service initiates and develops labor-management committees, training programs, conferences, and specialized workshops dealing with issues in collective bargaining. Mediators also participate in education, advocacy and outreach (EAO) activities such as lectures, seminars, and conferences.

Arbitration services.—The Service assists parties in disputes by utilizing the arbitration process for the resolution of disputes arising under or in the negotiation of collective bargaining agreements in the private and public sectors.

Management and administrative support.—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

Labor-management cooperation project.—The Labor Management Cooperation Act of 1978 (29 U.S.C. 175a) authorizes

the Service to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees. The 2007 Budget eliminates funding for these grants, and focuses FMCS on its core activities of mediation and conciliation.

Alternative Dispute Resolution (ADR) Projects.—The Service assists other Federal agencies by providing mediation and technical assistance in the area of ADR. The ADR cases reduce litigation costs and speed Federal processes. The FMCS is funded for this work through interagency reimbursable agreements.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. Program administration for the Fund is financed from the Fund. Program expenses are derived first from Fund forfeitures of agency one percent automatic contributions for employees who separate from the Federal Government prior to vesting and then from earnings on all participant and agency contributions to the Fund.

The Thrift Savings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Fund, it is not included in the totals of the Federal budget. Information on the financial status and activities of the Fund follows this account.

INFORMATION SCHEDULES FOR THE THRIFT SAVINGS FUND

The Fund is composed of individual accounts maintained by the Federal Retirement Thrift Investment Board on behalf

of the individual Federal employee participants in the Fund. All Federal civilian employees and members of the uniformed services are eligible to contribute to the Fund. However, only those civilian employees covered by the Federal Employees' Retirement System (or equivalent retirement systems) and a limited category of uniformed services personnel may have their contributions matched by the employing agencies in accordance with the formulas prescribed by law. Employees are entitled to select how contributions are distributed among five investment funds: a U.S. Government securities investment fund; a fixed income index investment fund; a common stock index investment fund; a small capitalization stock index investment fund; and an international stock index investment fund. A series of five lifecycle funds was introduced in August 2005. These funds are composed of varying allocations of the five core investment funds. The allocations are based on the target maturity date of each fund.

Employee participation in the Fund is entirely voluntary, so actual results could vary significantly from these estimates. The estimated status of the Fund is shown below:

The Federal Trade Commission (the Commission or FTC) seeks to protect consumers and enhance competition by eliminating unfair or deceptive acts or practices in the marketing of goods and services and by ensuring that consumer markets function competitively. The FTC's work is based on the belief that competition among producers, and accurate information in the hands of consumers, bring the best products and lowest prices to the marketplace, spur innovation, and strengthen the economy.

Consumer protection.—The Commission is charged with eliminating unfair or deceptive acts or practices affecting commerce. The goal of the consumer protection mission is to prevent fraud, deception, and unfair business practices in the marketplace. The mission works to accomplish this goal through three objectives: (1) identify fraud, deception, and unfair practices that cause the greatest consumer injury; (2) stop fraud, deception, and unfair practices through law enforcement; and (3) prevent consumer injury through education.

Maintaining competition.—The Commission's efforts are aimed at fostering and preserving our competitive market. The goal of the maintaining competition mission is to prevent anticompetitive mergers and other anticompetitive business practices in the marketplace. The mission works to accomplish this goal through three objectives: (1) identify anticompetitive mergers and practices that cause the greatest consumer injury; (2) stop anticompetitive mergers and practices through law enforcement; and (3) prevent consumer injury through education.

The President's 2007 Budget includes a program level for the Commission of \$223 million in 2007, allowing the Commission to maintain the current performance of its missions. The 2007 requested program level will be fully funded by \$85 million from the General Fund of the U.S. Treasury and offsetting collections from two sources: \$120 million from fees for Hart-Scott-Rodino Act premerger notification filings as authorized by 15 U.S.C. 18a and \$18 million from fees sufficient to implement and enforce the Telemarketing Sales Rule, promulgated under the Telephone Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6101 et seq., as amended).

Public Law 93-642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal memorial to the 33rd President of the United States. The Foundation awards scholarships for up to four years to qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector.

In its annual competition, the Foundation selects up to 75 new Truman Scholars. The maximum award is \$30,000 toward a graduate level degree program.

Scholarship awards.—This activity is comprised of scholarships awarded to cover eligible educational expenses.

Program administration.—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

The Intelligence Community Management Account (ICMA) was established by Congressional direction to provide resources that directly support the Director of National Intelligence (DNI) and the Intelligence Community as a whole in coordinating cross-program activities, improving budget oversight, and strengthening Community Management. The ICMA includes the Community Management Staff, the National Intelligence Council, the Center for Security Evaluations, the Advanced Research and Development program, the National Counterintelligence Executive, and the National Drug Intelligence Center.

The Community Management Staff is the DNI's principal source of advice and assistance in planning and executing his intelligence community management responsibilities. These include: developing the National Intelligence Program budget; developing intelligence plans and requirements; and overseeing research and development activities. The Advanced Research and Development program is responsible for coordination of advanced technology within the Intelligence Community and for encouragement of investment in high risk/high return technologies. The National Intelligence Council provides analytical support to the DNI and national policy makers. The Center for Security Evaluation is responsible for evaluating and improving security capabilities at United States embassies. The National Counterintelligence Executive was established as the primary mechanism to coordinate U.S. Government national-level counterintelligence policy and activities.

The U.S. International Trade Commission is an independent, quasi-judicial Federal agency established by Congress with a wide range of trade-related mandates. The mission of the Commission is twofold: administer U.S. trade remedy laws in a fair and objective manner; and provide the President, the United States Trade Representative, and the Congress with independent, quality advice and information on matters of international trade and competitiveness.

For 2007, the Commission requests an appropriation of \$64.2 million in order to fund existing mandated investigative activity and related operations, a mandatory pay increase, and information technology projects that are designed to improve electronic transaction capability, provide broader public access to public data and other information, develop more timely and accurate trade information for the trade community, and improve transparency in the Commission's procedures and finances. The 2007 request represents a 2.3 percent increase over its 2006 funding availability.

In 2003, the Commission issued the latest edition of its Strategic Plan and is currently implementing the 2006 Performance Plan. For the purpose of developing the Strategic Plan, the Commission's functions were divided into five operations and, in order to facilitate the linkage of financial resources to the achievement of strategic goals, the budget justification is structured in the same manner. There are 11 strategies for the five operations. In FY 2005 the Commission met or exceeded most of the performance goals.

As presented in the Commission's Strategic Plan, there are five major operations that serve the Commission's external customers:

- *Import Injury Investigations:* These cover the conduct of the Commission's countervailing duty, antidumping, and sunset review investigations (collectively known as Title VII investigations), safeguards and market disruption investigations, and appellate litigation of challenges to the Commission's determinations.

