Part 1 Instructions to Bidders

This solicitation, called the Master Solicitation for Commodity Procurements (MSCP), is used for the solicitation of bids and award of contracts for various commodities under domestic and foreign food assistance programs administered by the Kansas City Commodity Office (KCCO). KCCO will periodically issue invitations for bids (IFB), available at <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=coop&topic=pas>, requesting the particular commodities being procured. Each IFB will contain a web link to the MSCP.

Bidders are required to read the MSCP, IFB, and USDA Commodity Requirements to understand the solicitation, evaluation, and award process for KCCO commodity acquisitions. The MSCP will be updated as necessary to incorporate changes in law, regulation, and acquisition policies and procedures. Bidders should not assume that a copy of the MSCP, once downloaded, will remain effective. The effective date at the top of the MSCP document will govern which version of MSCP is applicable to a particular IFB. Current changes to the MSCP will be highlighted in each version. Prior versions of the MSCP will be archived and available.

The following web sites are being provided to potential bidders to obtain the full text of the applicable Federal Acquisition Regulation (FAR), and the Agriculture Acquisition Regulation (AGAR) provisions and clauses incorporated in the contract:

In the event that the contractor, for its own convenience, elects to by-pass the Government's nominated vessels to load a vessel which filed and was accepted later than the Government's nominated vessel, such action will be construed as failure or refusal of the contractor to perform.
- (e) Contractor will be liable to the Government for any actual damages suffered by the Government resulting from failure or refusal of the contractor to perform, which is not excusable under the Excusable Delay clause. Such actual damages may include, but are not limited to, the cost of demurrage, inter-port vessel relocation, vessel discharge costs, reprocurement costs, and claims by carriers for damages resulting from delays in loading resulting from the commodity not being available for loading, or for delays or slowness of the vessel loading.

The results of the checkloading will be reported on a commodity inspection certificate. The cost of checkloading, wherever performed, shall be for the account of the contractor. Checkloading shall not relieve the contractor of its responsibility to deliver a product
