

# **A Large-Scale CO<sub>2</sub> Observing Plan: In Situ Oceans and Atmosphere (LSCOP)**

## **A Report of the In Situ Large-Scale CO<sub>2</sub> Observations Working Group**

[Front Matter \(cover, title, contents, author list\) \(6.71 MB\)](#)

[Executive Summary \(537 KB\)](#)

[Chapter One — Introduction \(483 KB\)](#)

[Chapter Two — Atmospheric Observations \(2.53 MB\)](#)

[Chapter Three — Integrated Studies of the Surface Ocean and Air-Sea Interface \(1.57 MB\)](#)

[Chapter Four — Integrated Studies in the Water Column \(1.40 MB\)](#)

[Chapter Five — Synthesis and Modeling \(569 KB\)](#)

[Chapter Six — Biennial Assessment of the State of the Carbon Cycle Studies \(450 KB\)](#)

[Chapter Seven — Summary \(446 KB\)](#)

[References \(490 KB\)](#)

[Appendix A — Participant List, Global Carbon Cycle Observation Workshop \(443 KB\)](#)

[Appendix B — Commissioning Letter \(445 KB\)](#)

[Appendix C — Acronyms \(431 KB\)](#)

[Appendix D — Spatial and Temporal Variability of Surface Water pCO<sub>2</sub> and Sampling Strategies \(4.4 MB\)](#)

[Appendix E — Errors in the Sea-Air CO<sub>2</sub> Flux Due to Time-Space Ocean Sampling Strategies for Sea Air pCO<sub>2</sub> Difference \(511 KB\)](#)

[Appendix F — The Role of Remote Sensing in an Ocean CO<sub>2</sub> Observing Plan \(526 KB\)](#)

[Appendix G — Instrumentation and Platforms for Observations of Sea Surface pCO<sub>2</sub> and Related Properties \(469 KB\)](#)

[Appendix H — Efforts by the European Community \(491 KB\)](#)

[Entire Report \(15.2 MB\)](#)
