Photographs of missing children. The Internal Revenue Service is a proud partner with the National Center for Missing and Exploited Children. Photographs of missing children selected by the Center may appear in this publication on pages that would otherwise be blank. You can help bring these children home by looking at the photographs and calling **1-800-THE-LOST (1-800-843-5678)** if you recognize a child.

Paid preparer authorization. Beginning with your return for 2000, you can check a box and authorize the IRS to discuss your tax return with the paid preparer who signed it. If you check the "Yes" box in the signature area of your return, the IRS can call your paid preparer to answer any questions that may arise during the processing of your return. Also, you are authorizing your paid preparer to perform certain actions. See your income tax package for details.

Introduction

If your deductions for the year are more than your income for the year, you may have a net operating loss (NOL). You can use an NOL by deducting it from your income in another year or years.

What this publication covers. This publication discusses NOLs for individuals, estates and trusts. It covers:

- How to figure an NOL,
- When to use an NOL,
- How to claim an NOL deduction, and
- How to figure an NOL carryover.

What is an NOL? Examples of typical losses include, but are not limited to, losses incurred from:

- Your trade or business,
- Your work as an employee (unreimbursed employee business expenses),
- Casualty and theft losses,
- Moving expenses, and
- Rental property.

A loss from operating a business is the most common reason for an NOL.

Partnerships and S corporations generally cannot use an NOL. But partners or shareholders can use their separate shares of the partnership's or S corporation's business income and business deductions to figure their individual NOLs.

What is not covered in this publication?

The following topics are not covered in this publication.

- Bankruptcies. See Publication 908, *Bankruptcy Tax Guide*.
- NOLs of Corporations. See Publication 542, *Corporations*.
- Specified liability losses. See the Form 1045 instructions.

NOL Steps

Figure and use your NOL in the following steps:

Step 1. Complete your tax return for the year. You may have an NOL if a negative figure appears on the line below:

Individuals — line 37 of Form 1040.

Estates and trusts — line 22 of Form 1041.

If the amount on that line is zero or more, **stop here** — you do not have an NOL.

Step 2. Determine whether you have an NOL and its amount. See *How To Figure an NOL*, later. If you do not have an NOL, **stop here**.

Step 3. Decide whether to carry the NOL back to a past year or to choose to waive the carryback period and instead carry the NOL forward to a future year. See *When To Use an NOL*, later.

Step 4. Deduct the NOL in the carryback or carryforward year. See *How To Claim an NOL Deduction*, later. If your NOL deduction is equal to or smaller than your taxable income without the deduction, **stop here** — you have used up your NOL.

Step 5. Determine the amount of your unused NOL. See *How To Figure an NOL Carryover*, later. Carry over the unused NOL to the next carryback or carryforward year and begin again at Step 4.

Note. If your NOL deduction includes more than one NOL amount, apply Step 5 separately to each NOL amount, starting with the amount from the earliest year.

How To Figure an NOL

If your deductions for the year are more than your income for the year, you have a potential NOL.

There are rules that limit what you can deduct when figuring an NOL. In general, you cannot deduct the following items.

- 1) Personal exemptions.
- 2) Capital losses in excess of capital gains.
- 3) The section 1202 exclusion of 50% of the gain from the sale or exchange of qualified small business stock.
- 4) Nonbusiness deductions in excess of nonbusiness income.
- 5) Net operating loss deduction.

Schedule A (Form 1045). Use Schedule A (Form 1045) to figure an NOL. This discussion explains Schedule A and includes an illustrated example.

First, complete lines 1-3 of Schedule A, using amounts from your return. If line 3 is a negative amount, you have a net loss and a potential NOL.

Next, complete the rest of Schedule A to figure your NOL. Adjust the amount on line 3 for deductions that are allowed when figuring your taxable income, but not when figuring an NOL. The following discussions explain these adjustments.

Adjustment for exemptions (line 4). You cannot deduct your personal exemption or your exemptions for dependents. An estate or trust cannot deduct its exemption amount. Your adjustment is the total amount you deducted for exemptions.

Adjustment for nonbusiness deductions (line 12). You can deduct your nonbusiness deductions (line 9) only up to the total of:

- 1) Your nonbusiness capital gains that are more than your nonbusiness capital losses (not including any section 1202 exclusion shown as a loss on Schedule D of Form 1040) (line 8), and

- 2) Your nonbusiness income other than capital gains (line 10).

Your adjustment is your nonbusiness deductions that are more than the total of (1) and (2).

Nonbusiness deductions (line 9). Enter on line 9 as your nonbusiness deductions only those that are not related to your trade or business or your employment. For example, enter your deductions for alimony, contributions to an IRA or other self-employed retirement plan, and your itemized deductions, except for casualty and theft losses, and any employee business expenses. If you do not itemize deductions, include your standard deduction.

Do **not** include your deduction for one-half of your self-employment tax or your deduction for self-employed health insurance. Treat these items as business deductions.

Also, do not include your deductions for expenses that are ordinary and necessary in carrying on your trade or business or your employment, or related deductions for the following items.

