

Grain: World Markets and Trade

World Corn Situation: U.S. Expected To Continue To Dominate Market

For 2006/07, the United States is expected to continue to dominate the global corn export market as a result of slack competition from most of the other major exporters. For China, although another bumper harvest is expected, domestic demand continues to rise as the livestock and poultry sectors are experiencing rapid growth and industrial use of corn is expanding. Greater meat consumption is largely due to higher incomes and urbanization. As a result of this strong growth, stocks are forecast to continue shrinking while exports are expected to remain at just a quarter of the level of 5 years ago. In Brazil, strong domestic growth is similarly limiting export potential. Argentine production is currently forecast to rebound, although those supplies will not be available until the new crop is harvested in March. This will provide a window of opportunity for U.S. corn during the first half of the trade year (Oct/Sep). U.S. export sales are already off to a fast start, with outstanding sales up by about 50 percent, and exports for the full year expected to climb to the highest in over a decade.

Circular Modifications:

FAS released a new version of PSD Online on August 31, 2006. It retains all of the ease-of-use and functionality of the current version, while incorporating some new features. It is available on the FAS website (<http://www.fas.usda.gov/psd/>).

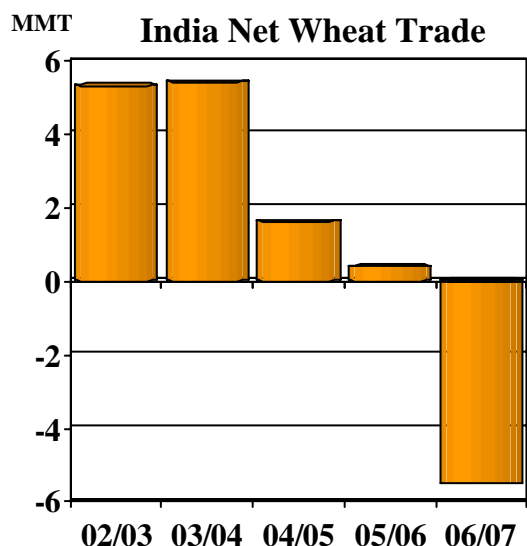

The new system allows us to overhaul this Circular so readers will notice a new look beginning this month. This revised format will be "in transition" over the next several months, as we make use of the expanded capabilities of the new PSD system.

Your comments on the new Circular will be welcome and can be sent to gfd@usda.gov. We thank you in advance for your patience over the next few months.

WHEAT: WORLD MARKETS AND TRADE

MONTHLY HIGHLIGHTS:

Indian Imports Jump: India's wheat imports are revised up this month to 6 million tons, the highest in 30 years. This would make India the world's fourth largest importer after Egypt, Brazil, and the European Union. Very tight beginning stocks and smaller production have caused prices to surge, and the State Trading Corporation of India (STC) has recently issued the fifth wheat import tender this year. With this, the total quantity tendered for imports by the STC has reached 5.5 million tons. In addition, the Minerals and Metals Trading Corporation of India (MMTC), another public sector trading company, imported 50,000 tons. Private millers and traders are also importing smaller quantities of wheat for milling and these private sector imports are expected to be as high as half a million tons this year.

PRICES:

Domestic: For August, prices rose, especially at the end of the month as supplies continued to tighten in many of the world's major exporters. For soft wheat, very strong export demand also supported prices; sales of Soft Red Winter are currently up 46 percent from last year, Soft White sales are up 20 percent. For the month, Soft Red Winter (SRW) prices rose \$17 and Soft White (SWS) prices rose \$9 per ton. Hard Red Winter (HRW) rose \$4 per ton, while Hard Red Spring (HRS) prices fell \$3 per ton.

U.S. Weekly FOB Export Bids

TRADE CHANGES IN 2006/2007

Selected Exporters

- **Argentina** is down 300,000 tons to 8.5 million on smaller crop prospects.
- **Bulgaria** is up 300,000 tons to 1.0 million on larger crop prospects and strong early season sales to the European Union under a beneficial tariff-rate quota.
- **Canada** is up 500,000 tons to 19.0 million--a 7-year high--as production is raised this month. In contrast to tight supplies in the rest of the world's exporters, Canadian supplies are at a 10-year high.
- **Ukraine** is up 500,000 tons to 4.0 million as high global prices encourage strong sales.