- *Intellectual Property-Based Import Investigations:* These cover the conduct of the Commission's adjudicatory investigations (referred to as section 337 investigations) regarding alleged unfair methods of competition and unfair acts in the importation of goods into the United States and most frequently involve allegations of patent or trademark infringement.

- *Industry and Economic Analysis:* This covers all activities related to the acquisition, maintenance, and application of analytical and technical trade expertise. This expertise is applied through studies regarding the performance and global competitiveness of various U.S. industries, the impact of changes in trade policy on the overall economy or subsets thereof, trade and competitiveness issues, and the probable economic effect of tariff reductions and trade agreements.

- *Trade Information Services:* This covers a wide range of activities that provide Commission staff, the Congress, the Executive Branch, and the general public with reliable and timely trade information and analysis.

- *Trade Policy Support:* This covers direct support activities for policy makers such as the provision of technical expertise and objective information on trade issues to congressional committees and members' offices, the United States Trade Representative, interagency committees, and U.S. delegations to multilateral organizations.

All of these operations define the output of the Commission, emphasizing the benefits that the Commission provides in facilitating an open trading system based on the rule of law and economic self-interest. Within each operation, specific critical success indicators and strategic goals are identified. The Commission's Strategic Plan, Performance Accountability Report, and Budget Justification are available at <http://www.usitc.gov>.

Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are transmitted to Congress without revision by the President.

Public Laws 99-500, 101-208, and 102-221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and 1989 established the foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and social studies. College seniors and recent college graduates who want to become secondary school teachers of these subjects are also eligible.

Fellowship awards.—This activity is comprised of fellowship awards to cover educational expenses. It also supports the foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational experience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights.

Program administration.—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

Established by the Civil Service Reform Act of 1978, the Board serves as guardian of the Federal Government's merit-based system of employment, principally by hearing and deciding appeals from Federal employees of removals and other major personnel actions. The Board also hears and decides other types of civil service cases, reviews regulations of the Office of Personnel Management, and conducts studies of the merit systems. The intended results (outcomes) of MSPB's efforts are to assure that (1) personnel actions taken involving employees are processed within the law, and (2) actions taken by OPM and other agencies support and enhance Federal merit principles.

The number of decisions issued by the Board is shown in the following table:

The Morris K. Udall Fund is invested in Treasury securities with maturities suitable to the needs of the Fund. Interest earnings from the investments are used to carry out the activities of the Morris K. Udall Foundation. The Foundation awards scholarships, fellowships and grants, and funds activities of the Udall Center.

In 2000, Public Law 106-568 authorized the Morris K. Udall Foundation to establish training programs for professionals in health care policy and public policy, such as the Native Nations Institute (NNI). NNI, based at the University of Arizona, will provide Native Americans with leadership and management training and analyze policies relevant to tribes.

The U.S. Institute for Environmental Conflict Resolution is a Federal program established by P.L. 105-156 to assist parties in resolving environmental, natural resource, and public lands conflicts. The Institute is part of the Morris K. Udall Foundation, and serves as an impartial, non-partisan institution providing professional expertise, services, and resources to all parties involved in such disputes. The Institute helps parties determine whether collaborative problem solving is appropriate for specific environmental conflicts, how and when to bring all the parties to the table, and whether a third-party facilitator or mediator might be helpful in assisting the parties in their efforts to reach consensus or to resolve the conflict. In addition, the Institute maintains a roster of qualified facilitators and mediators with substantial experience in environmental conflict resolution, and can help parties in selecting an appropriate neutral. (See www.ecr.gov for more information about the Institute.)

Public Law 102-259 established the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation to provide educational resources to promote studies in the natural environment and Native American public health and tribal policy.

In 2005, the Foundation awarded 80 undergraduate scholarships. Twelve Native American Congressional Summer Internship Program recipients spent ten weeks in Congressional offices and the White House participating in a program created by the Udall Foundation.

In 2006 and 2007, the Foundation will maintain its current level of scholarships and internships.

The National Archives and Records Administration (NARA) manages the Government's archives and records, and operates Presidential Libraries.

Records services.—This program provides for selecting, preserving, describing, and making available to the public, scholars, and Federal agencies the permanently valuable historical records of the Federal Government and the historical materials and Presidential records in Presidential Libraries; for preparing related publications and exhibit programs; and for conducting the appraisal of all Federal records. This program also funds a records declassification program and the Information Security Oversight Office, established by Executive Orders 12829, 12958, and 13142.

Archives related services.—This activity provides for the publication of the *Federal Register*, the *Code of Federal Regulations*, the *U.S. Statutes-at-Large*, and Presidential documents, and for a program to improve the public's access to regulations.

Archives II facility.—Construction costs of the Archives II facility are financed by \$302 million of federally guaranteed debt issued in 1989. Since 1994 and continuing in 2007, the Archives seeks appropriations for the annual payments for interest and redemption of debt to be made under the contract for construction and related services.

NARA's Records Services program received an "Adequate" PART performance rating. NARA has continued to refine performance measures related to records management and to better engage Federal agencies on best records management practices.

NARA is building an Electronic Records Archives (ERA) that will both transition NARA into electronic management of all government records and ensure the preservation of and

access to Government electronic records. Rapid obsolescence of the digital formats in which electronic records are created threatens to make them inaccessible within a few years even if they are preserved intact. As NARA's strategic response to meeting these challenges, ERA will preserve electronic records in a manner that enables requesters to access them on computer systems now and in the future. The ERA system will also, for the first time, automate basic functions in the lifecycle management of Federal records, including records scheduling and appraisal, and transfer of both electronic and non-electronic records to the National Archives, Presidential Libraries and Federal Records Centers.

Requested funding in 2007 will support continuation of work on development of the first ERA increment and the beginning of design for the second ERA increment. The first increment will give NARA operational capability for lifecycle management of records; increase NARA's ability to accept electronic records and preserve them in their original formats; and demonstrate the viability of NARA's framework for long term preservation of electronic records. Design for the second increment will address additional requirements related to preserving and managing classified electronic records in the future George W. Bush Presidential Library and providing citizens with online access to electronic records. A detailed plan of expenditure for 2007 will be included with NARA's 2007 budget justification.

The National Capital Planning Commission (NCPC) is the central planning agency for the Federal government in the National Capital Region. Through its planning initiatives and review of development proposals, NCPC protects and enhances Washington, D.C.'s extraordinary natural and cultural resources. NCPC helps to shape the future of the Nation's Capital by guiding Federal development, preserving the Capital City's treasures, and mapping a strong course for its future through study, analysis, and thoughtful advance planning. In 2007, NCPC will work with the District of Columbia and its Federal and regional partners to promote development plans that support the Federal interest and contribute to the best urban design, transportation, and land-use scenarios for the National Capital Region. NCPC will continue to ensure that all Federal development in the region meets the highest design standards; assist Federal agencies in preparing appropriate security measures, in keeping with the guidelines of the *National Capital Urban Design and Security Plan*; review Federal plans for capital improvements in the region; and continue to develop long-range planning initiatives that ensure Washington remains a world-class Capital City.

