Foreword

The Office of the Assistant Attorney General, Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) is providing funds for the purchase of specialized training equipment for fire, emergency medical, hazardous materials response services, and law enforcement agencies as part of the Nunn-Lugar-Domenici (NLD) Domestic Preparedness Program (DPP). These funds represent the equipment component of a broader initiative designed to enhance the response capability of designated cities to respond to acts of terrorism involving the use of weapons of mass destruction (WMD).

The Nunn-Lugar-Domenici Domestic Preparedness Program was created under Title XIV of the National Defense Authorization Act of 1996 (Public Law 104-201, September 23, 1996), which authorized funding for the Department of Defense (DoD) to develop a domestic preparedness training and equipment program. The law directed that the Secretary of Defense act as the interagency lead to develop this program. However, under Sec. 1412(a)(2) and 1415(d)(1) of the legislation, the President was given authority to designate the head of another agency to assume responsibility for carrying out the program on or after October 1, 1999. On April 6, 2000, the President designated the Attorney General to assume programmatic and funding responsibilities for several elements of the Nunn-Lugar-Domenici Domestic Preparedness Program as of October 1, 2000. Funding was subsequently appropriated for this purpose under the Fiscal Year 2001 Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act (Public Law 106-553).

As part of this transfer, direct equipment grant awards are being provided for the procurement of personal protection, detection, and decontamination training equipment. These grants are provided in lieu of the equipment "loans" that were formerly provided by DoD under the Nunn-Lugar-Domenici Domestic Preparedness Program. As noted, OJP, under the auspices of the Office for State and Local Domestic Preparedness Support (OSLDPS), will administer these grants. Specialized training to assist cities with submission of their grant applications will be provided by OSLDPS at the upcoming NLD DPP Information and Technical Assistance Meeting.

I look forward to building on the positive relationships that currently exist between OJP and the state and local emergency response community in the implementation of this program.

Sincerely,

Mary Lou Leary
Acting Assistant Attorney General
Office of Justice Programs

I. Background

The Office of the Assistant Attorney General, Office of Justice Programs (OJP) is providing funds to cities participating in the Nunn-Lugar-Domenici (NLD) Domestic Preparedness Program (DPP) for the purchase of specialized training equipment for fire, emergency medical, hazardous materials response services, and law enforcement agencies. These funds represent the equipment component of the NLD DPP, and will be used to build the training capacity of these cities, and by extension, their capability to respond to acts of terrorism involving chemical and biological agents, as well as radiological, nuclear, and explosive devices.

II. The Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program

A. Authorized Program Purpose

Public Law 104-201, the National Defense Authorization Act of 1996, authorized funding for the Department of Defense to develop a domestic preparedness program to enhance the capability of federal, state and local emergency responders in incidents involving nuclear, biological and chemical terrorism. The law directed that the Secretary of Defense act as the interagency lead to develop this program; however, under Sec. 1412(a)(2) and 1415(d)(1) of the legislation, the President may designate the head of an agency other than the Department of Defense, to assume responsibility for carrying out the program on or after October 1, 1999. On April 6, 2000, the President designated the Attorney General to assume programmatic and funding responsibilities for several elements of the NLD DPP as of October 1, 2000. Funding was appropriated under the Fiscal Year 2001 Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act (Public Law 106-553) to the Office of Justice Programs to administer the NLD DPP.

As part of the NLD DPP's transfer to the Department of Justice, direct grant awards will be provided by the Department of Justice for the procurement of personal protection, detection, and decontamination training equipment. These grant awards are provided in lieu of the equipment "loans" formerly provided to cities participating in the program by the Department of Defense. As noted, the Office of Justice Programs, as part of its overall administration of the NLD DPP, will administer these grants. This equipment will enable these cities to build their training capacity, and by extension, to enhance their first response capabilities in the areas of fire, emergency medical, hazardous materials response services, and law enforcement at the state and local levels of government.

