19 89001. Just to go on record, a lot of pros and cons,  
20 nobody has the answers for everybody's concerns. My  
21 only comment is that I am anti-nuclear and I do not  
22 wish to see this go through.

24 the current supply of waste that is available. I do  
25 agree we have to get rid of the waste that's