- 1) If you itemize your deductions, employee business expenses, such as, union dues, uniforms, tools, education expenses, and travel and transportation expenses.
- 2) If you itemized your deductions, casualty and theft losses, even if they involve nonbusiness property.
- 3) Your share of a business loss from a partnership or an S corporation.
- 4) Moving expenses.
- 5) State income tax on business profits.
- 6) Interest and litigation expenses on state and federal income taxes related to your business income.
- 7) Payments by a federal employee to buy back sick leave used in an earlier year.
- 8) Loss on property you rent out.
- 9) Loss on the sale or exchange of business real estate or depreciable business property.
- 10) Loss on the sale of accounts receivable (if you use an accrual method of accounting).
- 11) Loss on the sale or exchange of stock in a small business corporation or a small business investment company, if treated as ordinary loss.
- 12) Unrecovered investment in a pension or annuity claimed on a decedent's final return.

Nonbusiness income (line 10). Enter on line 10 only income that is not related to your trade or business or your employment. For example, enter your annuity income, dividends, and interest on investments. Also, include your share of nonbusiness income from partnerships and S corporations.

Do **not** include the income you receive from your trade or business or your employment. This includes salaries and wages, self-employment income, and your share of business income from partnerships and S corporations. Also, do not include rental income or ordinary gain from the sale or other disposition of business real estate or depreciable business property.

Adjustment for section 1202 exclusion (line 20). Enter on line 20 any gain you excluded on the sale or exchange of qualified small business stock.

Adjustments for capital losses (lines 24 and 25). You can deduct your nonbusiness capital losses (line 5) only up to the amount of your nonbusiness capital gains (line 6), without regard to any section 1202 exclusion. If your nonbusiness capital losses are more than your nonbusiness capital gains, you cannot deduct the excess.

You can deduct your business capital losses (line 14) only up to the total of:

- 1) Your nonbusiness capital gains that are more than the total of your nonbusiness capital losses and excess nonbusiness deductions (line 13), and
- 2) Your total business capital gains (line 15), without regard to any section 1202 exclusion.

The adjustment on line 24 is your capital loss deduction (line 22) that is more than your net capital loss without regard to any section 1202 exclusion (line 21).

Your adjustment on line 25 is your non-deductible capital losses (line 18) that are more than the nondeductible net capital loss on your return (line 23), without regard to any section 1202 exclusion claimed on Schedule D. (You had a nondeductible net capital loss

if your net capital loss was more than your capital loss deduction.)

Adjustment for NOL deduction (line 26). You cannot deduct any NOL carryovers or carrybacks from other years. Your adjustment is the total amount of your NOL deduction for losses from other years.

Illustrated Schedule A (Form 1045)

The following example illustrates how to figure an NOL. It includes filled in pages 1 and 2 of Form 1040 and Schedule A (Form 1045).

Example. Glenn Johnson is in the retail record business. He is single and has the following income and deductions on his Form 1040 for 2000.

INCOME	
Wages from part-time job	\$1,225
Interest on savings	425
Net long-term capital gain on sale of real estate used in business	<u>2,000</u>
Glenn's total income	<u>\$3,650</u>
DEDUCTIONS	
Net loss from business (gross income of \$67,000 minus expenses of \$72,000)	\$5,000
Net short-term capital loss on sale of stock	1,000
Standard deduction	4,400
Personal exemption	<u>2,800</u>
Glenn's total deductions	<u>\$13,200</u>

Glenn's deductions exceed his income by \$9,550 (\$13,200 – \$3,650). However, to figure whether he has an NOL, he must modify certain deductions. He uses Schedule A (Form 1045) to figure his NOL. See the illustrated Schedule A (Form 1045) included later.

Glenn cannot deduct the following items on Schedule A (Form 1045).

Nonbusiness net short-term capital loss	\$1,000
Nonbusiness deductions (standard deduction, \$4,400) minus nonbusiness income (interest, \$425)	3,975
Personal exemption	<u>2,800</u>
Total adjustments to net loss	<u>\$7,775</u>

Therefore, Glenn's NOL for 2000 is figured as follows:

Glenn's total 2000 income	\$3,650
Less:	
Glenn's original 2000 total deductions	\$13,200
Less:	
Glenn's total adjustments to net loss (above)	<u>- 7,775</u>
Glenn's NOL for 2000	<u>\$1,775</u>

When these items are eliminated, Glenn's net loss is reduced to \$1,775 (\$9,550 – \$7,775).

For the year Jan. 1–Dec. 31, 2000, or other tax year beginning _____, 2000, ending _____, 20 OMB No. 1545-0074

When To Use an NOL

Generally, you must carry back the entire amount of the NOL to the 2 tax years before the NOL year (the carryback period), and then carry forward any remaining NOL for up to 20 years after the NOL year (the carryforward period). You can, however, choose not to carry back an NOL and carry it forward only. See *Waiving the carryback period*, later. The "NOL year" is the year in which the NOL occurred. You cannot deduct any part of the NOL remaining after the 20-year carryforward period.

Exceptions to 2-year carryback rule. Eligible losses and farming losses qualify for longer carryback periods.

Eligible loss. The carryback period for an eligible loss is 3 years. An eligible loss is any part of an NOL that:

- 1) Is from a casualty or theft, or
- 2) Is attributable to a Presidentially declared disaster for a qualified small business or a farming business (defined later).