The Commission has been responsible for developing plans and recommendations for meeting the library and information needs of the Nation, for coordinating Federal, State, and local activities to meet these needs, for advising the President and the Congress on implementation of national and international library and information services policies. The Budget proposes to consolidate the Commission into the Institute of Museum and Library Services, beginning in fiscal year 2008. The Administration believes that this move would streamline Federal library policy efforts and strengthen our national research capacity on domestic and international library trends.

Federal credit unions are privately owned, cooperative associations organized for the purpose of promoting thrift among their members and creating a source of credit for provident and productive purposes.

The National Credit Union Administration (NCUA), through its operating fund, conducts activities prescribed by the Federal Credit Union Act of 1934, as amended, which include: (a) chartering new Federal credit unions; (b) determining field of membership of Federal credit unions; (c) promulgating rules and regulations; (d) performing regulatory and safety and soundness examinations; and (e) conducting administrative activities of the share insurance fund.

In 2005, NCUA chartered five new Federal credit unions bringing the total number of Federal credit unions, as of September 30, 2005, to 5,449 with total assets of over \$375 billion. A PART analysis of NCUA's oversight of Federal credit unions has shown that it contributes to the safety and soundness of the credit union industry.

The National Credit Union Share Insurance Fund (NCUSIF) provides insurance for deposits in member accounts (shares) in Federal credit unions and State-chartered credit unions that apply and qualify for insurance, as authorized by Public Law 91-468.

Activities of the NCUSIF consist of: (a) providing member account insurance up to \$100,000; (b) providing cash and other assistance to insured credit unions in order to avoid insolvency; and (c) providing for liquidation or other disposition of the assets and liabilities of insolvent insured credit unions. The NCUSIF reimburses the operating fund for its share of the agency's administrative costs. This reimbursement percentage, which is reviewed and adjusted annually, is 57 percent for 2005 and for 2006.

As of September 30, 2005, 8,795 credit unions were insured by the NCUSIF with insured shares of \$515 billion.

Pursuant to Public Law 98-369, each insured credit union is required to deposit and maintain in the NCUSIF one percent of its member share accounts. The fund is structured to be entirely self supporting through the monies paid by member credit unions. The monies received plus the income generated from investments are expected to cover all administrative and financial costs, as well as increase the fund balance proportionate to insured share growth. In addition, the NCUSIF has \$100 million in borrowing authority from the Treasury for use in unforeseen emergencies.

The Credit Union Membership Access Act of 1998 (CUMAA) requires the NCUA Board to set a Normal Operating Level (equity ratio) for the NCUSIF between 1.2 and 1.5 percent. The equity ratio is defined as the total balance of the NCUSIF less unreserved contingent liabilities divided by the total amount of insured shares at year end. For 2005, the Board set the Normal Operating Level at 1.3 percent prior to the beginning of the calendar year.

In accordance with the CUMAA, NCUA is required to collect a premium from insured credit unions if the equity ratio falls below 1.2 percent of insured shares. In 2005, the income generated from the required one-percent deposit explained above eliminated the need to assess a premium. For 2006 and 2007, NCUA does not anticipate a premium assessment, although the Board may assess a premium if the equity ratio falls below 1.3 percent.

The National Credit Union Central Liquidity Facility was established under Public Law 95-630 and provides loans to member credit unions for seasonal and emergency needs.

The two primary sources of funds for the Facility are stock subscriptions from credit unions and borrowings from the Federal Financing Bank. Credit unions that choose to become members of the Facility are required to purchase stock equal to one-half of one percent of their paid-in and unimpaired capital and surplus. One-half of the subscription in stock is transferred to the Facility. The remaining half of the subscription remains on call.

The Community Development Credit Union Revolving Loan Fund (CDRLF) was established by Congress in 1979 under Section 130(e) of the Federal Credit Union Act to support credit unions that serve low-income communities. Public Law 99-609, enacted on November 6, 1986, transferred the CDRLF from the Department of Health and Human Services to NCUA.

The CDRLF provides loans and technical assistance grants to qualifying credit unions with a low-income designation. The NCUA granted loans of \$1,778,356 in 2005 and plans to grant \$2,200,000 in 2006. In 2005, continued excess market liquidity decreased credit unions' demand for loans from the CDRLF. However, in 2006, it is anticipated that with higher market interest rates, liquidity needs will increase, which will increase credit union interest in borrowing from the Fund and expanding services to underserved areas.

A PART analysis of the CDRLF program has shown that it is well designed to meet its objectives and effectively targets its resources. NCUA is working to address the PART's other conclusions, including developing long-term performance measures to demonstrate if credit unions that serve low-income customers are contributing to increasing income, ownership, and employment opportunities.

The National Endowment for the Arts (NEA) supports excellence in the arts, brings the arts to all Americans, and provides leadership in arts education. In 2007, the Budget requests \$124.4 million for programs and associated costs, including *Challenge America: Reaching Every Community* grants and national initiatives such as *American Masterpieces: Three Centuries of Artistic Genius*.

Through *American Masterpieces: Three Centuries of Artistic Genius*, the NEA will continue to provide Americans with the opportunity to know and experience the best of our Nation’s artistic legacy and to celebrate the best of America’s artistic achievements. *American Masterpieces* continues NEA’s commitment to support programs of indisputable artistic merit that reach communities large and small in all 50 States, as well as to provide substantial and engaging educational programs for the Nation’s children and youth. NEA’s *American Masterpieces* reflects the Administration’s belief that a great Nation deserves great art.

The NEA will support these projects with public and private partners, including State arts agencies and regional arts organizations.

The National Foundation on the Arts and the Humanities Act of 1965, as amended, authorizes the NEA to receive money and other donated property. Such gifts may be used, sold, or otherwise disposed of to support arts projects and activities. Budget authority in this schedule reflects gifts received each year by the NEA.

This presentation also includes the Arts and Artifacts Indemnity Fund. The Arts and Artifacts Indemnity Act of 1975, as amended, authorizes the Federal Council on the Arts and Humanities to enter into indemnity agreements to cover certain eligible works of art on exhibition in the United States or abroad. Loss or damage claims certified by the Council are paid from this fund.