Selected Importers

- **Ethiopia** is down 200,000 tons to 500,000 as larger grain harvests reduce the need for foreign supplies.
- **India** is up 2.0 million tons to 6.0 million--a 30-year high--on very large recent purchases.
- **South Africa** is down 100,000 tons to 1.1 million as production is expected at the highest level in 4 years.

NOTES: Regional definitions appear on last page of this circular. Imports are reported on an international year basis. All other data are reported using marketing years.

RICE: WORLD MARKETS AND TRADE

PRICES:

International: Export prices in Thailand remained mostly steady last month. The 2006/07 program will begin in November; 100B is currently quoted at \$318 per ton, FOB, down \$3 from last month.

Viet 5% is currently quoted at \$265 per ton, FOB, up \$4 from last month, due to limited supplies. Indian prices are up; 5% is currently quoted at \$263 per ton, FOB. Prices have steadily increased since last month because of limited supplies, heavy loadings, and to a limited extent the government's price support program, though it does not take effect until later this fall.

Domestic: U.S. #2/4 long grain milled rice is quoted at \$423 per ton, FOB. The spread between comparable qualities of Thai and U.S. rice is \$105 per ton compared to \$8 per ton this time last year. Prices for U.S. remain unchanged from last month with #1/4 medium grain milled rice from California are currently quoted at \$475 per ton, FOB.

TRADE CHANGES FOR 2006

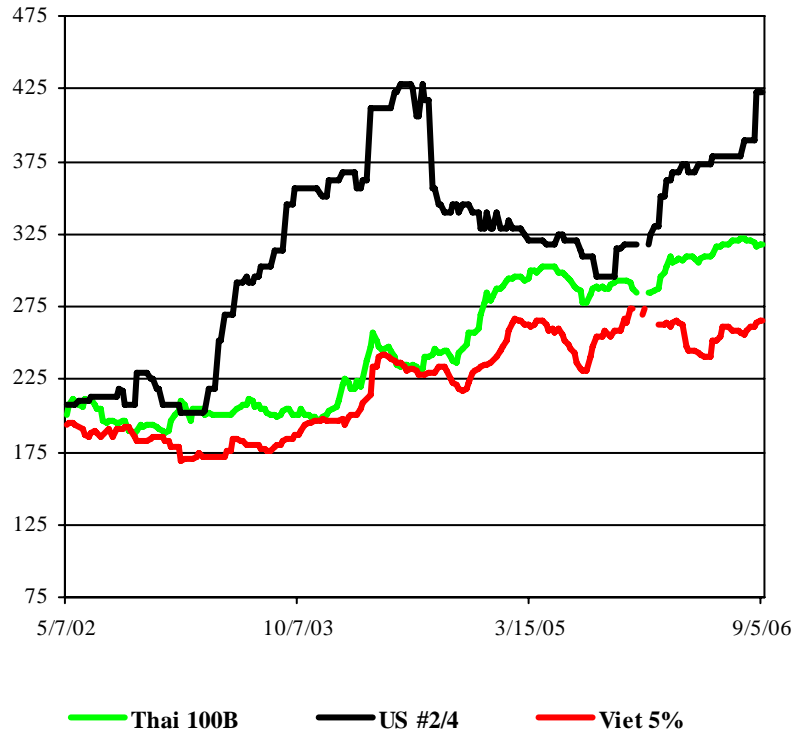

Selected Exporters

- **Burma** is down 75,000 to 125,000 tons due to the suspension of permits to private exporters in May 2006 in response to the rapid increase in domestic prices.
- **China** is up 100,000 to 900,000 tons based on a strong export pace that is well ahead of last year's at this same time.

Selected Importers

- **Indonesia** is up 300,000 tons to 900,000 tons on recent tender news and the expectation of another tender later this fall.

