Footnotes

- 1/ The U.S. PS&D estimates conform to those released in the World Agricultural Supply and Demand Estimates (WASDE) with slight adjustments to import and export data to allow for the WASDE "miscellaneous" category. All data are presented on a fiscal year (October- September) basis. The U.S. PS&D includes Puerto Rico.
- 2/ Includes French overseas departments of Reunion, Guadeloupe, and Martinique. Domestic consumption was revised up to account for a change in ending stocks. MY 1991/92-1994/95 data include sugar containing products. MY 1995/96-1997/98 data do not include sugar containing products.
- 3/ Includes Bosnia-Herzegovina, Croatia, Macedonia, Montenegro, Serbia, and Slovenia.
- 4/ Includes Armenia, Azerbaijan, Georgia, Kyrgyzstan, Moldova, Tajikistan, and Turkmenistan.
- 5/ Includes Estonia, Latvia, and Lithuania.
- 6/ Includes Bahrain, Kuwait, Oman, Qatar, and the United Arab Emirates.
- 7/ Indian data include production of khandsari sugar, a native type, semi-white centrifugal sugar. Estimated output of khandsari sugar in thousands (raw value equivalent) is as follows: 1992/93 - 1,100; 1993/94 - 1,100; 1994/95 - 750; 1995/96 - 770; 1996/97 - 800; 1997/98 - 850.
- 8/ The "Unrecorded" category is a balancing mechanism to equalize world exports and imports. It is assumed that there is a certain quantity of imports which go unrecorded each year, with the results that imports appear unrealistically low. It is also assumed that these imports of sugar are consumed.