Only farming losses that are attributable to Presidentially declared disasters in tax years that began after August 5, 1997, and before January 1, 1998, are considered "eligible losses" subject to a 3-year carryback period. Otherwise, all farming losses are considered "farming losses" subject to a 5-year carryback period.

Farming loss. The carryback period for a farming loss is 5 years. A farming loss is the **smaller** of:

- 1) The amount which would be the NOL for the tax year if only income and deductions attributable to farming businesses were taken into account, or
- 2) The NOL for the tax year.

You can choose to treat a farming loss as if it were not a farming loss. If you make this choice, the carryback period will be 2 years. To make this choice, attach a statement to your 2000 income tax return filed on or before the due date (including extensions) that you are choosing to treat any 2000 farming losses as if they were not farming losses under section 172(i)(3) of the Internal Revenue Code. Also, if you filed your return timely without making that choice, you may still make the choice by filing an amended return within 6 months of the due date of the return (excluding extensions). Attach a statement to your amended return and write "Filed pursuant to section 301.9100-2" on the statement. File your amended return at the same address that you filed your original return. Once you make this choice, it is irrevocable.

Note. A waiver of the 5-year carryback for a farming loss would make the loss subject to the normal 2-year carryback rule. If, however, you choose not to carry back any of your farming loss, you need to attach a statement to your 2000 income tax return clearly identifying what carryback or carryovers are being completely waived and stating that you are waiving them under sections 172(b)(3) and 172(i)(3) of the Internal Revenue Code.

Farming business. A farming business is a trade or business involving the cultivation of land, the raising or harvesting of any agricultural or horticultural commodity, operating a nursery or sod farm, the raising or harvesting of trees bearing fruit, nuts, or other crops, or ornamental trees. The raising, shearing, feeding, caring for, training, and management of animals is also considered a farming business.

A farming business does not include contract harvesting of an agricultural or horticultural commodity grown or raised by someone else. It also does not include a business in which you merely buy or sell plants or animals grown or raised by someone else.

Qualified small business. A qualified small business is a sole proprietorship or a partnership that has average annual gross receipts (reduced by returns and allowances) of \$5 million or less during the 3-year period ending with the tax year of the NOL. If the business did not exist for this entire 3-year period, use the period the business was in existence.

Waiving the carryback period. You can choose not to carry back your NOL. If you make this choice, then you can use your NOL only in the 20-year carryforward period. (This choice means you also choose not to carry back any alternative tax NOL.)

To make this choice, attach a statement to your tax return filed by the due date (including extensions) for the NOL year or to an amended return for the NOL year filed within 6 months of the due date of your original return (excluding extensions). This statement **must** show that you are choosing to waive the carryback period under section 172(b)(3) of the Internal Revenue Code.

If you do not file this statement on time, you cannot waive the carryback period. If you filed your return timely but did not file the statement with it, you must file the statement with an amended return for the NOL year within 6 months of the due date of your original return (excluding extensions). Write "Filed pursuant to section 301.9100-2" on the statement.

Once you make this choice, you cannot change it because it is irrevocable. If you choose to waive the carryback period for more than one NOL, you must make a separate choice and attach a separate statement for each NOL year.

How to use the NOL. If you choose to carry back the NOL, you must first carry the entire NOL to the earliest carryback year. If your NOL is not used up, you can carry the rest to the next earliest carryback year, and so on.

If you do not use up the NOL in the 2 carryback years, carry forward what remains of it to the 20 tax years following the NOL year. Start by carrying it to the first tax year after the NOL year. If you do not use it up, carry the unused part to the next year. Continue to carry any unused part of the NOL until you complete the 20-year carryforward period.

Example 1. You started your business as a sole proprietor in 2000 and had a \$42,000 NOL for the year. No part of the NOL qualifies for the 3-year or 5-year carryback period. You begin using your NOL in 1998, the second year before the NOL year, as shown in the following chart.

Year	Carryback/ Carryover	Unused Loss
1998	\$42,000	\$40,000
1999	40,000	37,000
2000 (NOL year)		
2001	37,000	31,500
2002	31,500	22,500
2003	22,500	12,700
2004	12,700	4,000
2005	4,000	—

If your loss were larger, you could carry it forward until the year 2020. If you still had an unused 2000 carryforward after the year 2020, you could not deduct it.

Example 2. Assume the same facts as in Example 1, except that \$4,000 of the NOL is attributable to a casualty loss and this loss qualifies for a 3-year carryback period. You begin using the \$4,000 in 1997. As shown in the following chart, \$3,000 of this NOL is used in 1997. The remaining \$1,000 is carried to 1998 along with the \$38,000 NOL that you must begin using in 1998.

Year	Carryback/ Carryover	Unused Loss
1997	\$3,000	\$1,000
1998	39,000	37,000
1999	37,000	34,000
2000 (NOL year)		
2001	34,000	28,500
2002	28,500	19,500
2003	19,500	9,700
2004	9,700	1,000
2005	1,000	—

How To Claim an NOL Deduction

If you have not already carried the NOL to an earlier year, your NOL deduction is the total NOL. If you carried the NOL to an earlier year, your NOL deduction is the NOL minus the amount you used in the earlier year or years.

