

Instructions for Application and Verification Form
for Residential Energy Tax Credit Certification

Premium Efficiency Wood & Pellet Stoves

Oregon Department of Energy

The Oregon Residential Energy Tax Credit Program provides a tax credit for new wood-burning and pellet stoves certified energy-efficient by the Oregon Department of Energy purchased on or after January 1, 2007. The appliance must be new and located in an Oregon dwelling that is your primary or secondary (vacation) residence. Stoves to be installed in manufactured homes should be listed and labeled for that purpose.

Lists of eligible stoves by manufacturer and model are updated regularly. Lists will be available from your stove dealer or from the Oregon Department of Energy. (Visit our Web site www.oregon.gov/energy or call us at 1-800-221-8035.)

In order to qualify, your premium efficiency wood and pellet stove must be installed with dedicated outside air. This combustion requirement can be satisfied with one of the following options:

- Duct directly connected to the stove (preferred)
- Duct terminates at the hearth with barometric or manual damper
- Duct with barometric damper within the room

The stove and damper installation must be in compliance with manufacturer's installation instructions and building code requirements. If your new premium efficiency wood or pellet stove is replacing an existing wood or pellet stove, the existing stove must be rendered unusable and permanently retired from service.

To qualify for a tax credit, you must have an Oregon income tax liability. You can carry forward unused tax credit amounts up to five years. If you are an Oregon resident and do not have an Oregon income tax liability, you may choose to transfer your tax credit to an individual or business with an Oregon tax liability using the Pass-through Option. You are responsible for finding the pass-through partner for this transfer. See section 4 of the Application and Verification Form for details.

Don't wait until tax season to apply for the tax credit as processing may take several weeks. You will receive certification that you will need when you file your tax return. You can apply for and claim the credit for the tax year you purchase the appliance as long as you place it in service by April 1 of the following year. Do NOT use this application form for the tax credit for purchase of pellets.

Take the following steps to receive your tax credit:

- 1. Verify that the stove you are buying is eligible for a tax credit.** Look up the stove you intend to buy by manufacturer and model number on the Oregon Department of Energy list of qualifying stoves. The tax credit you may claim is \$300 or 25 percent of the net purchase price of the stove (including combustion air ducting, but not chimney or flue costs), whichever is less.

2. **Install the stove with dedicated outside air for combustion.** The best option is to directly connect a duct from the outside. The next best option to meet this requirement is to connect a duct with a damper terminating near the hearth. Inserts may be able to use an existing ash cleanout with a barometric damper in the room to meet this requirement.
3. **Submit a completed Application and Verification Form for Tax Credit Certification - Premium Efficiency Wood & Pellet Stoves.** The form may be filled out and printed from your computer. Sign it and mail it with a copy of your receipt to the Oregon Department of Energy. The forms can NOT be filed online. Your receipt must clearly show the date, name of the stove dealer, the make and model of the stove and the amount paid. If you qualify for the tax credit, the Oregon Department of Energy will approve your application and send you a certification specifying the qualifying tax credit amount.
3. **Claim the tax credit on your state income tax form.** Keep your certification, a copy of your application, and proof of payment with your tax records. (Do not attach them to your tax return.) If your return is audited, the Oregon Department of Revenue will request copies of the information from you. You may carry forward any unused credit for up to five years.

If you have any questions, please call the Oregon Department of Energy toll-free: 1-800-221-8035. (In Salem, call 503-378-4040.) Or consult the Oregon Department of Energy Web site www.oregon.gov/energy. If you have questions concerning claiming the credit on your Oregon tax return, contact the Oregon Department of Revenue at 1-800-356-4222 or 503-378-4988.
