COMMENTS:

I hope you will not build the Caliente rail corridor. If you must construct such a corridor, Caliente should be your last choice. The country that the proposed line would pass through, i.e. Coal Valley, Reiville Valley, The Golden Gate Range, the Quinn Cyn Range, Kawich Range and Mud Lake represent a pristine and wilderne-like landscape of great beauty. For the most part, these areas enjoy no special governmental protection like Natl Forest or Natl Park. They remain undiscovered in their isolation and remoteness. A rail corridor for hauling radioactive waste would spoil this beauty.

Please feel free to attach additional pages (if mailing, more postage may be needed).