The National Endowment for the Humanities (NEH) supports educational and scholarly activities in the humanities, preserves America's cultural and intellectual resources, and provides opportunities for all Americans to engage in learning in the humanities. In 2007, the agency will continue We the People, an initiative designed to promote a broad understanding of the ideas, people, and events that have shaped our nation. We the People will support the study of our nation's history, institutions, and culture. NEH also will continue to support partnerships with state humanities councils; the strengthening of humanities teaching and learning in the nation's schools and higher educational institutions; efforts to preserve and increase access to brittle books, U.S. newspapers, documents, and other reference materials; and museum exhibitions, documentary media projects, and reading programs in the humanities that reach popular audiences. Support is provided through outright grants, matching grants, and a combination of the two. Eligible applicants include state humanities councils, schools, higher education institutions, libraries, museums, historical organizations, other cultural institutions, and individuals.

This presentation also includes the Gifts and Donations account. The National Foundation on the Arts and the Humanities Act of 1965, as amended, authorizes the Humanities Endowment to receive money and other donated property. Such gifts may be used, sold, or otherwise disposed of to support humanities projects and activities. Budget authority in this schedule reflects cash received each year by the Endowment.

The Board resolves representation disputes in industry, and remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake and additional program statistics appear in the table below.

PROGRAM STATISTICS

	2005 actual	2006 est.	2007 est.
Case intake:			
Unfair labor practice cases	24,840	26,000	26,000
Representation cases	5,184	5,100	5,100
Administrative law judges:			
Hearings closed	308	320	330
Decisions issued	300	331	342
Board adjudication:			
Contested Board decisions issued	350	360	370
Regional director decisions	360	367	374
Representation election cases:			
Decisions issued	205	162	169
Objection rulings	110	115	117
Board decisions requiring court enforcement	206	219	245

Field investigation.—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Over 95 percent of the unfair labor practice cases and over 90 percent of the representation cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

Administrative law judge hearing.—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

Board adjudication.—In an unfair labor practice case, a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder, with exceptions filed, requires contested Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases.

Securing compliance with Board orders.—If the parties do not voluntarily comply with the Board's order involving unfair labor practices, the Board must request that the appellate courts enforce its decisions.

Mediator and alternative dispute resolution (ADR) services.—The Board mediates disputes over wages, hours, and working conditions for some 746 rail and air carriers and approximately 795,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries. The Board's ADR program provides collective bargaining training, facilitation, and grievance mediation services to the labor-management community.

Emergency disputes.—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which substantially threaten to interrupt essential service, may appoint emergency boards to investigate and report on the dispute. Such reports usually serve as a basis for resolving the disputes.

Arbitration under sections 3 and 7 of the Railway Labor Act.—Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the Board are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry otherwise referable to the NRAB.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

The National Transportation Safety Board (NTSB), as an independent nonregulatory agency, is charged with promoting transportation safety through the investigation of accidents, the conduct of special studies, the development of recommendations to prevent accidents, the evaluation of the effectiveness of other Government agencies in preventing transportation accidents, and the review of appeals of adverse certificate and civil penalty actions taken by the Administrators of agencies of the Department of Transportation involving airman and seaman certificates and licenses.

In 2007, the Administration requests a total funding level of \$80 million for NTSB Salaries and Expenses to allow the NTSB to fulfill its role in improving safety on the Nation's transportation system.

The National Veterans Business Development Corporation (NVBDC) was established under P.L. 106-50 with the purpose of providing veterans with access to education, access to capital and services, and access to markets.

In fulfilling these goals, the NVBDC has built partnerships and conducted outreach with Federal departments and agencies, veterans service organizations, community based organizations and private sector corporations.

NVBDC's authorization provided start-up capital but directed that the organization implement a plan to become financially self-sufficient. As such, the 2007 Budget provides no new funding for NVBDC.

Nuclear Reactor Safety.—A major part of the NRC’s mission is to ensure that its licensees design, construct, and operate civilian reactor facilities safely. The Atomic Energy Act and the Energy Reorganization Act provide the foundation for regulating the Nation’s civilian nuclear power industry. Nuclear reactor safety encompasses all NRC efforts to ensure that civilian nuclear reactor facilities and research and test reactors are operated in a manner that provides adequate protection of public health and safety and the environment, and protects against radiological sabotage and theft or diversion of special nuclear materials. These efforts include reactor licensing; reactor license renewal; operator licensing; financial assurance; inspection; performance assessment; new reactor licensing; identification and resolution of safety issues; reactor regulatory research; regulation development; operating experience evaluation; incident investigation; homeland security efforts (including threat assessment, mitigating strategies, and emergency preparedness); emergency response; investigation of alleged wrongdoing by licensees, applicants, contractors, or vendors; imposition of enforcement sanctions for violations of NRC requirements; and reactor technical and regulatory training. In response to renewed interest in building nuclear power reactors, NRC will conduct pre-licensing and licensing reviews and will develop necessary regulatory infrastructure to support these reviews. The NRC participates in international safety support activities, including some that support the Agency’s domestic mission and others that support broader U.S. national interests. These activities include international policy formulation, treaty implementation, international information exchange, international safety and safe-

guard assistance, and deterring nuclear proliferation. NRC will continue to review and strengthen its security and safeguards program for civilian reactor facilities and address any significant weaknesses.

Nuclear Materials and Waste Safety.—Nuclear materials safety encompasses all NRC efforts to ensure that NRC-regulated aspects of nuclear fuel cycle facilities and nuclear materials activities are handled in a manner that provides adequate protection of public health and safety and that promotes the common defense and security, including implementation of P.L. 109-58, the Energy Policy Act of 2005. These efforts include licensing/certification, inspection, and enforcement activities; import-export licensing of nuclear materials and equipment; regulation and guidance development; nuclear materials research; identification and resolution of safety and safeguard issues; improved regulatory control of radiological sources; operating experience evaluation; incident investigation; threat assessment; emergency response; technical training; implementation of State and tribal programs; and investigation of alleged wrongdoing by licensees, applicants, certificate holders, and contractors.

Nuclear waste safety encompasses the NRC’s high-level waste regulatory activities associated with high-level waste disposal at the potential Yucca Mountain repository as mandated by the Nuclear Waste Policy Act of 1982, as amended, and the Energy Policy Act of 1992; NRC regulatory and oversight activities for decommissioning, which involves safely removing a facility from service and reducing residual radiation to a level that permits the property to be released for unrestricted or restricted use; oversight of certain Department of Energy radioactive waste incidental to reprocessing to implement Section 3116 of P.L. 108-375; the safe and secure storage and transportation of radioactive materials through the certification of spent fuel storage containers and transportation packages; and waste safety research. Low-level radioactive waste activities associated with the disposal of waste are addressed in accordance with the Low-Level Radioactive Waste Policy Act of 1980, as amended. NRC will continue to strengthen the security and safeguards program for decommissioning reactors, spent fuel storage installations, transportation packages, and storage cask designs.