If you carry more than one NOL to the same year, your NOL deduction is the total of these carrybacks and carryovers.

NOL more than taxable income. If your NOL is more than the taxable income of the year you carry it to (figured before deducting the NOL), you generally will have an NOL carryover to the next year. See *How To Figure an NOL Carryover*, later, to determine how much NOL you have used and how much you carry to the next year.

Deducting a Carryback

If you carry back your NOL, you can use either Form 1045 or Form 1040X. You can get your refund faster by using Form 1045, but you have a shorter time to file it. You can use Form 1045 to apply an NOL to all carryback years. If you use Form 1040X, you must use a separate Form 1040X for each carryback year to which you apply the NOL.

Estates and trusts not filing Form 1045 must file an amended Form 1041 (instead of Form 1040X) for each carryback year to which NOLs are applied. Use a copy of the appropriate year's Form 1041, check the "Amended return" box, and follow the Form 1041 instructions for amended returns. Include the NOL deduction with other deductions not subject to the 2% limit (line 15a for 1998 and 1999). Also, see the special procedures for filing an amended return due

to an NOL carryback, explained under *Form 1040X*, later.

Form 1045. You can apply for a quick refund by filing Form 1045. This form results in a tentative adjustment of tax in the carryback year. See the Form 1045 illustrated at the end of this discussion.

If the IRS refunds or credits an amount to you from Form 1045 and later determines that the refund or credit is too much, the IRS may assess and collect the excess immediately.

You must file Form 1045 on or after the date you file your tax return for the NOL year, but not later than one year after the NOL year. For example, if you are a calendar year taxpayer with a carryback from 2000 to 1998, you must file Form 1045 on or after the date you file your tax return for 2000, but no later than December 31, 2001.

Form 1040X. If you do not file Form 1045, you can file Form 1040X to get a refund of tax because of an NOL carryback. File Form 1040X within 3 years after the due date, including extensions, for filing the return for the NOL year. For example, if you are a calendar year taxpayer and filed your 1997 return by the April 15, 1998, due date, you must file a claim for refund of 1995 tax because of an NOL carryback from 1997 by April 16, 2001. (Since April 15, 2001, falls on a Sunday, the due date is extended to April 16, 2001.)

Attach a computation of your NOL using Schedule A (Form 1045) and, if it applies, your NOL carryover using Schedule B (Form 1045), discussed later.

Refiguring your tax. To refigure your total tax liability for a carryback year, first refigure your adjusted gross income for that year. (On Form 1045, use lines 10 through 12 and the "After carryback" column for the applicable carryback year.) Use your adjusted gross income after applying the NOL deduction to refigure income or deduction items that are based on, or limited to, a percentage of your adjusted gross income. Refigure the following items.

- 1) The special allowance for passive activity losses from rental real estate activities.
- 2) Taxable social security and tier 1 railroad retirement benefits.
- 3) IRA deductions.
- 4) Excludable savings bond interest.
- 5) Excludable employer-provided adoption benefits.
- 6) Student loan interest deduction.

If more than one of these items apply, refigure them in the order listed above, using your adjusted gross income after applying the NOL deduction and any previous item. (On line 10 of Form 1045, using the "After carryback" column, enter your adjusted gross income after applying the above refigured items, but without the NOL deduction. Enter your NOL deduction on line 11.)

Next, refigure your taxable income. (On Form 1045, use lines 13 through 16 and the "After carryback" column.) Use your refigured adjusted gross income (line 12 of Form 1045, using the "After carryback" column) to refigure certain deductions and other items that are based on, or limited to, a percentage of your adjusted gross income. Refigure the following items.

- 1) The itemized deduction for medical expenses.
- 2) The itemized deduction for casualty losses.
- 3) Certain miscellaneous itemized deductions.
- 4) The overall limit on itemized deductions.
- 5) The phaseout of the deduction for exemptions.

Do not refigure the itemized deduction for charitable contributions.

Finally, use your refigured taxable income (line 16 of Form 1045, using the "After carryback" column) to refigure your total tax liability. Refigure your income tax, your alternative minimum tax, and any credits that are based on, or limited to, the amount of tax. (On Form 1045, use lines 17 through 26, and the "After carryback" column.) The earned income credit, for example, may be affected by changes to adjusted gross income or the amount of tax (or both) and, therefore, must be recomputed. If you become eligible for a credit because of the carryback, complete the form for that specific credit (such as Schedule EIC) for that year.

While it is necessary to refigure your income tax, alternative minimum tax, and credits, **do not refigure your self-employment tax.**

Deducting a Carryforward

If you carry forward your NOL to a tax year after the NOL year, list your NOL deduction as a negative figure on the "Other income" line of Form 1040 (line 21 for 2000). Estates and trusts include an NOL deduction on Form 1041 with other deductions not subject to the 2% limit (line 15a for 2000).

You must attach a statement that shows all the important facts about the NOL. Your statement should include a computation showing how you figured the NOL deduction. If you deduct more than one NOL in the same year, your statement must cover each of them.

Change in Marital Status

If you and your spouse were **not** married to each other in all years involved in figuring NOL carrybacks and carryovers, only the spouse who had the loss can take the NOL deduction. If you file a joint return, the NOL deduction is limited to the income of that spouse.

