Introduction

The 2006 *Federal Credit Supplement* provides summary information about Federal direct loan and loan guarantee programs subject to the Federal Credit Reform Act (FCRA) of 1990, as amended by the Balanced Budget Act of 1997. The printed version of the 2006 *Supplement* contains abbreviated versions of tables 7 and 8, showing only the five most recent cohorts for each program. All cohorts appear for programs that have five or fewer cohorts. The full versions of tables 7 and 8, which include all open cohorts for each program, may be found in the electronic version of the *Supplement* which is located at <http://www.budget.gov/budget>. The credit activities of deposit insurance and other insurance programs are exempt from FCRA and do not appear in this *Supplement*.

Tables 1 and 2 provide 2005 and 2006 subsidy rates, obligations/commitments, and average loan size for direct loans and loan guarantees programs, as well as the program's BEA classification under the Budget Enforcement Act (BEA) of 1990 as discretionary or mandatory (see the "Budget System and Concepts" chapter in the *Analytical Perspectives* volume of the 2006 *Budget* for additional information about BEA categories).

Tables 3 and 4 provide information about the major components of 2005 subsidy rates and about the characteristics of direct and guaranteed loans, respectively. Tables 5 and 6 provide the same information for direct and guaranteed loans included in the President's 2006 budget request. The four components of the subsidy (defaults, net of recoveries; interest; fees; and all other) are reported on a present value basis, the sum of which equals the estimated subsidy rate. Loan characteristics describe the terms of the loan agreement between the borrower and the agency or lender. Except for loan maturity and grace period, which are expressed in years, all characteristics are expressed as a percentage. Grace period may be for repayment of principal and/or interest.

Tables 7 and 8 provide information on the lifetime reestimates of 1992-2004 direct loan and loan guarantee cohorts, by agency, program, bureau and risk category. The tables show, for each cohort, the original subsidy rate used at the point of obligation or commitment, the current reestimated subsidy rate, the breakout between the interest and technical portions of the subsidy reestimate, and the total dollar amount of the reestimate. Some cohorts displayed in this year's Supplement have closed, i.e., there are no outstanding direct or guaranteed loans in the cohort and no further activity is expected. These cohorts are identified in a footnote and will not be displayed in future *Supplements*.

Tables 9 and 10 show the rate at which the 2006 cohorts of direct loans and guaranteed loans are expected to disburse.

* Nonzero amount rounds to zero, based on units for this column.

¹ Lifetime defaults as a percentage of disbursements.

² Recoveries as a percentage of lifetime defaults.

³ Stafford loans include a six-month grace period.

⁴ Recoveries include interest and penalties.

⁵ Rates are set at the weighted rate of the loans consolidated, rounded up to the nearest eighth of a percent.

⁶ Rates for loans originated before July 1, 2006 are set at the weighted rate of the loans consolidated, rounded up to the nearest eighth of a percent. Under the legislative proposal, rates for loan originated on or after July 1, 2006 would carry a variable interest rate, reset annually.

⁷ Under current law, rates for loans originated on or after July 1, 2006 carry a fixed interest rate. The legislative proposal contains variable interest rates for these loans.

⁸ Initial annual fees are 0.75% for 5 years and then 0.5% until loan amortizes to 78% of the original mortgage amount.

⁹ Borrowers are charged a \$30,000 application fee, an annual loan servicing fee, and a credit processing fee.
