

Notice Refusal To Consent To Mina Rail Corridor

To: U.S. Department of Energy and all United States entities and agents.

The Mina Rail Corridor is a scam to involve the people in "collaboration" to invoke an implied agreement to a high level waste rail corridor through Esmeralda County which will effectively close thousands of acres of land to ranching and mining.

These peaceful people living in peace and harmony within Esmeralda County, Nevada hereby give notice to the United States Government that an agenda involving undisclosed plans and programs titled Mina Rail Corridor is not wanted, or needed and was not requested by these peaceful people. Your proposals will damage us monetarily and physically by restricting free travel and will disturb our safe, peaceful existence.

Further, a recent announcement by Senator Reid of the de-funding the Yucca Mountain repository project and the announced closing of the Nevada Test Site make this a mute point.

If the DOE wants to dwell on engineering a rail corridor to Yucca Mountain we suggest they use a route from an existing rail road in Caliente, Nevada through the test site, a mere 85 miles across government controlled land already closed to the people of Nevada.

United States plans cannot be imposed on peaceful people in Nevada without their consent or contract. By this notice, our refusal to consent to participate in your plan is hereby established for all to see and witness.

We who have witnessed in assembly below, remain in full compliance with applicable law and in perfect harmony with God's law and local law.

Witness our hand and Seal this 13th day of November, 2006.

Witnessed and Sealed by: Kenneth James Polman Silver Peak, NV.
Marge Holroyd P.O. Box 386 Caliente, Nev.
Norma Jameson P.O. Box 222 Silver Peak NV
Charles S. Jameson P.O. Box 222 Silver Peak NV

(Over)

Failure to respond within ten days is prima facie evidence of agreement by default.
