VISN 7

Site: VA Central Alabama HCS (VAMC Montgomery - 619 and VAMC Tuskegee - 619A4)

Note: CHALENG data is collected from two surveys. The CHALENG Point of Contact (POC) Survey is a self-administered questionnaire completed by the local VA homeless veteran coordinator. The CHALENG Participant Survey is completed by federal, state, county, city, nonprofit and for-profit agency representatives, as well as local VA staff and homeless veterans themselves. Data was collected in the summer/fall of 2007.

A. Homeless Veteran Estimates (CHALENG Point of Contact Survey):

1. Estimated Number of Homeless Veterans: 200

2. Estimated Number of Veterans who are Chronically Homeless: 96

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions (Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf).

We used the following formula to obtain this number:

Estimated number of homeless veterans in service area **x chronically homeless rate:** percentage of individuals who have been homeless for a year or more or had at least four homeless episodes during the past three years AND have a mental health or substance abuse disorder). (Note: # of homeless veterans in the service area comes from 2007 CHALENG POC survey. "Chronically homeless rate" comes from FY 2007 homeless veteran intake data provided by the VA Northeast Program Evaluation Center. [Special thanks to Dr. Wes Kasprow, NEPEC investigator for providing this data.])

1. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2007 by local VA homeless program: 1

2. Housing Inventory

Housing Inventory	Beds*	# of additional beds site could use
Emergency Beds	658	34
Transitional Housing Beds	276	63
Permanent Housing Beds	190	63

*These are the number of beds that veterans can access, including both veteran-specific and non-veteran specific.

3. CHALENG Point of Contact Action Plan for FY 2008*

Halfway house or transitional living facility	Increase number of VA Grant and Per Diem beds by encouraging nonprofit organizations to submit proposals. Encourage existing program to expand.	
Long-term, permanent housing	Establish relationship with Housing Authority offices.	
VA disability/pension	Increase outreach to homeless veterans and link homeless veterans to VARO benefits officer.	

Number of Total Participant Surveys: 53

Percentage of Participant Surveys from Homeless Veterans: 44%

Note: CHALENG data is collected from two surveys. The CHALENG Point of Contact (POC) Survey is a self-administered questionnaire completed by the local VA homeless veteran coordinator. The CHALENG Participant Survey is completed by federal, state, county, city, nonprofit and for-profit agency representatives, as well as local VA staff and homeless veterans themselves. Data was collected in the summer/fall of 2007.

A. Homeless Veteran Estimates (CHALENG Point of Contact Survey):

1. Estimated Number of Homeless Veterans: 440

2. Estimated Number of Veterans who are Chronically Homeless: 198

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions (Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf).

We used the following formula to obtain this number:

Estimated number of homeless veterans in service area **x chronically homeless rate:** percentage of individuals who have been homeless for a year or more or had at least four homeless episodes during the past three years AND have a mental health or substance abuse disorder). (Note: # of homeless veterans in the service area comes from 2007 CHALENG POC survey. "Chronically homeless rate" comes from FY 2007 homeless veteran intake data provided by the VA Northeast Program Evaluation Center. [Special thanks to Dr. Wes Kasprow, NEPEC investigator for providing this data.])

1. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2007 by local VA homeless program: 10

2. Housing Inventory

Housing Inventory	Beds*	# of additional beds site could use
Emergency Beds	65	25
Transitional Housing Beds	57	30
Permanent Housing Beds	65	30

*These are the number of beds that veterans can access, including both veteran-specific and non-veteran specific.

Note: CHALENG data is collected from two surveys. The CHALENG Point of Contact (POC) Survey is a self-administered questionnaire completed by the local VA homeless veteran coordinator. The CHALENG Participant Survey is completed by federal, state, county, city, nonprofit and for-profit agency representatives, as well as local VA staff and homeless veterans themselves. Data was collected in the summer/fall of 2007.

A. Homeless Veteran Estimates (CHALENG Point of Contact Survey):

1. Estimated Number of Homeless Veterans: 157

2. Estimated Number of Veterans who are Chronically Homeless: 41

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions (Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf).

