<sup>a</sup> Includes supplemental gaseous fuels.

<sup>b</sup> "Other" is the subtotal of 16 petroleum products. See a full description in the Technical Notes, Section 4, "Other Petroleum Products."

<sup>c</sup> Conventional hydroelectric power. Does not include pumped-storage hydroelectricity.

<sup>d</sup> Wood and waste.

<sup>e</sup> U.S. total includes 44.2 trillion Btu of net imports of coal coke that has not been allocated to the States.

<sup>f</sup> Incurred in the generation, transmission, and distribution of electricity plus plant use and unaccounted for electrical system energy losses.

Where shown, (s) = Value less than 0.05 trillion Btu.

Note: Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
