CONSUMER CREDIT February 2003 For release at **3 p.m.** (Eastern Time)
April 7, 2003

Consumer credit rose at an annual rate of 1 percent in February following an 8-1/2 percent increase in January. Revolving credit posted a sizable gain, while nonrevolving credit declined moderately.

^{1.} Seasonally adjusted data have been revised from January 1998 forward as a result of new seasonal factors.

r=revised. p=preliminary.

^{2.} Covers most short- and intermediate-term credit extended to individuals, excluding loans secured by real estate.

^{3.} The series for consumer credit outstanding and its components may contain breaks that result from discontinuities in source data. Growth rates are adjusted to exclude the effect of such breaks.

^{4.} Percent changes calculated from unrounded data.

^{5.} Includes automobile loans and all other loans not included in revolving credit, such as loans for mobile homes, education, boats, trailers, or vacations. These loans may be secured or unsecured.

^{6.} Interest rates are annual percentage rates (APR) as specified by the Federal Reserve's Regulation Z. Interest rates for new-car loans and personal loans at commercial banks are simple unweighted averages of each bank's most common rate charged during the first calendar week of the middle month of each quarter. For credit card accounts, the rate for *all accounts* is the stated APR averaged across all credit card accounts at all reporting banks. The rate for *accounts assessed interest* is the annualized ratio of total finance charges at all reporting banks to the total average daily balances against which the finance charges were assessed (excludes accounts for which no finance charges were assessed). Finance company data are from the subsidiaries of the three major U.S. automobile manufacturers and are volume-weighted averages covering all loans of each type purchased during the month.

^{7.} Outstanding balances of pools upon which securities have been issued; these balances are no longer carried on the balance sheets of the loan originators.

^{8.} Includes estimates for holders that do not separately report consumer credit holding by type.