The Office of Navajo and Hopi Indian Relocation was established by Public Law 93-531 to plan and conduct relocation activities associated with the settlement of a land dispute in northern Arizona between the two tribes.

Bonuses are paid to clients who volunteered for relocation prior to July 7, 1985. Relocation of clients includes such activities as certification, housing acquisition and construction, and land acquisition. Discretionary funds will be used for activities which will facilitate and expedite the overall relocation effort.

The Office of Special Counsel (OSC): (1) investigates Federal employee and applicant allegations of prohibited personnel practices (including reprisal for whistleblowing) and other activities prohibited by civil service law, and when appropriate, prosecutes before the Merit Systems Protection Board (MSPB); (2) provides a safe channel for whistleblowing by Federal employees and applicants; (3) enforces the Uniform Services Employment and Reemployment Rights Act (USERRA); and (4) advises on and enforces the Hatch Act. The OSC may transmit whistleblower allegations to the agency head concerned and require an agency investigation. OSC then submits a report to the Congress and the President when appropriate.

Overall in 2005, there were more than 3,679 instances in which the assistance or action of the OSC was sought by Federal employees and other persons. Many prohibited personnel practice cases investigated by the OSC are resolved without recourse to formal proceedings before the MSPB. In 2005, the OSC obtained 45 favorable actions, and efforts to obtain such negotiated resolutions will continue. In 2005, the OSC also filed 11 disciplinary action complaints before the MSPB in Hatch Act matters. The OSC also issued 2,558 Hatch Act advisory opinions (both written and oral) to people who sought advice. During 2005, the OSC's Disclosure Unit received 485 new disclosure matters for possible referral. The Disclosure Unit referred matters to agency heads for their review a total of 19 times during 2005, and an additional 14 Disclosure Unit matters were referred to agency Inspector Generals for review.

The OSC is revising its Strategic Plan for the five year period beginning in 2007. These revisions focus on developing and implementing quantifiable performance measures tied to the agency's timeliness in handling cases, the quality of OSC's work product and decisions, and fulfillment of OSC's education and outreach responsibilities. The Strategic Plan continues to emphasize cross-training and strategic management of human capital in order for the agency and its individual units to use their resources to maximum effect. The Special Counsel's emphasis on the agency's expanding USERRA missions is also noted.

The following table displays the 2005 workload:

Case type	Cases received 2005	Cases processed 2005
Prohibited personnel practice complaints	1771	1774
Hatch Act complaints	245	310
Whistleblower disclosures	485	473

USERRA referrals	30	36
USERRA demo project claims	111	57
Hatch Act advisory opinions issued		2558

The Veterans Benefits Improvement Act of 2004 (P.L. 108-454) established a demonstration project that routes approximately 150 additional USERRA claims annually to OSC for investigation rather than the Department of Labor. This demonstration project started in February, 2005 and extends through the end of 2007. OSC has assembled a dedicated USERRA Unit to investigate and prosecute these cases.

For 2006 and 2007, OSC projects intake for prohibited personnel practice cases and disclosure cases will continue to increase according to recent trends.

The funding requested for 2007 will enable OSC to maintain the staffing level necessary to operate the agency without building up backlogs.

The Postal Service has received a total of \$1.265 billion in emergency response funds since 2001. Included in this amount is:

- \$175,000,000 from the Emergency Response Fund to the U.S. Postal Service in response to the anthrax attacks. These funds were released by the President on November 20, 2001, pursuant to P.L. 107-38.
- \$500,000,000 from the Emergency Supplemental Act of 2002 (P.L. 107-117) to protect postal employees and postal customers from exposure to biohazardous material, sanitize and screen the mail, and replace or repair Postal Service facilities destroyed or damaged in New York City as a result of the September 11, 2001, terrorist attacks. These funds became available to the Postal Service for sanitizing and screening the mail after it submitted an emergency preparedness plan and an associated expenditure plan to the Congress.
- \$87,000,000 from the Supplemental Appropriations Act of FY 2002 for Further Recovery from the Response to Terrorist Attacks on the United States (P.L. 107-206) to further protect postal employees and postal customers from exposure to biohazardous material and to sanitize and screen the mail.
- \$502,944,000 from the Omnibus 2005 Appropriations bill (P.L. 108-447) to protect postal employees and postal customers from exposure to hazardous materials in the mail. Of this amount, \$7,000,000 is designated as emergency funding to construct a mail irradiation facility in the District of Columbia.

The Budget reflects \$73,000,000 for the Payment to the Postal Service Fund in 2007. This amount represents an advance appropriation from 2006 for the 2006 costs and the 2003 reconciliation adjustment for free mail for the blind and overseas voting. These resources will become available to the U.S. Postal Service in 2007.

In addition, the Budget proposes \$79,915,000 as an advance appropriation for 2008 for the 2007 costs (\$60,725,000) and

the 2004 reconciliation adjustment (\$19,190,000) for free mail for the blind and overseas voting costs.

Pursuant to Public Law 93-328, the 2007 appropriation request of the U.S. Postal Service for Payment to the Postal Service Fund is \$123,735,000. This amount includes: \$80,127,000 requested for free mail for the blind and overseas voting; \$19,190,000 as reconciliation adjustment for 2004 actual mail volume; and \$24,418,000 as a reconciliation adjustment for the 2005 actual mail volume of free mail for the blind and overseas voting.

The Postal Reorganization Act of 1970, Public Law 91-375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the executive branch. The Postal Service commenced operations July 1, 1971. This agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The U.S. Postal Service is governed by an 11-member Board of Governors, including 9 Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

Decisions on changes in domestic rates of postage and fees for postal services are recommended to the Governors of the Postal Service by the independent Postal Rate Commission after a hearing on the record under the Administrative Procedure Act. The Commission also recommends decisions on changes in the domestic mail classification schedule to the Governors. Decisions of the Governors on rates of postage, fees for postal services, and mail classification are final, subject to judicial review.

Effective in 1986, the Postal Service Fund (Fund) was included in the congressional and executive budget process and taken into account in making calculations under the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings). The Omnibus Budget Reconciliation Act of 1989 amended title 39 of the U.S. Code by adding a new section, 2009a, which provides that, beginning in 1990, the receipts and disbursements of the Fund shall not be considered as part of the congressional and executive budget process and shall not be taken into account in making calculations under Gramm-Rudman-Hollings.

Programs.—Included are all postal activities providing window services; processing, delivery, and transportation of mail; research and development; administration of postal field activities; and associated expenses of providing facilities and financing.

