Dear Ms. Ott,

In reference to the notice printed in the Federal Register on January 3, 1995, I am requesting further information concerning the DOE and its involvement with the transportation and emergency response training for radioactive waste. I would be interested in any new rules and/or regulations in place or being proposed, as well as any grant or assistance programs we may be eligible for. If you have any questions concerning our role or responsibilities, please feel free to write or call me at any time. Thank you for your assistance in this matter.

Sincerely,

Christopher Duffrin