For example, if your marital status changes because of death or divorce, and in a later year you have an NOL, you can carry back that loss only to the part of the income reported on a joint return (filed with your former spouse) that was **your** taxable income. After you deduct the NOL in the carryback year, the joint rates apply to the resulting taxable income.

Refund limit. If you are not married in the NOL year (or are married to a different spouse), and in the carryback year you were married and filed a joint return, your refund for the overpaid joint tax may be limited. You can claim a refund for the difference between your share of the refigured tax and your contribution toward the tax paid on the joint return. The refund cannot be more than the joint overpayment. Attach a statement showing how you figured your refund.

Figuring your share of a joint tax liability. There are five steps for figuring your share of the refigured joint tax liability.

- 1) Figure your total tax as though you had filed as "married filing separately."
- 2) Figure your spouse's total tax as though your spouse had also filed as "married filing separately."
- 3) Add the amounts in (1) and (2).
- 4) Divide the amount in (1) by the amount in (3).
- 5) Multiply the refigured tax on your joint return by the amount figured in (4). This is your share of the joint tax liability.

Figuring your contribution toward tax paid. Unless you have an agreement or clear evidence of each spouse's contributions toward the payment of the joint tax liability, figure your contribution by adding the tax withheld on your wages and your share of joint estimated tax payments or tax paid with the return. If the original return for the carryback year resulted in an overpayment, reduce your contribution by your share of the tax refund. Figure your share of a joint payment or refund by the same method used in figuring your share of the joint tax liability. Use your taxable income as originally reported on the joint return in steps (1) and (2) (above), and substitute the joint payment or refund for the refigured joint tax in step (5).

Change in Filing Status

If you and your spouse were married and filed a joint return for each year involved in figuring NOL carrybacks and carryovers, figure the NOL deduction on a joint return as you would for an individual. However, treat the NOL deduction as a joint NOL. Figure it from the joint NOLs.

If you and your spouse were married and filed separate returns for each year involved in figuring NOL carrybacks and carryovers, the spouse who sustained the loss may take the NOL deduction on a separate return.

Special rules apply for figuring the NOL carrybacks and carryovers of married people whose filing status changes for any tax year involved in figuring an NOL carryback or carryover.

Separate to joint return. If you and your spouse file a joint return for a carryback or carryforward year, and were married but filed separate returns for any of the tax years involved in figuring the NOL carryback or carryover, treat the separate carryback or carryover as a joint carryback or carryover.

Joint to separate returns. If you and your spouse file separate returns for a carryback or carryforward year, but filed a joint return for any or all of the tax years involved in figuring the NOL carryover, figure each of your carryovers separately.

Joint return in NOL year. Figure each spouse's share of the joint NOL in the following steps:

- 1) Figure each spouse's NOL as if he or she filed a separate return. See *How To Figure an NOL*, earlier. If only one spouse has an NOL, **stop here**. All of the joint NOL is that spouse's NOL.

- 2) If both spouses have an NOL, multiply the joint NOL by a fraction, the numerator of which is spouse A's NOL figured in (1) and the denominator of which is the total of the spouses' NOLs figured in (1). The result is spouse A's share of the joint NOL. The rest of the joint NOL is spouse B's share.

Example 1. Mark and Nancy are married and file a joint return for 2000. They have an NOL of \$5,000. They carry the NOL back to 1998, a year in which Mark and Nancy filed separate returns. Figured separately, Nancy's 2000 deductions were more than her income, and Mark's income was more than his deductions. Mark does not have any NOL to carry back. Nancy can carry back the entire \$5,000 NOL to her 1998 separate return.

Example 2. Assume the same facts as in Example 1, except that both Mark and Nancy had deductions in 2000 that were more than their income. Figured separately, his NOL is \$1,800 and hers is \$3,000. The sum of their separate NOLs (\$4,800) is less than their \$5,000 joint NOL because his deductions included a \$200 net capital loss that is not allowed in figuring his separate NOL. The loss is allowed in figuring their joint NOL because it was offset by Nancy's capital gains. Mark's share of their \$5,000 joint NOL is \$1,875 ($\$5,000 \times \$1,800/\$4,800$) and Nancy's is \$3,125 ($\$5,000 - \$1,875$).

Joint return in previous carryback or carryforward year. If only one spouse had an NOL deduction on the previous year's joint return, all of the joint carryover is that spouse's carryover. If both spouses had an NOL deduction (including separate carryovers of a joint NOL, figured as explained in the previous discussion), figure each spouse's share of the joint carryover in the following steps.

- 1) Figure each spouse's modified taxable income as if he or she filed a separate return. See *Modified taxable income* under *How To Figure an NOL Carryover*, later.
- 2) Multiply the joint modified taxable income you used to figure the joint carryover by a fraction, the numerator of which is spouse A's modified taxable income figured in (1) and the denominator of which is the total of the spouses' modified taxable incomes figured in (1). This is spouse A's share of the joint modified taxable income.
- 3) Subtract the amount figured in (2) from the joint modified taxable income. This is spouse B's share of the joint modified taxable income.
- 4) Reduce the amount figured in (3), but not below zero, by spouse B's NOL deduction.
- 5) Add the amounts figured in (2) and (4).
- 6) Subtract the amount figured in (5) from spouse A's NOL deduction. This is

spouse A's share of the joint carryover. The rest of the joint carryover is spouse B's share.