US \$ FOB **Nominal Rice Quotes – 2002 to Present**

-
- **Nigeria** is down 100,000 tons to 1.6 million tons as imports return to a more seasonal pattern in contrast to the same time last year when imports were unseasonably large.

TRADE CHANGES IN 2005

Selected Exporters

- Trade estimates are finalized based on year end data for **Pakistan**.

Selected Importers

- Trade estimates are finalized based on year end data for **Afghanistan, Canada, Iran, Iraq, Malaysia, and Saudi Arabia**.

COARSE GRAINS: WORLD MARKETS AND TRADE

MONTHLY HIGHLIGHTS:

MMT

Ukraine Expected to Be World's Largest Barley Exporter in 2006/07: Ukrainian exports have surged in recent years and are now expected to reach 5.0 million tons—a new record. During the late 1990s, exports averaged less than 1 million tons per year. This year's harvest was the largest in over a decade, primarily as a result of sharply higher area. Conditions last fall were very dry, restricting the planting of winter grains, and as a result, farmers shifted area to spring barley. This greater supply will allow Ukraine to surpass Australia as the world's largest supplier of barley. Australian production and exports are forecast to fall as the result of continued very dry conditions.

Ukraine to Surpass Australia in Exports

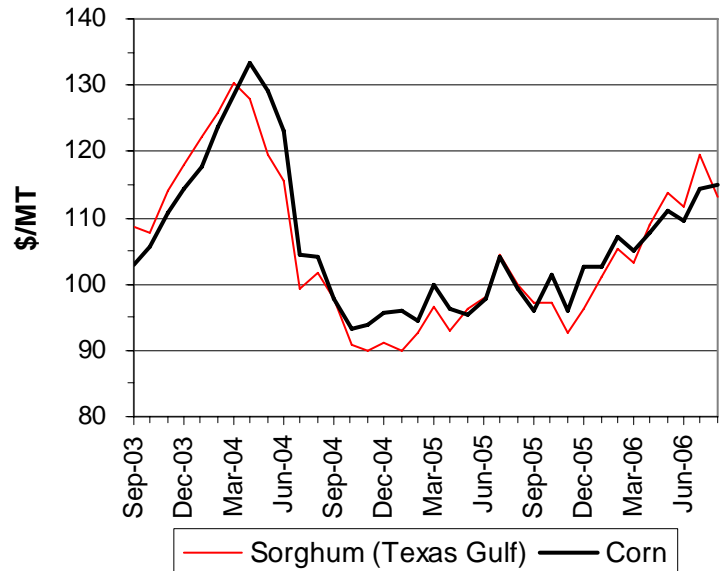

PRICES:

Domestic: August export bids for #2 yellow corn were up \$1 per ton to \$115. Bids for #2 yellow sorghum (Texas Gulf) dropped sharply by over \$6 to \$113 per ton.

Corn prices in August softened after USDA's crop report but were supported by continued strong exports and domestic demand. Sorghum export prices have returned to a discount to corn and have weakened with harvest pressure and slow exports.

U.S. Gulf Export Bids

TRADE CHANGES IN 2006/2007

Selected Exporters

- **United States corn** is raised 2.5 million tons to 57.0 million, the highest since 1994/95, because of strong new crop sales and the continued absence of significant export competition.
- **Australian barley** is lowered 300,000 tons to 4.5 million on lower production due to drought.

-
- **EU-25 corn** is cut in half to 500,000 tons with prospects for a reduced harvest and high domestic prices.
 - **Ukraine corn** is cut by 200,000 tons to 1.8 million because of prospects for the smallest crop in 4 years.
 - **Canada oats** is raised 100,000 tons to 1.6 million on less expected competition from subsidized EU oats.
 - **EU-25 oats** is lowered 50,000 tons to 250,000 on smaller crop prospects in Sweden.
 - **Ukraine barley** is up 400,000 tons to a record 5.0 million as tighter barley supplies in competitor countries will encourage exports.

Selected Importers

- **Colombia corn** is raised by 500,000 tons to a record 3.1 million because of strong demand from the poultry sector.
- **Iran corn** is up 700,000 tons to 2.5 million because of strong feed demand.
- **Taiwan corn** is raised 200,000 tons to 4.8 million because of firm feed demand.