In December 2002, the President's Commission on the United States Postal Service was created to recommend legislative and administrative steps necessary to affect reforms needed to meet the challenges faced by the Postal Service and ensure the viability of postal services (Executive Order 13278, December 11, 2002). A series of public meetings were held and a wide range of postal stakeholders from postal unions and management associations, the mailing industry, competitors, academics and economists were heard. In July 2003, a final report was issued to the President containing recommendations for changes the Commission deems necessary to protect the nation's access to affordable, universal mail service long into the future.

The Administration supports enactment of comprehensive postal reform legislation that is fair to taxpayers, ratepayers, and Postal Service employees, does not have an adverse impact on the Federal Budget, and is consistent with the following five principles:

- **Implement Best Practices:** Ensure that the Postal Service's governing body is equipped to meet the responsibilities and objectives of an enterprise of its size and scope.

- *Transparency:* Ensure that important factual information on the Postal Service’s product costs and performance is accurately measured and made available to the public in a timely manner.

- *Flexibility:* Ensure that the Postal Service’s governing body and management have the authority to reduce costs, set rates, and adjust key aspects of its business in order to meet its obligations to customers in a dynamic marketplace.

- *Accountability:* Ensure that a Postal Service operating with greater flexibility has appropriate independent oversight to protect consumer welfare and universal mail service.

- *Self-Financing:* Ensure that a Postal Service operating with greater flexibility is financially self-sufficient, covering all of its obligations.

Financing.—The activities of the U.S. Postal Service are financed from the following sources: (1) mail and services revenue; (2) reimbursements from Federal and non-Federal sources; (3) proceeds from borrowing; (4) interest from U.S. securities and other investments; and (5) appropriations by the Congress. All receipts and deposits are made to the Postal Service Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities.

Separate legislation also increased the Postal Service’s statutory borrowing authority beginning in 1991. Section 2005 of title 39, United States Code, as amended, increased the Postal Service’s borrowing authority by \$2.5 billion in 1991 for a revised ceiling of \$12.5 billion and an additional \$2.5 billion in 1992 for a revised total ceiling of \$15 billion. The total annual increase in net outstanding debt was also increased and now may annually grow by up to \$2.0 billion in obligations issued for the purpose of capital improvements and by \$1.0 billion for the purpose of paying operating expenses. As of September 30, 2007, it is expected that the total debt instruments issued and outstanding pursuant to this authority will amount to \$4.5 billion.

Operating.—Estimated revenue will total approximately \$72.5 billion in 2007. This includes \$72.4 billion from mail and services revenue, \$20 million from investment income, and \$72 million for revenue foregone appropriations in 2007. Total expenses are estimated at approximately \$72.5 billion in 2007.

The Postal Reorganization Act of 1970 established the Postal Service as a fully self-sufficient, independent entity. Postal revenues were to cover the full costs of postal operations. When the Act was passed, the Postal Service received substantial taxpayer subsidies, both appropriated and unappropriated. Consistent with the intent of the 1970 Act, Congress has taken steps over time to reduce these subsidies. Under the 1974 Civil Service Retirement Fund—Postal Employee Benefits Act, the Postal Service assumed responsibility for paying unfunded retirement costs from wage schedule increases under postal labor contracts. These costs are not covered by normal employee/employer contributions to the retirement fund. The 1985 Reconciliation Act shifted responsibility for paying health benefit costs of Postal annuitants retiring after 1986 from the Office of Personnel Management (OPM) to the Postal Service. The 1987 Reconciliation Act had the Postal Service make one-time payments to defray annuitant health benefit costs in 1988 and 1989 and retirement COLA costs in 1988. (Retirement COLAs, like wage schedule increases, result in retirement liabilities not covered by normal retirement fund contributions.) Under the 1989 Reconciliation Act, the Postal Service assumed responsibility for paying health benefits of survivors of post-86 annuitants and unfunded retirement COLA liabilities for post-86 annuitants.

The Omnibus Budget Reconciliation Act of 1990 superseded certain existing legislation and expanded the Postal Service’s responsibility for benefit costs of postal annuitants. Effective October 1, 1990, the Postal Service was required to fund Civil Service Retirement System (CSRS) COLAs and the employer’s share of Federal Employees Health Benefits Program (FEHBP) premiums for postal annuitants who retired after June 30, 1971, and their survivors. In addition, the Postal Service was required to fund the retroactive CSRS COLA and FEHBP premium costs for which the Postal Service would have been liable if the provisions of this new legislation had been in effect as of July 1, 1971.

Under the Omnibus Reconciliation Act of 1993, the Postal Service was required to make certain payments for past COLAs and health benefits, over and above any other payments required by law, of \$693 million to the Civil Service Retirement and Disability Fund, and \$348 million to the Employees Health Benefits Fund. These two amounts were made in three equal annual installments, beginning in fiscal year 1996.

Early in 2003, OPM determined that, at the then-current rate of funding, the Postal Service would pay substantially more than needed to fund the estimated future benefits of postal employees and retirees participating in the Civil Service Retirement System. This projected over-funding resulted from interest earned by the fund in excess of the assumed statutory rate of 5 percent. As a result, the Administration proposed and Congress enacted CSRS reform legislation that was signed by the President on April 23, 2003 (P.L. 108–18). The provisions of P.L. 108–18 eliminate all future retirement liability payments related to general wage increases and the retirement COLA payments. The Postal Service dynamically funds CSRS retirement benefits at 17.4 percent of current CSRS employees’ wages, beginning in May 2003. Annually, OPM will calculate the amount of any potential supplemental retirement liability and the Postal Service will fund any such liability in annual payments through September 30, 2043.

The Balanced Budget Act of 1997 repealed the authorization for transitional appropriations to the Postal Service which had funded the liabilities of the former Post Office Department to the Employees’ Compensation Fund. Effective October 1, 1997, these liabilities became liabilities of the Postal Service payable out of the Postal Service Fund.

The Budget proposes to use the pension savings provided to the Postal Service by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108-18) that would otherwise be held in escrow in 2006 and beyond, to put the Postal Service on a path that fully funds its substantial retiree health benefits liabilities. See the new account entitled "Postal Service Contribution for Retiree Health Benefits" located in the Office of Personnel Management section of this Appendix.

The Presidio Trust is a wholly owned government corporation established by the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333) to manage, improve, maintain and lease property in the Presidio of San Francisco. After this former military base was transferred to the National Park Service (NPS), the Trust was created to take over responsibility for managing the hundreds of houses, office buildings, and other facilities in an innovative manner that uses private-sector resources, but is consistent with surrounding NPS lands. This appropriation funds the operation and capital improvements of the Trust.

The Trust manages and invests the funds of the Railroad Retirement System in private securities and U.S. Treasury Securities. Railroad retirement benefits will continue to be paid as under the law in effect prior to the enactment of the Railroad Retirement and Survivors Improvement Act of 2001 until an arrangement is finalized with a non-governmental financial institution to serve as a disbursing agent. Railroad retirement benefits will be paid by the National Railroad Retirement Investment Trust once an arrangement is finalized.