Example. Sam and Wanda filed a joint return for 1998 and separate returns for 1999 and 2000. In 2000, Sam had an NOL of \$18,000 and Wanda had an NOL of \$2,000. They carry back both NOLs to their 1998 joint return and claim a \$20,000 NOL deduction.

Their joint modified taxable income (MTI) for 1998 is \$15,000, and their joint NOL carryover to 1999 is \$5,000 ($\$20,000 - \$15,000$). They figure their shares of the \$5,000 carryover as follows:

Step 1.	
Sam's separate MTI	\$9,000
Wanda's separate MTI	+ 3,000
Total MTI	\$12,000

Step 2.	
Joint MTI	\$15,000
Sam's MTI + total MTI ($\$9,000 + \$12,000$)	$\times .75$
Sam's share of joint MTI	\$11,250

Step 3.	
Joint MTI	\$15,000
Sam's share of joint MTI	- 11,250
Wanda's share of joint MTI	\$3,750

Step 4.	
Wanda's share of joint MTI	\$3,750
Wanda's NOL deduction	- 2,000
Wanda's remaining share	\$1,750

Step 5.	
Sam's share of joint MTI	\$11,250
Wanda's remaining share	+ 1,750
Joint MTI to be offset	\$13,000

Step 6.	
Sam's NOL deduction	\$18,000
Joint MTI to be offset	- 13,000
Sam's carryover to 1999	<u>\$5,000</u>
Joint carryover to 1999	\$5,000
Sam's carryover	- 5,000
Wanda's carryover to 1999	<u>\$-0-</u>

Wanda's \$2,000 NOL deduction offsets \$2,000 of her \$3,750 share of the joint modified taxable income and is completely used up. She has no carryover to 1999. Sam's \$18,000 NOL deduction offsets all of his \$11,250 share of joint modified taxable income and the remaining \$1,750 of Wanda's share. His carryover to 1999 is \$5,000.

Illustrated Form 1045

The following example illustrates how to use Form 1045 to claim an NOL deduction in a carryback year. It includes a filled in page 1 of Form 1045.

Example. Martha Sanders is a self-employed contractor. Martha's 2000 deductions are more than her 2000 income because of a business loss. She uses Form 1045 to carry back her NOL and claim an NOL deduction in 1998. (See the filled in Form 1045 included here.) Her filing status in both years was "single."

Martha figures her 2000 NOL on Schedule A, Form 1045 (not shown). (For an example using Schedule A, see *Illustrated Schedule A (Form 1045)* under *How To Figure an NOL*, earlier.) She enters the \$10,000 NOL from

line 27 of Schedule A on line 1a of page 1 of Form 1045.

Martha completes lines 10 through 26, using the "Before carryback" column under the column labeled, "2nd preceding tax year ended 12/31/98" on page 1 of Form 1045 using the following amounts from her 1998 return.

1998 Adjusted gross income	\$50,000
Itemized deductions:	
Medical expenses [\$6,000 - ($\$50,000 \times 7.5\%$)]	
.....	\$2,250
State income tax	+ 2,000
Real estate tax	+ 4,000
Home mortgage interest	+ 5,000
Total itemized deductions	\$13,250
Exemption	\$2,700
Income tax	\$6,246
Self-employment tax	\$6,120

Martha refigures her taxable income for 1998 after carrying back her 2000 NOL as follows:

1998 Adjusted gross income	\$50,000
Less:	
NOL from 2000	-10,000
2000 Adjusted gross income after carryback	\$40,000
Less:	
Itemized deductions:	
Medical expenses [\$6,000 - ($\$40,000 \times 7.5\%$)]	
.....	\$3,000
State income tax	+ 2,000
Real estate tax	+ 4,000
Home mortgage interest	+ 5,000

Total itemized deductions	-14,000
Less:	
Exemption	- 2,700
1998 Taxable income after carryback	<u>\$23,300</u>

Martha then completes lines 10 through 26, using the "After carryback" column under the column labeled, "2nd preceding tax year ended 12/31/98." On line 11, Martha enters her \$10,000 NOL deduction. Her new adjusted gross income on line 12, is \$40,000 ($\$50,000 - \$10,000$). To complete line 13, she must refigure her medical expense deduction using her new adjusted gross income. Her refigured medical expense deduction is \$3,000 [$\$6,000 - (\$40,000 \times 7.5\%)$]. This increases her total deductions to \$14,000 [$\$13,250 + (\$3,000 - \$2,250)$].

Martha uses her refigured taxable income (\$23,300) from line 16, and the tax tables in her 1998 Form 1040 instructions to find her income tax. She enters the new amount, \$3,499, on line 17, and her new total tax liability, \$9,619, on line 26.

Since Martha used up her \$10,000 NOL in 1998, she does not complete a column for the first preceding tax year ended 12/31/99. The decrease in tax because of her NOL deduction (line 28) is \$2,747.

Martha files Form 1045 after filing her 2000 return, but no later than December 31, 2001. She mails it to the Internal Revenue Service Center where she filed her 2000 return and attaches a copy of her 2000 return (including the applicable forms and schedules).

