SUPPLEMENTARY INFORMATION:

I. Abstract

The American Fisheries Act (AFA), signed into law in October 1998, established a new allocation program for the pollock fishery of the Bering Sea and Aleutian Islands Management Area (BSAI). NOAA issued an emergency interim rule to give immediate effect to all AFA-mandated management measures. Under the AFA, only vessels and processors that meet specific qualifying criteria are eligible to fish for and process pollock in the BSAI. The BSAI pollock quota is suballocated to groups of vessel owners who form fishing vessel cooperatives under the AFA. NOAA administers new AFA fishing, processing, and cooperative permits for the BSAI pollock fishery through application form requirements that allow NOAA to identify and permit the vessels and processors that are eligible to participate in the BSAI pollock fishery. Owners of vessels and processors must submit evidence of their qualification to participate.

II. Method of Collection

Applications are submitted on paper forms.