All railroad retirees receive the equivalent of a social security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and

supplemental annuities. Social security benefits for former railroad employees are funded by the social security trust funds, and rail industry pension payments are the responsibility of the rail sector.

Under current law, a financial interchange occurs once each year between the social security trust funds and the social security equivalent benefit (SSEB) account. SSEB receives monthly advances from the general fund equal to an estimate of the transfer SSEB would have received for the previous month if the financial interchange transfers were on a monthly basis. Advances from the previous year are repaid annually to the general fund immediately after the financial interchange is received. In 2005, \$3,256 million was advanced and \$3,240 million was repaid.

The primary mission of the Securities and Exchange Commission (SEC) is to administer and enforce the Federal securities laws in order to protect investors, and to maintain fair, honest, and efficient markets. The Commission's major divisions include Corporation Finance, which ensures that investors are provided with material information in the public offering, trading, voting and tendering of securities; Enforcement, which investigates and prosecutes violations of the federal securities laws; Market Regulation, which oversees self-regulatory organizations, monitors securities markets and broker-dealer operations, and develops regulatory strategies; Investment Management, which drafts regulations, provides interpretive advice and reviews disclosure documents filed from investment companies and investment advisors; and the Office of Compliance Inspections and Examinations (OCIE), which conducts an exam program to detect violations of the federal securities laws and evaluate internal compliance controls.

The SEC is funded through offsetting fees collected pursuant to section 6(b) of the Securities Act of 1933, and sections 13(e), 14(g) and 31 of the Securities Exchange Act of 1934, as amended by the Investor and Capital Markets Fee Relief Act. The Administration continues its long-standing support of the Fee Relief Act and the 2007 Budget assumes \$1.1 billion in fees, \$1.0 billion lower than 2006 collections. The Budget proposes to allow the SEC to use \$890 million of the \$1.1 billion in fee collections to finance its operations in 2007.

The Administration has conducted PARTs on Enforcement, Corporation Finance and OCIE. The commission is working to address the PARTs' conclusions, including developing targets and baselines for annual and long-term performance measures.

Note: Because PCAOB does not report budgetary data to Treasury, budget estimates were derived from PCAOB's financial data.

The Sarbanes-Oxley Act of 2002 (P.L. 107-204) established the Public Company Accounting Oversight Board (PCAOB) to oversee the audit of public companies that are subject to securities laws. PCAOB was created to protect the interests of investors by regulating the preparation of informative, accurate, and independent audit reports for companies whose securities are sold to, and held by and for, public investors. Funding for PCAOB comes from registration fees paid by public accounting firms and Accounting Support fees paid by public companies.

The Sarbanes-Oxley Act of 2002 (P.L. 107-204) authorizes the Securities and Exchange Commission (SEC) to designate a private entity as a standard setting body. This standard setting body will set accounting principles that will be "generally accepted" for the purposes of securities laws. Funding for the standard setting body comes from Accounting Support Fees, paid by public companies. The private entity currently designated as the standard setting body is the Financial Accounting Standards Board.

The Smithsonian Institution conducts research in the natural and physical sciences and in the history of cultures, technology, and the arts. The Institution acquires and preserves for reference and study purposes over one hundred and forty million items of scientific, cultural, and historic importance. It maintains public exhibits in a variety of fields.

The Institution operates and maintains 18 museums; a zoological park and animal conservation and research center; research facilities; and supporting facilities.

Included in the presentation of the Salaries and Expenses account are data for the Canal Zone biological area fund. Donations, subscriptions, and fees are appropriated and used to defray part of the expenses of maintaining and operating the Canal Zone biological area (60 Stat. 1101; 20 U.S.C. 79, 79a).

This account provides funding for major new construction projects to support the Smithsonian's existing and future programs in research, collections management, public exhibitions and education. This account also includes major repairs, revitalization, code compliance changes, minor construction, alterations and modifications, and building system renewals of Smithsonian museum buildings and facilities for storage and conservation of collections, research, and support. The Facilities Capital account covers planning and design related to these activities as well. The 2007 President's Budget provides funds to complete construction of Pod 5 of the Museum Support Center in Suitland, Maryland. Current long-term projects supported by the Administration in this account include renovations at the National Zoological Park, the National Museum of American History-Behring Center, and the National Museum of Natural History.

The Telecommunications Development Fund (TDF) was established pursuant to the Telecommunications Act of 1996. The TDF has the authority to spend the interest earned on deposits required of bidders by the Federal Communications Commission (FCC) as part of the spectrum auction process. The interest earnings are used as venture capital for small businesses and spent on other activities related to telecommunications services. The TDF's board members are appointed by the Chairman of the FCC and include representatives of the FCC, Treasury, and Small Business Administration. Treasury must report annually to the President and Congress on the operations and financial condition of the fund.

As a result of TDF's disappointing performance, lack of impact, and high administrative costs, the Budget proposes terminating the fund and returning remaining assets to the Treasury. As of December 31, 2004, TDF had approximately \$18 million in cash equivalent assets.

The Tennessee Valley Authority (TVA) was created in 1933 as a Government-owned corporation for the unified development of a river basin comprised of parts of seven States. The agency finances its program primarily from proceeds available from current power operations and borrowings against future power revenues.

TVA's nonpower programs.—TVA operates a series of 49 dams and 47 reservoirs to reduce the risk of flooding, enable year-round navigation, supply affordable and reliable electricity, improve water quality and water supply, provide recreational opportunities, stimulate economic growth, and provide a wide range of other public benefits. TVA is responsible for critical stewardship activities within the Tennessee Valley which include: water release regulation; maintenance of dam machinery and spillway gates; modifications on nine main and four auxiliary navigation locks and associated mooring facilities; improvement of water quality and supply in the Tennessee River watershed and dam tailwaters for fisheries and potable water supply for 4 million people; management of shoreline erosion; regulation of shoreline development along the Tennessee River and its tributaries; planning and management of 239,000 acres of public land; and operation of public recreation areas. These services are funded entirely by TVA's power revenues and its user fees.

TVA's Power Program.—TVA's role as the sole supplier of electric power to an area of 80,000 square miles in the seven Tennessee Valley States is being reviewed as the Nation considers ways to restructure the electric power industry. Income from power operations, net of interest charges and depreciation, and other operating expenses is estimated at \$258 million in 2007. Power generating facilities are financed from power proceeds and borrowings.