Concurrently with the NLD DPP, OSLDPS is administering the State Domestic Preparedness Equipment Program. Coordination of this program is being carried out by a state administrative agency (SAA) designated by the governor of each state (See Appendix F). As part of this effort, each SAA is tasked with coordinating a statewide assessment that will support the development of a state

strategic plan for first responder training, exercises, and equipment purchases. Because the NLD DPP and the OSLDPS State Domestic Preparedness Equipment Program address similar equipment needs, it is important that recipients of NLD DPP funding coordinate with the SAA when developing their equipment requests. It is likely that NLD DPP grant recipients will be asked by SAAs to participate in the statewide assessment process associated with the OSLDPS State Domestic Preparedness Equipment Program. If an NLD DPP applicant has already identified equipment needs through this statewide assessment process, equipment requests in this application should be consistent with the needs identified in their portion of the statewide assessment. To assist states in developing and implementing their strategic plans, OSLDPS will provide each NLD DPP applicant's approved equipment budget to their state's SAA.

Participation in the NLD DPP does not preclude applicants from simultaneously receiving equipment funds through the OSLDPS State Domestic Preparedness Equipment Program.

B. Unauthorized Program Expenditures

Expenditures for equipment such as vehicles and trailers, communications equipment, general-use laptop computers, computer monitors and printers, and video-monitoring equipment, as well as arms and ammunition, are not allowable under this grant.

Funds for this program may be used to enhance the capabilities of state and local first responders through the acquisition of personal protective, chemical, biological, and radiological detection, and decontamination training equipment in accordance with the Fiscal Year 2001 Authorized Equipment Purchase List (See Appendix E). These funds are available only for first responder basic defensive training equipment.

III. Funding Availability and Eligible Applicants

Eligible applicants are the chief executive officers (CEOs) in the cities listed below. However, if the municipal government is not responsible for the fire services, emergency medical services, hazardous materials response units, and/or law enforcement agencies in its jurisdiction, then the appropriate state or local agency that provides that service must be consulted in the development of the application.

All eligible applicants may receive awards of \$280,000 each for the procurement of first responder basic defensive training equipment.

VIII. Administrative Requirements

A. General Requirements

1. Single Point of Contact (SPOC) Review: Executive Order 12372 requires applicants from state and local units of government or other organizations providing services within a state to submit a copy of the application to the state SPOC, if one exists and if this program has been selected for review by the state. Applicants must contact their state SPOC to determine if the program has been selected for state review. The date that the application was sent to the SPOC or the reason such submission is not required should be provided.

2. Civil Rights: All recipients of federal grant funds are required to comply with nondiscrimination requirements contained in various federal laws. All applicants

should consult the assurances to review the applicable legal and administrative requirements of the statute that governs OJP-funded programs or activities. Section 809(c)(1), Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3789(d) of the Act provides that “no person in any state shall on the grounds of race, color, religion, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under or denied employment in connection with any programs or activity” in which federal law enforcement assistance is provided under this chapter. Recipients of assistance under the OJP Office for State and Local Domestic Preparedness Support are subject to the provisions of Section 809(c) of the Act; Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973, as amended; Title IX of the Education Amendments of 1972; the Age Discrimination Act of 1975; and the U.S. Department of Justice Non-Discrimination Regulations, 28 CFR part 42, subparts C, D, E, and G.

If any court or administrative agency makes a finding of discrimination on the grounds of race, color, religion, national origin, gender, disability, or age against a recipient of funds after a due process hearing, the recipient must agree to forward a copy of the finding to the OJP Office of Civil Rights. If the applicant is applying for a grant of \$500,000 or more, U.S. Department of Justice regulations (28 CFR 42.301) require an Equal Employment Opportunity Plan. The plan should be included with the application submission if it is not already on file.

3. Administrative Provisions: For the purposes of the Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program, the limitations cited in this section and all other administrative provisions authorized under sections 801–809 of the of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (hereafter referred to as the Act), shall apply.

a. Land acquisition. No funds shall be used for land acquisition.

b. Civil justice. No funds or other assistance shall be used with respect to civil justice matters except to the extent that such civil justice matters bear directly and substantially on criminal justice matters or are inextricably intertwined with criminal justice matters.

c. Federal law enforcement personnel. Nothing in the enabling legislation authorizes the use of federal law enforcement personnel to investigate violations of criminal law other than violations with respect to which investigation is authorized by other provisions of the law.

d. Direction, supervision, and control. Nothing in the enabling legislation shall be construed to authorize the Attorney General or the federal law enforcement community to exercise any direction, supervision, or control over any police force or other criminal justice agency of an applicant for federal law enforcement assistance.