How To Figure an NOL Carryover

If your NOL is more than your taxable income for the year to which you carry it (figured before deducting the NOL), you may have an NOL carryover. You must make certain modifications to your taxable income to determine how much NOL you will use up in that year and how much you can carry over to the next tax year. Your carryover is the excess of your NOL deduction over your modified taxable income for the carryback or carryforward year. If your NOL deduction includes more than one NOL, apply the NOLs against your modified taxable income in the same order in which you incurred them, starting with the earliest.

Modified taxable income. Your modified taxable income is your taxable income figured with the following changes.

- 1) You cannot claim an NOL deduction for the NOL whose carryover you are figuring or for any later NOL.
- 2) You cannot claim a deduction for capital losses in excess of your capital gains. Also, you must increase your taxable income by the amount of any section 1202 exclusion claimed on Schedule D (Form 1040).
- 3) You cannot claim your exemptions for yourself, your spouse, or dependents.
- 4) You must figure any item affected by the amount of your adjusted gross income after making the changes in (1) and (2), above, and certain other changes to your adjusted gross income that result from (1) and (2). This includes income and deduction items used to figure adjusted gross income (for example, IRA deductions), as well as certain itemized deductions. To figure a charitable contribution deduction, do not include deductions for NOL carrybacks in the change in (1) but do include deductions for NOL carryforwards from tax years before the NOL year.

Your taxable income as modified cannot be less than zero.

Schedule B (Form 1045). You can use Schedule B (Form 1045) to figure your modified taxable income for carryback years and your carryover from each of those years. Do **not** use Schedule B for a carryforward year. If your 2000 return includes an NOL de-

duction from an NOL year before 2000 that reduced your taxable income to zero (to less than zero, if an estate or trust), see *NOL Carryover From 2000 to 2001*, later.

Illustrated Schedule B (Form 1045)

The following example illustrates how to figure an NOL carryover from a carryback year. It includes a filled in Schedule B (Form 1045).

Example. Ida Brown runs a small clothing shop. In 2000, she has an NOL of \$36,000 that she chooses to carry back to 1998. She has no other carrybacks or carryovers to 1998.

Ida's adjusted gross income in 1998 was \$29,000, consisting of her salary of \$30,000 minus a \$1,000 capital loss deduction. She is single and claimed only one personal exemption of \$2,700. During that year, she gave \$1,450 in charitable contributions. Her medical expenses were \$2,725. She also deducted \$1,650 in taxes and \$1,125 in home mortgage interest.

Her deduction for charitable contributions was not limited because her contributions, \$1,450, were less than 50% of her adjusted gross income. The deduction for medical expenses was limited to expenses over 7.5% of adjusted gross income ($.075 \times \$29,000 = \$2,175$; $\$2,725 - \$2,175 = \$550$). The deductions for taxes and home mortgage interest were not subject to any limits. She was able to claim \$4,775 ($\$1,450 + \$550 + \$1,650 + \$1,125$) in itemized deductions for 1998. She had no other deductions in 1998. Her taxable income for the year was \$21,525.

Ida's \$36,000 carryback will reduce her 1998 taxable income to zero. She completes the column labeled "2nd preceding tax year ended 12/31/98," of Schedule B (Form 1045) to figure how much of her NOL she uses up in 1998 and how much she can carry over to 1999. See the illustrated Schedule B shown here. Ida does not complete the column for the first preceding tax year ended 12/31/99 because the \$10,700 carryover to 1999 is completely used up that year. (See the information for line 9, below.)

Line 1. Ida enters \$36,000, her 2000 net operating loss, on line 1.

Line 2. She enters \$21,525, her 1998 taxable income, on line 2.

Line 3. Ida enters on line 3 her net capital loss deduction of \$1,000.

Line 5. Although Ida's entry on line 3 modifies her adjusted gross income, that does not affect any other items included in her adjusted gross income. Ida enters zero on line 5.

Line 6. Since Ida had itemized deductions and entered \$1,000 on line 3, she completes lines 10 through 34 to figure her adjustment to itemized deductions. On line 6, she enters the total adjustment from line 34.

Line 10. Ida's adjusted gross income for 1998 was \$29,000.

Line 11. She adds lines 3 through 5 and enters \$1,000 on line 11. (This is her net capital loss deduction added back, which modifies her adjusted gross income.)

Line 12. Her modified adjusted gross income for 1998 is now \$30,000.

Line 13. On her 1998 tax return, she deducted \$550 as medical expenses.

Line 14. Her actual medical expenses were \$2,725.

Line 15. She multiplies her modified adjusted gross income, \$30,000, by .075. She enters \$2,250 on line 15.

Line 16. The difference between her actual medical expenses and the amount she is allowed to deduct is \$475.

Line 17. The difference between her medical deduction and her modified medical deduction is \$75. She enters this on line 17.

Line 18. She enters her modified adjusted gross income of \$30,000 on line 18.

Line 19. She had no other carrybacks to 1998 and enters zero on line 19.

Line 20. Her modified adjusted gross income remains \$30,000.

Line 21. Her actual contributions for 1998 were \$1,450, which she enters on line 21.

