

# U.S. Department of Energy Supplemental Yucca Mountain Rail Corridor and Rail Alignment Environmental Impact Statement

## SCOPING COMMENT SHEET

### COMMENTS:

Having studied many areas and attending such workshops as this, we are in favor of the Yucca repository and Caliente Rail corridor.

The safety factor has been heavily ~~been~~ researched and it should be safe. Better than leaving it in open areas at powerplants.

We would like to see more nuclear powerplants opened.

Please feel free to attach additional pages (if mailing, more postage may be needed).