B. Financial Requirements

1. Non-Supplanting Certification: This certification, which is a required component of the on-line application, affirms that federal funds will be used to supplement existing funds for equipment purchases and will not replace (supplant) funds that have been appropriated for the same purpose. Potential supplanting will be addressed in the application review as well as in the preaward review, postaward monitoring, and the audit. Applicants or grantees may be required to supply documentation certifying that a reduction in non-federal resources occurred for reasons other than the receipt or expected receipt of federal funds.

2. Match Requirement: None

3. Audit Requirement: Jurisdictions must comply with the organizational audit requirements of OMB Circular A-128, which states that a recipient that receives more than \$25,000 in federal funds during its fiscal year is required to submit an audit report to its cognizant federal agency. Recipients that receive less than \$25,000 in federal funds are exempt from audit requirements. The Attorney General and the Comptroller General of the United States shall have access, for audit and examination, to any books, documents, and records of recipients of the Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program assistance provided under this subdivision that, in the opinion of the Attorney General or the Comptroller General, are related to the receipt or use of such assistance. The grantee will give the sponsoring agency or the Comptroller General, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the grant.

4. Certifications Regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirement: This certification, which is a required component of the on-line application, commits the applicant to compliance with the certification requirements under 28 CFR part 69, New Restrictions on Lobbying, and 28 CFR part 67, Governmentwide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants). The certification will be treated as a material representation of the fact upon which reliance will be placed by the U.S. Department of Justice in awarding grants.

5. Suspension or Termination of Funding: The Office of Justice Programs may suspend or terminate funding, in whole or in part, or other measures may be imposed for any of the following reasons:

- Failing to comply substantially with the requirements or statutory objectives of the Violent Crime Control and Law Enforcement Act of 1994, program guidelines issued thereunder, or other provisions of federal law.
- Failing to make satisfactory progress toward the goals or strategies set forth in this application.

-
- Failing to follow grant agreement requirements or standard or special conditions.
 - Proposing or implementing substantial plan changes to the extent that, if originally submitted, the application would not have been selected for funding.
 - Failing to submit required reports.
 - Filing a false certification in this application or other report or document.

Before taking action, OJP will provide the grantee reasonable notice of intent to impose measures and will make efforts to resolve the problem informally. Hearing and appeal procedures must comport with U.S. Department of Justice regulations in 28 CFR part 18.

Fiscal Year 2001 Authorized Equipment Purchase List

Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Program Authorized Training Equipment Purchase List

The Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program authorized training equipment purchase list was derived in part from the Standardized Equipment List (SEL) developed by the Interagency Board (IAB) for Equipment Standardization and Interoperability, and from an assortment of associated training equipment already in use by NLD DPP participants who received their equipment packages or loans through the Department of Defense.

The IAB compiled the SEL to delineate the types of equipment necessary for terrorist incident response. Because the SEL also contains lists of general use and support equipment, a more narrow list was derived from the SEL to identify the specific types of training equipment authorized for purchase under the Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program. This training equipment falls into three distinct categories: 1) personal protective equipment (PPE); 2) chemical/biological detection equipment; and, 3) decontamination equipment. A cross-section of officials representing the Public Health Service (PHS), the Federal Emergency Management Agency (FEMA), the U.S. Department of Energy (DOE), the U.S. Department of Justice (OJP and FBI), and State and local hazardous materials experts assisted in the development of this authorized equipment purchase list and in identifying unallowable items.

When using this list, Fiscal Year 2001 Nunn-Lugar-Domenici Domestic Preparedness Equipment Program participants are advised to focus on types of training equipment similar to those they would employ in responding to an actual WMD incident. Since training is an important aspect of this program, equipment purchased through this grant should be viewed as a key component of each city's WMD incident training methodology and preparations.

Authorized equipment purchases may be made in the following categories:

1. Personal Protective Equipment (PPE)
2. Chemical, Biological, or Radiological Detection Equipment
3. Decontamination Equipment

1. Personal Protective Equipment. Equipment that is worn to protect the individual from hazardous materials and contamination. Protection may vary and is divided into four levels based on the degree of protection afforded.

Level A. Selected when the greatest level of skin, respiratory, and eye protection is required. The following items constitute Level A equipment for consideration:

- Reusable or limited-use fully encapsulated chemical resistant suit ensemble
 - Butyl hoods and gloves
 - Reusable fully encapsulated training suits
 - Testing equipment for fully encapsulated suits
 - Closed circuit rebreather* or open circuit self contained breathing apparatus (SCBA) or, when appropriate, Supplied Air Breathing Apparatus (SABA)
 - Spare cylinders for rebreathers or SCBA and service/repair kits
 - Chemical resistant gloves, including thermal, as appropriate to hazard
 - Personal Cooling System; vest or full suit with support equipment
 - Chemical Resistant Boots, steel or fiberglass toe and shank
 - Personnel Accountability System (specific to SCBA use only)
-

-
- HAZMAT gear bag

*Due to cost and utility of closed circuit rebreathers a full and complete justification must be provided to obtain approval to purchase the equipment.

