

Fermilab ILC Citizens' Task Force

Meeting Agenda

Tuesday, March 27, 2007

Wilson Hall, 11th Floor

7:00 Welcome and Introductions

7:20 A Brief Introduction to the ILC

7:45 Exploring Potential Community Values and Perspectives

We will work in small groups to explore the following questions:

- What are the core community values that Fermilab will need to consider as it moves forward to design and implement the ILC (this will be a starting list that will evolve over future meetings)?
- What do you think are the main questions that you will need to have answered about physics and the ILC in order for you to provide informed input?
- What do you think it would take to get your neighbors, spouse, co-workers, kids, etc. interested in physics and the ILC?

9:00 Report Backs and Discussion

9:30 Adjourn