TRADE CHANGES IN 2005/2006

Selected Exporters

- **United States corn** is up 1.5 million tons to 56.0 million, the highest in 11 years, because of a surge in shipments during August.
- **EU-25 barley** is lowered 400,000 tons to 2.5 million as a result of sluggish new crop exports in recent months.
- **Ukraine barley** is up 300,000 tons to 4.3 million on very strong new crop exports in recent months.
- **Brazil corn** is raised 500,000 tons to 1.9 million as a result of a faster shipment pace, especially to **Iran** (which itself has imports up 500,000 tons to 2.3 million).
- **South Africa corn** is down 200,000 tons to 1.2 million because of a slower shipment pace.

Selected Importers

- **Colombia corn** is up 400,000 tons to 3.0 million because of strong demand from the poultry sector.

-
- **Indonesia corn** is raised 300,000 tons to 1.3 million based on recent shipments.
 - **Mexico sorghum** is lowered 100,000 tons to 3.4 million because of slow shipments late in the season.
 - **Sudan sorghum** is raised 100,000 tons to 250,000 because of recent aid shipments.

Notes: Stocks, exports and consumption are expressed on a milled basis in marketing years. "Stocks as a Pe represents the ratio of marketing year ending stocks to total consumption.

ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE

REGIONAL TABLES

North America: Canada, Mexico, the United States.

Latin America: Central America, the Caribbean, South America.

EU: Austria, Belgium/Luxembourg, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Malta, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

Former Soviet Union: Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan.

Other Europe: Albania, Azores, Bosnia and Herzegovina, Bulgaria, Croatia, Gibraltar, Iceland, Macedonia, Norway, Romania, Serbia and Montenegro, Switzerland, Yugoslavia.

Middle East: Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates, Yemen.

North Africa: Algeria, Egypt, Libya, Morocco, Tunisia.

Other Africa: all African countries except North Africa.

South Asia: Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, Maldives.

Southeast Asia: Brunei, Burma, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Vietnam.

East Asia: China, Hong Kong, Japan, South Korea, North Korea, Macau, Mongolia, Taiwan.

Oceania: Australia, Fiji, New Zealand, Papua New Guinea.

OTHER NOTES

Stocks: Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

Consumption: World totals for consumption reflect total utilization, including food, seed, industrial, feed, and waste; as well as differences in marketing year imports and marketing year exports. Consumption statistics for regions and individual countries, however, reflect food, seed, industrial, feed, and waste only.

EU Consolidation: The trade figures for the EU-25 for the years 1999/00 through 2002/03 are inflated by the two-way trade between the two groups (EU-15 and acceding 10). Over the past 6 years, this “intra-trade” has averaged about 700,000 tons for wheat, 350,000 tons each for corn and barley, and 150,000 tons for rye. The trade figures also include intra-trade between members of the acceding 10. From 2003/04 onward, all intra-trade has been removed.

Statistics: (1) Wheat trade statistics include wheat, flour, and selected products on a grain equivalent basis. (2) Rice trade statistics include rough, brown, milled, and broken on a milled equivalent basis. (3) Coarse grains statistics include corn, barley, sorghum, oats, rye, millet, and mixed grains but exclude trade in barley malt, millet, and mixed grains.

Unaccounted: This term includes grain in transit, reporting discrepancies in some countries, and trade to countries outside the USDA database.

The Grain and Feed Division, Commodity and Marketing Programs, Foreign Agricultural Service, USDA, Washington DC 20250, prepared this circular. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attachés and Foreign Service officers, office research, and related information. Further information may be obtained by writing the Division or telephoning (202) 720-6219.

Note: The previous report in this series was the Grain: World Markets and Trade Foreign Agricultural Service Circular FG 08-06 August 2006. For further details on world grain production, see World Agricultural Production Foreign Agricultural Service Circular WAP 09-06 September 2006.

This circular is available in its entirety on the World Wide Web via the Foreign Agricultural Service Home Page. The address is: <http://www.fas.usda.gov>
