FOR FURTHER INFORMATION CONTACT:

Brandy Hutnak or Carrie Hubbard, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The applicant seeks a five year permit to study the behavior and dynamics of humpback whale female and calf pairs in the waters off of Maui, Hawaii, including waters of the Hawaiian Islands Humpback Whale National Marine Sanctuary. Up to 540 takes for close vessel approach, photo-identification, focal follows, underwater observations, collection of sloughed skin, and incidental harassment are requested annually to test the hypotheses that behavior, dynamics and distribution of female/calf pairs varies between different stocks and may be influenced by abiotic factors such as aspects of bathymetry, water quality, and levels of vessel traffic. Incidental harassment of bottlenose dolphins (*Tursiops truncatus*), spinner dolphins (*Stenella longirostris*), pantropical spotted dolphins (*Stenella attenuata*), false killer whales (*Pseudorca crassidens*), and pilot whales (*Globicephala* sp.) is also requested. Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: August 1, 2007.
