SCOPING COMMENT SHEET

COMMENTS:

I keep hearing the comment why should we take the other states waste? Why can't it stay where it is at? I can very well see their point.

I am interested in how our community can benefit from this project, because I do believe the people, though opposed, will not be able to stop this.

I feel it would only be unsafe for us if an earthquake happened or some terrorist bombs a train, which I believe is very possible.

Please feel free to attach additional pages (if mailing, more postage may be needed).
