Comments: Dr. Jane Summerson and anyone else:

You are going to do what you want to do anyway with a 'feel good' EIS process as backup - a wad of filed letters that will not change the course intended.

The proposed rail line is an exorbitant waste of taxpayer dollars. Any waste of any kind may be hauled anywhere by truck rather than building this ridiculous boondoggle railroad. Do you think you will be hauling waste every 20 minutes like the coal trains across Nebraska?

Leave that part of Nevada alone.

Thanks in advance for your 'form' "we appreciate your comments" as my email slips into a file never to be seen again.

Talk about being 'railroaded'!