Line 22. She now refigures her charitable contributions based on her modified adjusted gross income. Since she is well below the 50% limit, she enters \$1,450 on line 22.

Line 23. The difference is zero.

Lines 24 through 33. Since Ida had no casualty losses or deductions for miscellaneous items in 1998, she leaves these lines blank.

Line 34. She combines lines 17, 23, 28, and 33 and enters \$75 on line 34. She carries this figure to **line 6**.

Line 7. Ida enters her personal exemption of \$2,700 for 1998.

Line 8. After combining lines 2 through 7, Ida's modified taxable income is \$25,300.

Line 9. Ida figures her carryover to 1999 by subtracting her modified taxable income (line 8) from her NOL deduction (line 1). She enters the \$10,700 carryover on line 9. She also enters this \$10,700 as her NOL deduction for 1999 on line 11 of page 1, Form 1045, in the "After carryback" column under the column labeled "1st preceding tax year ended 12/31/99." (For an illustrated example of page 1 of Form 1045, see *Illustrated Form 1045 under How To Claim an NOL Deduction*, earlier.)

NOL Carryover From 2000 to 2001

If you had an NOL deduction that reduced your taxable income on your 2000 return to zero (to less than zero, if an estate or trust), complete Table 1, *Worksheet for NOL Carryover From 2000 to 2001*. It will help you figure your NOL to carry to 2001. Keep the worksheet for your records.

Worksheet Instructions

At the top of the worksheet, enter the NOL year for which you are figuring the carryover.

More than one NOL. If your 2000 NOL deduction includes amounts for more than one loss year, complete this worksheet only for one loss year. To determine which year, start with your earliest NOL and subtract each NOL separately from your taxable income figured without the NOL deduction. Complete this worksheet for the earliest NOL that reduces your taxable income below zero. Your earlier NOLs will be completely used up in 2000. Your NOL carryover to 2001 is the total of the amount on line 9 of the worksheet and all later NOL amounts.

Example. Your taxable income for 2000 is \$4,000 without your \$9,000 NOL deduction. Your NOL deduction includes \$2,000 for 1998 and \$7,000 for 1999. Subtract your 1998 NOL of \$2,000 from \$4,000. This gives you taxable income of \$2,000. Your 1998 NOL is now completely used up. Subtract your \$7,000 1999 NOL from \$2,000. This gives you taxable income of (\$5,000). You now complete the worksheet for your 1999 NOL. Your NOL carryover to 2001 is the unused part of your 1999 NOL from line 9 of the worksheet.

Line 2. Treat your NOL deduction for the NOL year entered at the top of the worksheet and later years as a positive amount. Add it

to your negative taxable income. Enter the result on line 2.

Line 5. You must refigure the following income and deductions based on adjusted gross income.

- 1) The special allowance for passive activity losses from rental real estate activities.
- 2) Taxable social security and tier 1 railroad retirement benefits.
- 3) IRA deduction.
- 4) Excludable savings bond interest.
- 5) Excludable employer-provided adoption benefits.
- 6) Student loan interest deduction.

If none of these items apply to you, enter zero on line 5. Otherwise, increase your adjusted gross income by the total of lines 3 and 4 and your NOL deduction for the NOL year entered at the top of the worksheet and later years. Using this increased adjusted gross income, refigure the items that apply, in the order listed above. Your adjustment for each item is the difference between the refigured amount and the amount included on your return. Add the adjustments for previous items to your adjusted gross income before refiguring the next item. Keep a record of your computations.

Enter your total adjustments for the above items on line 5.

Line 6. Enter zero if you claimed the standard deduction. Otherwise, use lines 10 through 41 of the worksheet to figure the amount to enter on this line. Complete only those sections that apply to you.

Estates and trusts. Enter zero on line 6 if you did not claim any miscellaneous deductions on line 15b (Form 1041) or a casualty or theft loss. Otherwise, refigure these deductions by substituting modified adjusted gross income (see below) for adjusted gross income. Subtract the recomputed deductions

from those claimed on the return. Enter the result on line 6.

Modified adjusted gross income. To refigure miscellaneous itemized deductions of an estate or trust (Form 1041, line 15b), modified adjusted gross income is the total of the following amounts.

- 1) The adjusted gross income on the return.
- 2) The amounts from lines 3 and 4 of the worksheet.
- 3) The exemption amount from Form 1041, line 20.
- 4) The NOL deduction for the NOL year entered at the top of the worksheet and for later years.

To refigure the casualty and theft loss deduction of an estate or trust, modified adjusted gross income is the total of the following amounts.

- 1) The adjusted gross income amount you used to figure the deduction claimed on the return.
- 2) The amounts from lines 3 and 4 of the worksheet.
- 3) The NOL deduction for the NOL year entered at the top of the worksheet and for later years.

Line 10. Treat your NOL deduction for the NOL year entered at the top of the worksheet and for later years as a positive amount. Add it to your adjusted gross income. Enter the result on line 10.

Line 19. If you had a contributions carryover from 1999 to 2000 and your NOL deduction includes an amount from an NOL year before 1999, you may have to reduce your contributions carryover. This reduction is any adjustment you made to your 1999 charitable contributions deduction when figuring your NOL carryover to 2000. Use the reduced contributions carryover to figure the amount to enter on line 19.
