

**Amendment Draft of the Enforcement Ordinance of the Fisheries Resources Conservation Act
(Abstract)**

Article 1-2

Ministerial Ordinance-listed diseases and aquatic animals as susceptible hosts to the diseases prescribed in Section 1 of Article 13-2 of the amended Fisheries Resources Act are as follows.

Aquatic animals	Ministerial Ordinance-listed diseases
Cyprinus carpio	Spring viraemia of carp (SVC) Koi Herpes Virus (KHV) disease
Carassius Hypthalmichthys molitrix Aristichthys nobilis Ctenopharyngodon idellus Mylopharyngodon piceus	Spring viraemia of carp (SVC)
Eyed eggs of salmonidae Fry of salmonidae	Viral haemorrhagic septicaemia (VHS) Epizootic haematopoietic necrosis (EHN) Piscirickettsiosis Enteric redmouth disease (ERM)
Larvae, postlarvae and juvenile of Penaeus	Infectious disease caused by <i>Baculovirus penaei</i> Infectious disease caused by <i>Penaeus monodon</i> -type baculovirus Yellowhead disease Infectious hypodermal and haematopoietic necrosis (IHHN) Taura syndrome

Article 1-5

The duration prescribed in Section 1 of Article 13-3 of the Fisheries Resources Conservation Act is as follows:

Aquatic animals	Duration
Cyprinus carpio	21 days
Carassius Hypthalmichthys molitrix Aristichthys nobilis Ctenopharyngodon idellus Mylopharyngodon piceus	15 days
Eyed eggs of salmonidae Fry of salmonidae	15 days * * 84 days in case that Minister of Agriculture, Forestry and Fisheries considers that imported eyed eggs or fry of salmonidae may be infected with Piscirickettsiosis
Larvae, postlarvae and juvenile of Penaeus	10 days** ** 20 days in case that Minister of Agriculture, Forestry and Fisheries considers that imported larvae, postlarvae or juvenile of penaeus may be infected with Taura Syndrome

Article 1-6

The way prescribed in Section 1 of Article 13-3 of the Fisheries Resources Conservation Act is as follows:

- to maintain the imported aquatic animals isolated from other aquatic animals
- to disinfect water or any other liquid which was in a container or facilities of the imported aquatic animals when it is drained
- to disinfect a container or facilities of the imported aquatic animals when the aquatic animals are moved into another container or facilities
- to burn or bury a container of the imported aquatic animals when it is dumped
- to burn, bury or dispose carcass of the imported aquatic animals appropriately

Article 1-7

A person who has the aquatic animals examined under Section 2 of Article 13-3 of the Fisheries Resources Conservation Act shall report the following information in written or oral form beforehand.

- name and address of the owner of the aquatic animals and the person in charge of them
- name of the disease
- species of the aquatic animals
- location of the aquatic animals
- date when the person finds that the aquatic animals are suspected of infection, and condition of the aquatic animals
- other useful information