We used the following formula to obtain this number:

Estimated number of homeless veterans in service area **x chronically homeless rate:** percentage of individuals who have been homeless for a year or more or had at least four homeless episodes during the past three years AND have a mental health or substance abuse disorder). (Note: # of homeless veterans in the service area comes from 2007 CHALENG POC survey. "Chronically homeless rate" comes from FY 2007 homeless veteran intake data provided by the VA Northeast Program Evaluation Center. [Special thanks to Dr. Wes Kasprow, NEPEC investigator for providing this data.])

1. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2007 by local VA homeless program: 5

2. Housing Inventory

Housing Inventory	Beds*	# of additional beds site could use
Emergency Beds	282	100
Transitional Housing Beds	160	100
Permanent Housing Beds	125	55

*These are the number of beds that veterans can access, including both veteran-specific and non-veteran specific.

3. CHALENG Point of Contact Action Plan for FY 2008*

Long-term, permanent housing	Continue to partner with Humanities Foundation. Continue to work with our local Continuum of Care to support grant proposals to fund affordable housing.
Help with	Will continue to support Humanities Foundation to expand bus services
transportation	and address transportation issues via the Continuum of Care.
Education	Will partner with Trident Technical College and support "Upward Bound
	Program" for veterans to enhance education opportunities.

Number of Total Participant Surveys: 139 Percentage of Participant Surveys from Homeless Veterans: 71%

Service Types	VA has existing collaborative agreement with agencies?
Correctional Facilities (Jails, prisons, courts)	No
Psychiatric/substance abuse inpatient (hospitals, wards	No
Nursing homes	No
Faith-based organizations	No

VISN 7

Site: VAMC Tuscaloosa, AL - 679

Note: CHALENG data is collected from two surveys. The CHALENG Point of Contact (POC) Survey is a self-administered questionnaire completed by the local VA homeless veteran coordinator. The CHALENG Participant Survey is completed by federal, state, county, city, nonprofit and for-profit agency representatives, as well as local VA staff and homeless veterans themselves. Data was collected in the summer/fall of 2007.

A. Homeless Veteran Estimates (CHALENG Point of Contact Survey):

1. Estimated Number of Homeless Veterans: 110

2. Estimated Number of Veterans who are Chronically Homeless: 48

The federal Interagency Council on Homelessness defines chronic homelessness as follows:

A person experiencing chronic homelessness is defined as an unaccompanied individual with a disabling condition who has been continuously homeless for a year or more or has experienced four or more episodes of homelessness over the last three years. A disabling condition is defined as a diagnosable substance abuse disorder, serious mental illness, developmental disability, or chronic physical illness or disability, including the co-occurrence of two or more of these conditions (Federal Register Vol. 70, No. 53, March 21, 2005, page 13588; http://www.hud.gov/offices/adm/grants/nofa05/gensec.pdf).

We used the following formula to obtain this number:

Estimated number of homeless veterans in service area **x chronically homeless rate:** percentage of individuals who have been homeless for a year or more or had at least four homeless episodes during the past three years AND have a mental health or substance abuse disorder). (Note: # of homeless veterans in the service area comes from 2007 CHALENG POC survey. "Chronically homeless rate" comes from FY 2007 homeless veteran intake data provided by the VA Northeast Program Evaluation Center. [Special thanks to Dr. Wes Kasprow, NEPEC investigator for providing this data.])

1. Number of Homeless Veteran Families (veterans with minor dependents) Served in FY 2007 by local VA homeless program: 0

2. Housing Inventory

Housing Inventory	Beds*	# of additional beds site could use
Emergency Beds	13	10
Transitional Housing Beds	116	0
Permanent Housing Beds	9	50

*These are the number of beds that veterans can access, including both veteran-specific and non-veteran specific.

3. CHALENG Point of Contact Action Plan for FY 2008*

Long-term, permanent housing	The homeless coalition submitted an application for five additional Shelter Plus Care vouchers. We plan to use three of them for homeless veterans.
Halfway house or transitional living facility	The local Salvation Army was awarded ten VA Grant and Per Diem beds.
Help with finding a job or getting employment	We encourage veterans to participate in our VA Supported Employment program.

Number of Total Participant Surveys: 45

Percentage of Participant Surveys from Homeless Veterans: 80%