Level B. Should be used when the highest level of respiratory protection is necessary but a lesser level of skin protection is required. The following constitute Level B equipment and should be considered for use:

- Hooded Chemical Resistant Clothing or Full Coverage Level B Suits
- Butyl hoods and gloves
- Closed circuit rebreather* or open circuit SCBA or, when appropriate, SABA
- Spare cylinders for rebreathers, SCBA, or SABA, and service/repair kits
- Chemical resistant gloves, including thermal, as appropriate to hazard
- Personal Cooling System; vest or full suit with support equipment
- Chemical Resistant Boots, steel or fiberglass toe and shank
- HAZMAT gear bag

* Due to cost and utility of closed circuit rebreathers, a full and complete justification must be provided to obtain approval to purchase the equipment.

Level C. Should be used when the concentration(s) and type(s) of airborne substances are known and the criteria for using air-purifying respirators are met. The following constitute Level C equipment and should be considered for use:

- Hooded Chemical Resistant Clothing
- Butyl hood and gloves
- Full Face Air Purifying Respirators with appropriate cartridges or positive pressure units (Powered Air Purifying-PAPR)
- Personal Cooling System; vest or full suit with support equipment
- Chemical Resistant Boots, steel or fiberglass toe and shank
- HAZMAT gear bag
- Emergency Escape Breathing Apparatus (EEBA) 10 minutes or longer

Level D. Selected when no respiratory protection and minimal skin protection is required, and the atmosphere contains no known hazard and work functions preclude splashes, immersion, or the potential for unexpected inhalation of, or contact with, hazardous levels of any chemicals.

- Escape mask for self-rescue

2. Chemical, Biological, or Radiological Detection Equipment. Equipment to monitor, sample, identify, and observe chemical, biological, or radiological contamination throughout area or at specific points, and those items to support detection activities.

Chemical and Radiological

- M-8 Detection Paper for Chemical Agent (weapons grade) detection
 - M-9 Detection Paper (roll) for Chemical Agent (weapons grade) detection
 - M-256 Detection Kit for Chemical Agent (weapons grade—blister: CX/HD/L; blood: AC/CK; and nerve: GB/VX) detection
 - M-256 training kit
 - Hazard Categorizing (HAZCAT) Kit
 - Point Chemical Agent Detector and Alarm
 - Stand-Off Chemical Detector, FTIR (infrared)
-

-
- Handheld Chemical Agent Monitor with training set
 - Container Sample Transfer/Small Infectious Substance
 - Air and Liquid Detector Tube System
 - Colorimetric tube/chip kit with additional tubes/chips
 - Multigas meter
 - Combustible gas indicator
 - Photoionization Detector (PID)
 - Flame Ionization Detector (FID)
 - Radiation monitoring equipment (pancake probes and gigometer tubes)
 - Electronic Radiation Detection
 - Radiological dosage meter such as self-reading dosimeters, chargers, and film badges
 - Pesticide screening kit

Biological

- Specific Bioimmunoassay Test Kit
- Biological Sampling Kit with Aerosol Collector

3. Decontamination Equipment. Equipment and material used to clean, remediate, remove, or mitigate chemical or biological contamination. DOE possesses geographically dispersed capabilities to handle nuclear or radiological contamination.

Chemical

- M-295 individual decontamination kit for chemical warfare agents
 - Decontamination system for individual and mass application:
 - Decontamination system supplies
 - Water Bladder, Decontamination Shower Waste Collection
 - Trailer, Multiwater Source, and Prime Mover (must be appropriate for tier level response of Tier Three level or Tier Four level only)*
 - Emergency Decontamination Shelters
 - Reusable Decontamination litters/roller systems
 - Reusable Extraction Litters, rollable
 - Colored/nonviewable cadaver bags (CDC standard/Non-permeable and NBC Compatible)
 - Transportation and shipping containers for contaminated clothing and equipment (requires justification for tier level use)