TVA Policy Initiatives.—To position TVA for a more competitive electricity market and achieve a more sound business risk profile, TVA's budget includes estimated debt reduction amounts of \$340 million in 2006, \$529 million in 2007, and approximately \$7.8 billion by the end of 2016 to be funded through TVA's business operations. This debt reduction will encompass all TVA long-term liabilities, not just traditional TVA notes and bonds. In June 2005, the Administration sent legislation to Congress that makes explicit that TVA financial transactions that result in debt-like instruments that increase long-term liabilities will count toward TVA's statutory debt limit of \$30 billion. Debt reduction and a sound business plan are key elements needed to ensure that TVA continues to provide efficient power generation and transmission as well as continues to aid economic development in its service territory in the future.

TVA's Board of Directors is being reformed from three full-time members to nine part-time members who will appoint a chief executive officer. In December 2005, the Administration nominated five new Board members subject to Senate confirmation. In December 2006, TVA will file its first financial report with the Securities and Exchange Commission to allow for more transparency of its business operations. The 2007 Budget includes an Administration initiative requiring TVA to register its debt securities with the SEC to provide investors with greater insight into the characteristics and risks inherent in TVA securities.

Financing.—Amounts estimated to become available in 2007 are to be derived from power revenues and receipts of \$9,030 million.

Operating results and financial conditions.—Payments to the Treasury from power proceeds in 2007 are estimated at \$38 million—\$18 million as a dividend (return on the appropriation investment in the power program) and \$20 million as a reduction in the appropriation investment in the power program. Outstanding borrowings for the power program are expected to decrease by \$529 million during 2007.

Total assets are estimated to increase by \$144 million during 2007. The estimate of liabilities at September 30, 2007, is \$104 million less than the estimate at September 30, 2006. Total Government equity at September 30, 2007, is estimated to be \$248 million more than that at September 2006. This change includes the net income from power operations, less payments to the Treasury.

The Office of the Inspector General (OIG) is an independent organization charged with reporting to the TVA Board of Directors and the Congress on the overall efficiency, effectiveness, and economy of TVA programs and operations. The OIG meets this responsibility by conducting audits, investigations, inspections, and other reviews. The OIG focuses on the prevention, identification, and elimination of 1) waste, fraud, and abuse; 2) violations of laws, rules, or regulations; and 3) inefficiencies in TVA programs and operations. To increase its independence, TVA's Inspector General (IG) became a Presidentially-appointed position in 2000. Currently, TVA's IG is funded directly from TVA revenues, subject to TVA Board-approval. The 2007 President's Budget proposes to appropriate funds for TVA's IG out of TVA's revenues beginning in 2007.

The Combined Benefit Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; past transfers from an overfunded United Mine Workers pension fund; transfers from the Abandoned Mine Land Reclamation fund; and a Medicare prescription drug demonstration.

The 1992 Benefit Plan was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care for those miners who retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is supported by signers of the 1988 labor agreement with the United Mine Workers of America and a Medicare prescription drug demonstration.

The Veterans' Judicial Review Act, found in part at 38 U.S.C. §§ 7251-7292 (1988), established the United States Court of Veterans Appeals (renamed United States Court of Appeals for Veterans Claims as of March 1, 1999, Public Law 105-368) under Article I of the United States Constitution. The Court is empowered to review decisions of the Board of Veterans Appeals and may affirm, modify, revise, or reverse a decision of the Board or to remand the matter as appropriate. The type of review performed by the Court is similar to that performed in Article III courts under the Administrative Procedure Act, 5 U.S.C. §§ 551 et seq. In actions before it, the Court has the authority to decide all relevant questions of law, to interpret constitutional, statutory, and regulatory provisions, and to determine the meaning or applicability of the terms of an action by the Secretary of Veterans Affairs. The Court, being created by an act of the Congress, may issue all writs necessary or appropriate in aid of its jurisdiction, 28 U.S.C. § 1651.

The Court is empowered to: compel actions of the Secretary that are found to have been unlawfully withheld or unreasonably delayed; and set aside decisions, findings, conclusions, rules, and regulations issued or adopted by the Secretary, the Board of Veterans Appeals, or the Chairman of the Board that are found to be arbitrary or capricious. The Court may also set aside decisions that are abuses of discretion or otherwise not in accordance with the law, contrary to constitutional right, in excess of statutory jurisdiction or authority, or without observance of the procedures required by law. In cases involving benefits under the laws administered by the Department of Veterans Affairs, the Court may hold unlawful and set aside or reverse findings of material facts if the findings are clearly erroneous.

The Court's principal office location is Washington, D.C.; however, it is a national court, empowered to sit anywhere in the United States.

Pro bono program.—The Legal Services Corporation administers a grant program to provide pro bono representation and legal assistance to claimants who file appeals with the Court. The Congress funds the grant program through the Court's appropriation. To maintain impartiality, the Court does not administer the program or comment on the program's budget estimate.

Registration fees (formerly Practice fees).—38 U.S.C. § 7285 as amended by P.L. 107-103 establishes a fund, which receives no appropriations, that will be used by the U.S. Court of Appeals for Veterans Claims for 1) conducting investigations and proceedings, including employing independent counsel, to pursue disciplinary matters; and 2) defraying the expenses of judicial conferences and other activities and programs of the Court intended to support and foster communication and relationships between the Court and persons practicing before the Court or the study, understanding, public commemoration, or improvement of veterans law or of the work of the Court.

eral departments and agencies working in a broad range of interagency and intergovernmental partnerships to develop the Federal response to homelessness and achieve the Administration's commitment to end chronic homelessness. Council activities include planning and coordinating interagency Federal Government activities to assist homeless people, and recommending policy changes to Federal program to better assist homeless people; monitoring and evaluating homeless programs at all levels of government and the private sector; ensuring that technical assistance is provided to help community and other organizations effectively assist homeless persons; and disseminating information on Federal resources available to assist people who are homeless. USICH received a one year reauthorization from Congress in 2006. Language to extend the authorization to October 1, 2012 and amend the USICH statute (Title II of the McKinney-Vento Homeless Assistance Act) was submitted to Congress in 2005 by the Secretary of the Department of Veteran's Affairs, then Chair of the Council. The Secretary of the Department of Housing and Urban Development is the current Chair of the Council.

The Vietnam Education Foundation Act of 2000 (Title II of Public Law 106-554) created the Vietnam Education Foundation (VEF) to administer an international fellowship program under which Vietnamese nationals can undertake graduate and post-graduate level studies in the sciences (natural, physical, and environmental), mathematics, medicine, and technology, and American citizens can teach in these fields in appropriate Vietnamese institutions. The Act also authorized the establishment of the Vietnam Debt Repayment Fund, in which all payments (including interest payments) made by the Socialist Republic of Vietnam under the United States-Vietnam debt agreement shall be deposited as offsetting receipts. Beginning in 2002, and in each subsequent year through 2018, \$5 million of the amounts deposited into the fund (or accrued interest) from USDA and USAID shall be available to VEF.
